

CRIME IS ON THE INCREASE IN WESTERN CANADA, HE SAYS

Commissioner Perry, head of the Royal Northwest Mounted Police, declares horse stealing is becoming much more prevalent in Dawson. Patrols made record trip—Patrols to be established to protect the wood bison in the north.

Horse stealing throughout the west is much more prevalent now than formerly, and crime in general has increased during the last few years. Such was the statement made this morning by Commissioner Perry, of the R.N.W.M.P., to a Bulletin reporter. Commissioner Perry arrived in the city this morning from Regina for the purpose of inspecting the Edmonton detachment of the R.N.W.M.P.

Questioned as to the probable reason for the increase in crime, the Commissioner could give no explanation beyond the fact that the population of the western provinces is rapidly increasing, and it is natural that crime should increase correspondingly.

In regard to horse stealing, he said, "I am not sure whether there is a real increase or whether our men are catching more of the horse thieves than they formerly did." At any rate, the statistics show a large increase. The greatest part of the stealing is done in Southern Alberta, where it is easy for a crook to steal a couple of horses and cross the boundary without being detected.

Made Record Trip. Commissioner Perry received a telegram from the coast stating that Sergeant Darling and his patrol reached Atlin on October 5th. The party left Athabasca Landing in early May for the purpose of patrolling the old Yukon trail as far as Dawson City. The trail has never been used since the Klondyke rush, and reaching Atlin in five months the party established a record. On the way up the patrol cleared the trail, which in many places was very bad, due to wind falls and other obstacles, completely blocking it.

At Fort Smith and Port Chipewyan two patrols have been established by the R.N.W.M.P. for the purpose of protecting the wood bison. According to the latest reports, these animals are on the increase, and a herd of seventy-five wood bison was recently discovered by the patrol.

The detachments stationed along the Arctic coast are to be increased by a rather full one, as no whalers were in the north sea. It is the custom of the whalers to return south every second winter for provisions, and last fall the entire fleet left for civilization, in order to stock up for another year.

Force Still Needed. In Commissioner Perry's opinion the R.N.W.M.P. will continue to preserve order in the west for years to come. "We have not outlived our usefulness yet, as some people seem to think," he said. "On the contrary, every year we are taking in new recruits and there is plenty of work for them all."

RACE FOR THE SOUTH POLE INVOLVES SIX COUNTRIES

Great Britain, Japan, Germany, Norway, Argentina and America all have expeditions under way—British expedition expects to reach pole in December next—German expedition plans to make start this month.

Christiana, Norway, Oct. 9.—The race for the South pole is on in earnest. An even half dozen expeditions are likely to be in it ere long and the list of entries never closes.

The expeditions already on foot or contemplated represent Great Britain, Japan, Germany, Norway, Argentina and America.

Capt. Scott's British expedition set sail from London on the Terra Nova, heading to the arctic coast. The expedition of next year.

Lieut. Peckham, of the German army general staff, plans to start his expedition in two vessels this month. He estimates the cost at \$100,000. The ship if he raises only \$50,000.

Lieut. Shirase, a retired officer of the Japanese navy, has organized an expedition from Tokyo, Nov. 5, in a 300-ton sailing vessel with auxiliary steam engine. This party will be equipped for rapid work and will require nothing but absolutely necessary supplies.

An agent of the Argentine government visited the Polar region shipyard at Ushuaia, to inspect the plans of the Argentine expedition to the Antarctic region. The expedition of next year.

The question of making such an appropriation rests entirely in the hands of the city council, said his worship, Mayor Lee, to the Bulletin yesterday. "I have no doubt that the distress which appears to be widespread in the fire-swept district around Rainy River will excite the sympathy of the aldermen and result in a contribution being forwarded."

In the case of Fernie, which was completely destroyed last year by a disastrous fire, the city of Edmonton sent provisions and fodder to the amount of \$10,000. The city of New Brunswick town which was devastated a few months ago by fire, leaving the residents of the town homeless, has been helped by the city of Edmonton, which made a cash contribution of \$500.

"Rainy River being nearer home than Campbellton," said the mayor, "I have no doubt the city will contribute generously to the relief of the distress there."

WANT SENTENCE COMMUTED. Dr. Ernest Hall who said murderer Ellison was insane repeats his opinion.

Victoria, B.C., Oct. 10.—An effort will be made to secure the commutation of the sentence of death passed upon Gunner Thomas Allen last week for the murder of Capt. Peter Ellison. The matter was brought up yesterday by Dr. Ernest Hall at a meeting of the Victoria Local Option League.

At the trial Dr. Hall gave evidence to the effect that Allen was suffering from insanity. His testimony was described by Chief Justice Hunter as exaggerated and obviously carried on weight with the jury which found Allen guilty.

Dr. Hall repeated his opinion with considerable vigor yesterday. He said that in the case of a man who is insane, it is not fair to put him to death. He said that in the case of a man who is insane, it is not fair to put him to death.

He reviewed the evidence at some length, declaring that Allen was insane from uncontrollable homicidal impulse and is now in the early stage of chronic dementia. "If Allen hangs," he said, "it will be one of the most disgraceful affairs that have happened in our city. He will be simply the victim of human greed and sin."

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, and my indignation vanished. They always have a place in my home and are looked upon as the family remedy.

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

WOULD HAVE HEATEN STATES

This is John D. Long's opinion that war has been declared between U. S. and Japan.

Chicago, Oct. 10.—The United States would have been whipped by Japan if there had been a war between the two countries as an outgrowth of the trouble over the exclusion of the Japanese from seaports attended by white children in San Francisco, according to a statement made by John D. Long, of New York.

Mr. Long was speaking on the subject of "Merchant Marine" as a member of the merchant marine committee of 100 of New York at a noonday luncheon of the ways and means committee of the Chicago Association of Commerce.

Starting in a commercial way, he branched into its significance to the United States. He said that almost at his elbow sat Keiemon Yamasaki, Japanese vice-consul in Chicago, whose attitude indicated interest in the speaker's remarks. He said that this country is woefully weak in defence on account of its insignificant marine service.

The trip of the sixteen warships to the Far East and home was characterized by the speaker as a demonstration that made the Mikado laugh because of its feebleness. "That ship," he said, "had no more substance than a toy balloon," said the visitor.

COLONEL SAM HUGHES IS A VISITOR TO CITY

The Conservative Member from London, Ontario, is expected to arrive in the city tomorrow.

Monday's Daily News says that Colonel Sam Hughes, M.P. for Victoria and Nanaimo, in Ontario, arrived in the city yesterday on his way to Victoria and is registered at the Albergo Hotel. When seen by the Bulletin, Colonel Hughes stated that his visit to the West was purely of a private nature, but notwithstanding this he expressed his views on certain questions with his customary abandon.

Opposed to Free Trade. "I am decidedly opposed to free trade and am a firm believer in protection," said Colonel Hughes. "By that I mean reasonable protection. I am opposed to protecting the manufacturer at the expense of the working man."

"Great Britain's progress commercially has not been due to free trade, but to the foundation for her trade made long years ago when she had practically no competitors. Now, the case is different. Other countries are now flooding the British markets with their goods and are ruining the British manufacturer in laboring under a serious handicap."

"Canada's progress should be a higher protective tariff. This movement for reciprocity with the United States is a bad thing. It is a scheme to ruin the Canadian manufacturer and to ruin the British manufacturer in laboring under a serious handicap."

Imperialist, But—Colonel Hughes is also an imperialist and believes that Canada's navy should be a part and parcel of the British navy.

"But," he said, "I do not believe in Canada putting her navy in the hands of Great Britain to be disposed of as the mother country sees fit. We ourselves should have a navy of our own. And in order that this may be possible one great imperial parliament should be formed and the navy should be controlled by the British, but the Imperial navy."

"I am looking forward to the time when it will not be Great Britain, or Canada, or Australia, but the British Empire as a whole, that will have a say in the affairs of the world."

Laurier Not Sincere, He Says. Colonel Hughes is of the opinion that the Liberal government at Ottawa is not favorable to closer union with the mother land.

"I think that Mr. Laurier is not sincere," he said. "He is not sincere in his promises of closer union with the mother land. He is not sincere in his promises of closer union with the mother land."

Anti-Borden Agitation. When asked regarding the agitation existing in some quarters of the Conservative ranks against Mr. Borden as leader of the party, Colonel Hughes was enthusiastic in his praise of the opposition leader.

"Borden is the chief in the present," he said. "He is the chief in the present. He is the chief in the present. He is the chief in the present."

SAYS IT IS FOR "BOODLE." Cork Free Press Imputes Motives of R. P. O'Connor.

Dublin, Oct. 10.—William O'Brien's Free Press, says that the simultaneous announcements that T. P. O'Connor and John Keene were in Ottawa, and that the New York Irish party is prepared to accept a measure of government for Ireland on the Canadian model as part of the Federal scheme, is the result of a bargain with Borden's vote.

At the trial Dr. Hall gave evidence to the effect that Allen was suffering from insanity. His testimony was described by Chief Justice Hunter as exaggerated and obviously carried on weight with the jury which found Allen guilty.

Dr. Hall repeated his opinion with considerable vigor yesterday. He said that in the case of a man who is insane, it is not fair to put him to death. He said that in the case of a man who is insane, it is not fair to put him to death.

AS MINISTER OF LANDS. W. R. Ross, Fernie, to Enter B.C. Provincial Cabinet.

Victoria, B.C., October 9.—W. R. Ross, of Fernie, will be taken into the provincial cabinet as minister of lands. Prime Minister Borden has accepted the resignation of Mr. Ross as minister of lands.

W. R. Ross, of Fernie, will be taken into the provincial cabinet as minister of lands. Prime Minister Borden has accepted the resignation of Mr. Ross as minister of lands.

SOUNDS A WARNING ON NAVAL AFFAIRS

Admiral A. T. Mahan, of United States Navy, says Great Britain's naval power is being weakened by the loss of the British fleet.

London, Oct. 7.—One of the most interesting contributions on the subject of British and the German navy is from the pen of Admiral A. T. Mahan, U.S.N., a well known writer on naval topics. The huge development of the German navy within the past decade, he points out, and the assumption that the present rate of expenditure—over \$20,000,000 annually—will be maintained for several years to come, is a matter of general interest.

Almost at his elbow sat Keiemon Yamasaki, Japanese vice-consul in Chicago, whose attitude indicated interest in the speaker's remarks. He said that this country is woefully weak in defence on account of its insignificant marine service.

The trip of the sixteen warships to the Far East and home was characterized by the speaker as a demonstration that made the Mikado laugh because of its feebleness. "That ship," he said, "had no more substance than a toy balloon," said the visitor.

What reason is there in the nature of things that the British democracy should not maintain an army proportionately as great as that of Germany? None, except that the British democracy will not. The national youth is vastly greater, but not sufficiently so, to maintain an army proportionately as great as that of Germany.

There remains the fleet, and it is the privilege of naval strategists to point out that the British fleet is in a position to be overwhelmed by a hostile force in the Mediterranean controls not only an interior line—as compared with the Cape route—but an interior position. It is in a position to be overwhelmed by a hostile force in the Mediterranean controls not only an interior line—as compared with the Cape route—but an interior position.

It is difficult to overstate the effect of this upon the solidity of the Empire. The new \$10,000 school in the great central positions of the maritime world. A weakened Mediterranean force is the symptom that the British fleet is in a position to be overwhelmed by a hostile force in the Mediterranean controls not only an interior line—as compared with the Cape route—but an interior position.

BANQUET TENDERED HON. DR. RUTHERFORD

Stettler Honors ex-Premier—Large Number of Guests Present. After Dinner, Speeches by Members of the Stettler Agricultural Society.

Stettler, Oct. 8.—Ex-Premier Rutherford, who officiated at the formal opening of the Stettler agricultural exhibition, was entertained to a banquet by the officers of Stettler in the National Hotel, Stettler. Along with the ex-premier were W. F. Puffer, M.L.A., and R. L. Shaw, M.L.A. Covers were laid for about seventy guests and the menu was presented in rich, dainty style by the hotel management.

Mayor Gifford presided and had on the right the best of the evening. Among other present were Messrs. T. H. Ridd, president of the agricultural society, J. D. Brackett, president of the Stettler Agricultural Society, and J. D. Brackett, president of the Stettler Agricultural Society.

The ex-premier, who had been in the Stettler Agricultural Society, was highly pleased with the results of the exhibition. He said that the Stettler Agricultural Society had done very well in the exhibition.

PORTUGAL COMMENCES EXPULSION OF MONKS

Several Hundred Monks and Nuns Driven Across Border—Stability of Republic Increased—Peace and Quiet Restored in Lisbon.

Lisbon, Oct. 9.—The expulsion of the monks has begun. No time will be lost in driving them across the frontier. Several hundred nuns have been assembled and will be deported. The monks of the various orders of Lisbon, the Bishop of Beja and other prominent ecclesiastics, have already been expelled.

The authorities utter a warning against the fanatical exaggeration of the monks' cause. The monks are to be expelled. The monks are to be expelled. The monks are to be expelled.

ACIDENTALLY SHOT

Port William, Oct. 9.—While Alfred Gifford and an unknown friend were unloading a revolver Sunday morning at Mabello, fifty-nine miles west of the C.N.R., it was accidentally discharged and the bullet entered Gifford's abdomen. A special train rushed him to the R. M. and G. Hospital, Port William, where he lies critically ill, his bowels having been perforated eight times.

The various other shots were reported to and included one by Mayor Smith for "Sister Thomas," agricultural interests," by Messrs. Adams, Jacques and Barnett, "Our Banking Institutions," by Messrs. Freeman and Johnson, "Old Timers," by Messrs. Hargreaves, Bentley and Dunlop. During the evening selections were rendered by the Stettler orchestra, and the Stettler Agricultural Society.
