**An Important Week.**

We are now approaching the fourth week of the sittings this year of the Legislature. The Houses will have to give thoughtful consideration particularly to two of the measures which are now in committee stage in the House of Assembly, as both embody further the policy which the Government has begun to carry out in regard to Crown Lands and Agriculture. There is room for much discussion in regard to both measures, and we hope that the Opposition will devote that attention to them that the Colony is expecting from them. The Opposition party in the Assembly has begun exceedingly well this session. Sir Robert's leads have been brilliant, and his example and the encouragement the public is giving should embolden his followers to back Sir Robert up for all that are worth.

**Death of Skipper Peter Parrott**

Of Scilly Cove, Trinity Bay.  
 There passed away at Scilly Cove on the 3rd inst. at the advanced age of 88 years, one of Newfoundland's oldest, and during his life time, energetic and successful fishermen, in the person of Skipper Peter Parrott. From a very early age, until the past two years, without exception, he prosecuted the Cod-fishery with hook and line chiefly at Baccalean Island, and not infrequently would be secure for his share of the voyage from 80 to 100 quintals for a season. Considering the number of years of uninterrupted activity, and the success which attended his labours, it would be safe in saying, that he caught more fish with hook and line, than any other man in the country. He was an earnest member, and devout worshipper of the Church of England, and until the past year his place was never vacant in the House of God. He was a loyal supporter of the Liberal Party, under its leaders Sir W. V. Whiteway and Sir Robert Bond. He leaves an aged widow, two sons and four daughters, all of whom live at Scilly Cove, with the exception of the youngest daughter, Mrs. A. J. Wagborne, now residing at Melrose, U. S. A., to all of whom we extend our sincere sympathy.  
 He fought a good fight. Kept the faith and left the result with God—Com.

**ARE GETTING BETTER.**—Messrs. E. Daves and E. Willis, who were very ill, the former of grippe and the latter of erysipelas, are to-day much better and their friends are hopeful of their recovery. Hon. Jas. Baird, who was also ill, is able to be about again.

**INURED PLAYING HOCKEY.**—While Mr. Jno. Tobin of the Beach was playing with the city team Saturday night he was suddenly charged by an opponent and driven against the fence with such force that he was badly cut about the face and had both his eyes discoloured.

**Denounces Reciprocity**

Special Evening Telegram.  
 QUEBEC, This Morning.  
 Speaking before a crowded meeting of a non-political character last night, Prof. Leacock of McGill, denounced Reciprocity as an attempt of a few men to force a fiscal revolution upon the Canadian people by a sheer Executive Act which was the worst possible distortion of democratic government. Canada has never asked for Reciprocity. A demand had come from the States who had squandered their national resources and wanted to get Canada's raw material to relieve the strain on their own.

**Vote For A Clean City.**

Would women use the vote if they had it? is a question asked doubtfully by many who are as yet lukewarm in regard to the suffrage. That they would use this power, where moral issues were at stake, at least, is the experience in the most recent suffrage state, Washington, where the women's votes have just been instrumental in recalling a mayor who was believed to be not unfavorable to the vicious element in the city, and elected another man in his stead.

The contest was a hot one, as Mayor Gill, who was elected about a year ago, had a strong following. The charges against him were that he had failed to enforce the criminal laws, had permitted Seattle to become a refuge for vicious and disorderly persons, and that his continuance in office would be a menace to the moral and business welfare of the city.

The woman suffragists worked indefatigably for his removal, and their strength was not realized fully until an analysis of the election returns had been made. Of the 71,000 votes registered, 22,000 were those of women. Early returns showed that Mayor Gill had a heavy vote in the downtown precincts. When the reports from the residential precincts came in, the power of the women was displayed.

They went to the polls in automobiles and carriages. Some appeared with market baskets. They stood in line, the wealthy and the poor, and voted almost solidly against the unworthy mayor. One old lady, eighty years of age, waited in the line until she could cast her ballot.

**Death Of J. J. Pitman**

We regret to record the death of Mr. Jas. J. Pitman, Barrister-at-Law, which sad event occurred yesterday forenoon at his boarding house, College Square. He had been ill for only a short while and his death was the result of hemorrhage. The deceased is survived by two sisters, Mrs. Carter and Mrs. Ellis and his cousins are Sir James, Hon. G. Winter. Mr. Pitman was a legal man of many years standing. He represented Burin District in the Assembly for 8 years and was a man possessed of artistic and literary talent. To his relatives and friends the Telegram extends its condolence.

**Sanitary Staff Snowed In.**

Owing to the snowstorm of last night the 36 horses and men who go around with the night cars could not perform this duty, an unprecedented circumstance. When the employees went to the stables last night they found the cars covered with snow and the streets impassable. They could not start at their work until 9 a.m. to-day.

**Making Long Run.**

To-day the S. S. Durrango from Liverpool to this port is 16 days out, and is making a tedious voyage. No doubt she has met some of the field ice reported by the Shenandoah, is coming through it slowly and this accounts for her long voyage.

**Wireless Tests Good.**

The Adventure, Bellaventure and Beothic, on their trip north for sealers, corresponded with each other the whole time by wireless, the tests being of a very satisfactory nature. The system will be of great advantage to the vessels and great things are expected of its installation on them. The greatest distance at which they signalled was 60 miles, but the three ships can do far better than this.

**Beothic Had Mishap.**

While entering Pool's Island Saturday the Beothic met with a mishap, though nothing of a serious nature occurred. The Adventure which was running by accidently struck her, a glancing blow and smashed the davits on the port side aft, throwing the boat attached thereto in on the deck.

**SUICIDE and the Kaiser**  
**He Declares Only Responsibility is to God and Conscience.**  
 Berlin, Feb. 22.—The finding of the military tribunal condemning Count Hanspfell to dismissal from the army for attempting to commit suicide recently has been set aside by the Kaiser, who, in his memorandum in the case, says that the Count in attempting to kill himself is responsible only to God and his own conscience. His act is not the subject for any tribunal to pass on, and consequently His Majesty orders the setting aside of the judgment.  
 When next cooking hominy, stir in a well-beaten egg just before serving. It will give the cereal a delicate yellow tinge, and the change in favor will prove pleasing.
