GENTLEMEN.—Our shelves are now replete with the choicest goods that the West of England can produce. All parts of Old England are famed for the excellence of their goods, but more especially the West, and as regards that undecipherable "thing" called style we know how, and can give full expression to that elusive quality. We please both young and old. You can have your choice of either English or American-cut. Personal supervision given each order. Give us a trial and we have a customer. Thirty years experience in the tailoring line.

THE NORMAL EYE.
 Note how the rays focus exactly on the retina, giving perfect vision.

THE NEAR-SIGHTED EYE.
 Note how the rays focus and cross before reaching the retina, causing myopia or nearsight.

THE FAR-SIGHTED EYE.
 Note how the rays focus beyond the retina, causing imperfect vision.

EYEGLASS experience is gained only by years of study and practice. To be able to fit eyes with proper glasses requires a distinct knowledge—a knowledge that is possessed by very few. Besides being a graduate of two First-Class Optical Colleges, I have had nearly twenty years experience fitting all kinds of eyes. I employ only the most modern and best methods of examination, objective and subjective, shutting out the possibility of mistakes. I carry the largest stock of Spectacles, Eyeglasses and material ever brought to Newfoundland, besides having the finest machinery for grinding special lenses. No charge made for examining your eyes.
