Conception Hr. Notes.

Editor Evening Telegram.

Dear Sir—Other years during Easter week our beloved pastor, the Rt. Rev. Monsignor Veitch, would be absent by invitation of Bishop March at Hr. Grace, to attend the Easter ceremonies at the cathedral, but the absence of His Lordship this year on the occasion of his visit to His Holiness the Pope, left the Monsignor with the duty of celebrating the Holy Week in the absence of the Monsignor, but the Monsignor's absence, he had the ceremony carried out in the church of St. Anne in full solemnity and if possible, with even greater detail and solemnity than on former occasions when we with our pastor's presence during that holy time.

Rev. Fr. Finn, from Holyrood, was the guest of Monsignor Veitch during Holy Week, and assisted him throughout the ceremonies. Fr. Finn preached on several occasions.

During last week, Mr. Thos. Haurahan, M.A., S.C.S., made his tour of Conception Hr. Parish on inspection duties.

We are sharers in the great calamity that befell our country by the loss of the s.s. Southern Cross, and with the rest of Newfoundland are doing our utmost for the provision of the survivors. With that object then, the

P. J. Griffin, Principal of the High School, led a local troupe in the performance of a concert staged here on Monday night, 20th inst., and repeated it at Colliers on the following Thursday. The troupe, besides Mr. Griffin, consisted of Mr. Charles Poole, teacher of the Superior School at Colliers; Misses Clara Wade, daughter of Capt. James Wade, Chairman F.P.U., who conducted the singing classes, Maggie and Bride Costello; Masters Leo Wade and Laurence Whelan, and the advanced pupils from the Superior and Convent schools at Conception. Perhaps the most captivating part was the rendition of the farce, "The Connaught Boy," in which Mr. Griffin played the role of "Paddy Doyle" to the intense amusement of his listeners, and in which Mr. Poole was equally effective in the part of the De Buffor, Master Wade and Whelan and the Misses Costello were accomplished in the gestures and recitations necessary for their difficult selections. Miss Clara Wade sang "Some day I'll Wander Back Again" and "I cannot sing the old songs" in each of which she surpassed her former efforts while the pupils of her class in "Home Rule for Ireland" and "Carry me Back to Tennessee" were a decided success. The farce "Rehearsal" was admirably rendered by the pupils of the High and Convent Schools. The entertainment netted a sum of sixty dollars which was added to the parish collection for the Disaster Fund. The teacher, Mr. Griffin, and his troupe deserve congratulations.

And a word about the F.P.U. Council at Conception, is deservedly in order. That it is achieving success is evidenced by the frequent meetings and new recruits that are swelling its ranks. The Secretary is Mr. P. J. Griffin (above referred to in theatrical fame) and his activity guarantees the absolute success of the business he has in hand. Yes, we are glad to see this first union in our midst, making solid progress.

Yours etc.,

ADMIRER.

Conception Hr., April 30, 1914.

Hr. Grace Notes.

The citizens who have in hand the

landable work of collecting for the Disaster Fund, met on Friday night last, and are pleased to be able to report that the total amount collected from house to house was a little over \$1,200. It was arranged to open a supplementary list for any who have not been reached, or any who are anxious to give a second donation. This list will be kept at the office of Murray & Crawford, where Mr. Chafe, the Treasurer, will be glad to receive further donations. The collectors, no doubt, did their work well.

Mr. Clement Yelman, agent for the C. L. March Co., was suddenly seized with an attack of illness at Clarke's Beach, on Thursday night last. Mr. Yelman had walked from Brigus to Clarke's Beach, and the fatigue was more than he could stand, as he is only now recovering from a recent illness. Mr. and Mrs. Telford, of Clarke's Beach, were very kind and did all they could for the prostrate man, and after some time he recovered, and we are glad to say is now nearly fully recovered.

BRITISH BUDGET.

Big Increase in Expenditure—Relief to Local Bodies—\$14,000,000 More to be Taken Out of Large Incomes and Estates at Death.

Special to the Evening Telegram.

LONDON, May 4.

Lloyd George, Chancellor of the Exchequer, introduced his Budget in the Commons to-day. The estimated deficit of 1914 and '15 is \$26,650,000.

Adding to this the charge against the Exchequer of \$21,090,000, arising from the readjustment of relations between Imperial and local taxation and a necessary margin of \$5,000,000 the Chancellor showed the need of increasing the national income for the coming year by about \$49,000,000.

Lloyd George's proposals to raise this money include a material increase in the rate of tax levied on earned and unearned incomes and raising the death duties a minimum per cent. He plans also to raise the tax burden to the man who expends money on his property to improve in proportion to the amt. spent. The Nation's total revenue he estimated at \$1,003,375,000 while he placed the expenditure at \$1,029,925,000. This deficit alone Chancellor said made taxation inevitable, but the Government had come to conclusion that in order to save some Municipalities from bankruptcy, there must be readjustment in relations of Imperial and local taxation. These would mean large additional expenditures by the Exchequer, Lloyd George proposed set up a national system and variation under which "Site Values" would be separated from "Improvement Values," and under which relief would be afforded the man who improved his property in proportion to the amount he expended to this end. These proposed grants of relief to local taxation for the purpose of public health, education, road construction, etc., would entail an additional expenditure by the Exchequer of \$21,090,000. In so much as he must have a margin of \$1,000,000, he would have to raise the total about \$49,000,000. To meet this he proposed a revision of the graduated income tax. The existing tax on the earned incomes up to \$5,000 a year would remain unchanged, on incomes between \$5,000 and \$5,750, and \$10,000 a year the tax would be one shilling, from \$10,000 to \$12,500, 14 pence while from \$12,500 to \$15,000 rate would be 16 pence. The rate on unearned incomes would be raised to 16 pence. The allowance for children of parents whose incomes do not exceed \$2,500 a year would be doubled. There would be levied a super tax on incomes on \$15,000 upwards, instead of this super-tax beginning as it does at present with incomes of \$2,500 a year. The total yield from this super-tax in the present year would amount to \$12,500,000. The Chancellor declared he proposed to make Englishmen who made investment abroad in order to escape income tax, pay their dues. He estimated the increased yields from these changes as follows:—Ordinary income tax \$26,254,000; Investments abroad 1,250,000; Super-tax 12,500,000. Death duties \$3,250,000. Settlement of estate duties \$750,000. The total from these sources is \$44,000,000; this left \$5,000,000 to be found, which Chancellor proposed to take from the Sinking Fund. As was anticipated Budget bids fair rank in Parliamentary annals with famous budget 1909. The speech of Chancellor is said to have been one of the most un-Lloyd Georgian he has ever delivered, being particularly free from offensive language and of invective and simply confined to facts. The Morning Post comment is that it is a cleverly drafted electioneering document, while the Telegraph charges the Chancellor with setting before nation a system providing new and numerous benefits for one part of the community entire.

Fortune Harbor Notes.

A number of young ladies of the place held a Sale of Work in the school rooms, Southside on Easter Monday night. A most enjoyable time was spent by all the young people who attended. The sale realized \$100.00 which was very good as the ladies had started the work only a few days before Easter.

The members of the F.P.U. intend holding a meeting next week, to elect a new chairman and officers. The F.P.U. Hall is now nearly completed, sufficient funds are on hand to finish the work.

There are quite a number of children attending the three schools here, viz., the North Side school, the South Side school and High School. A large number of children have been attending those schools for years and no W.C. has been provided for their use. Whose fault is it? Certainly it must be the fault of the School Board or is it not the fault of the foolish parents who send their children to those schools. No W.C. has been provided for the school grounds for about twelve years. I believe that some of the people living near the school house complained to the magistrate on account of the drinking water. A little talking was done but nothing more. Is this the way those schools are going to be left all the time? The High School has been a "centre" for the C.H.E. Exams. for four or five years. Strangers have been here "supervising." What must these people think of the schools, the school board and the people who quietly submit to such conditions? Would it not be worth while to get a member or members of the Board of Health to take a look around the school premises and note the sanitary conditions there. It appears that we will have to submit to more than the want of W.C.'s for the schools if the chairman of the school board will not allow the North Side teacher to teach children who were taken from the South Side school by their parents and sent to the North Side school. Cannot parents send their children to whatever school they choose? and a teacher must teach all children sent to his or her school as long as they comply with the rules of the school. In acting thus (it is the opinion of many) the chairman is overstepping the boundary of his authority.

Fortune Harbor, April 14th, 1914.

Try Again.

You have, it may be, used ointments, pastes, lotions for Eczema till you begin to get tired of trying things. Well, but you should remember that science is advancing all the time, and that what was not possible yesterday can be accomplished to-day. If you neglect to try Zylex—the newest and best thing that science has yet to offer for the relief and cure of Eczema and other annoying and disfiguring skin diseases—you are missing a great opportunity. It may be that it will cure you. It has cured some very bad cases. Price 50c. a box. Zylex Soap, 25c. a cake.

Here and There.

Lift up thy burthen'd brows, and may thy future doubts and fears all vanish, for to-day, we herald a grand display of new, unique, astonishing values in ladies' costumes and charming outing coats, at Rodgers'.

Dissatisfied With Service.

Editor Evening Telegram.

Dear Sir—It seems that our hope of obtaining a better service in this Bay for the transmission of mails and the transportation of freight must for the present be abandoned.

We have been agitating for improved facilities for a considerable time, but nothing has been done in that direction.

Instead of improvement it is just the reverse. Until recently the steamer received her freight on Thursday afternoons after the arrival of the train from St. John's. We are now informed that Friday afternoons

when something should be done to ameliorate what now causes popular dissatisfaction.

Whether we look at the present state of affairs from a religious or an economic point of view, we can only conclude that the present arrangement is most unsatisfactory.

Please accept, Sir, my anticipative thanks for the insertion of this letter in your esteemed paper.

Yours truly,

PRO BONO PUBLICO.

Placentia-Bay, April 28th, 1914.

SALT BOATS DUE.—The steamer Middlesfield and General Gordon, with cargoes of salt for Goodridge's and Bowring's respectively, are now due from Cadiz.

NEWS BY CABLE.

Special to Evening Telegram.

SYDNEY, To-day.

Frank Haynes, convicted of the murder of H. S. Atkinson and sentenced to be hanged on Friday, was refused a commutation of his sentence by the Governor in Council. Execution will take place on Friday.

MEXICO CITY, To-day.

It is announced that Agustin Rodriguez and Luis Elguero, both connected with the Mexican National railroads and Senator Emillorabas, would leave here soon for Montreal to attend the Mediation Conference initiated by Argentine, Brazil and Chile. This is the first indication given here that the conference to settle differences between the States and Mexico may be held in Canada.

WASHINGTON, To-day.

General Carranza and Constitution- alists to-day were practically eliminated from the proceedings of South American Envoys, who have undertaken to solve the Mexican problem diplomatically. In a telegram to Carranza, the mediators announced that in view of his refusal to agree to an armistice with Huerta, they withdrew their invitation to him to send representatives.

Fun on Mid-Ocean at Rossley's.

There was a crowded audience at Rossley's last night. Many had to stand and others to go away. It is a very amusing performance, for Felix Martin has the crowd laughing all the time. The novel stage setting represents the deck of a ship and the fun is fast and furious. On Friday night the monster benefit will take place. It will be one long continuous programme. The Levene Co. has kindly given their services free of charge; Joe Burkhardt will be taking his father's tea; Percy Orth in all new parodies; Bonnie Rossley and her Quaker Maids, the little rabbits; Marie Rossley and our own comedian Jack Rossley, must bring his wooden leg. Lots of novelties by our own city children. A great show.

Disapprove of the New Scale.

The Employers' Protective Association met in the Board of Trade Rooms yesterday afternoon to discuss the new labor tariff recently issued by the Longshoremen's Union.

The meeting was largely attended, and the matter was thoroughly dealt with in all its phases. There was general disapproval of the new scale but it is not yet announced what course of action the employers will take in the matter.

The employers were notified that the new tariff would come into effect to-morrow. The employers are very reticent over the question, because of the general depression in trade universally felt to-day.

NOTE OF THANKS.

Mr. Jas. Fanning and family wish to express their heartfelt thanks to Miss K. Woods and Mr. J. Nurse, Misses Irene, Louise and Violet Halfyard, Mr. and Mrs. D. Carew, Mrs. W. Howell, Miss Genevieve Power, Mr. Max Coulton, Mr. L. A. Fitzgerald, Miss Alice Williams, Miss Hazel Lewis and Miss May Whelan, and the many other kind friends who sent wreaths, condolences, and assisted in various ways during their late bereavement. They wish to specially thank Drs. Keegan and Knight, Sisters Reid, McGrath and Cluet, Nurses Tremills, Kelly, Hartley, Moore and Guy, also Miss Mallard for their kindness to Madge while at the Hospital.

Firemen's Meeting.

At a special meeting of the Firemen's Union, held last evening, the Delegate read letters which he had received from the steamer owners, according to the request of the Union by granting the following rate of wages: On Coastal steamers the stokers to receive \$35 per month, donkeymen, \$37. On the foreign going steamers engaged in the coal trade, etc., the stokers to receive \$35 per month and the donkeymen, \$40. On the steamers going to Hudson Bay they are to receive \$40 and \$45 per month. After the schedule was adopted, hearty votes of thanks were given to the Superintendent of Bowring Bros., the Supt. of the Reid Nfld. Co., and the various ship owners, also to the Delegate for his attention to the matter, and to Hon. M. P. Gibbs, solicitor for the Union. The meeting adjourned at 11 o'clock.

Magical Effect on Neuralgia-Throbbing Pain Goes Quickly.

A YEAR'S SUFFERER CURED BY "NERVILINE."

No person reading this need ever again suffer long from Neuralgia.

Nerviline will quickly cure the worst Neuralgia, and Mrs. G. Evans, in her strong letter written from Russell post office, says:—"One long year, the longest of my life, was almost entirely given up to treating dreadful attacks of Neuralgia. The agony experienced during some of the bad attacks was simply unmentionable. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline; I read of the wonderful pain-subduing power it possessed and made up my mind to prove it valuable or useless. Nerviline at once eased the pain and cured the headache. Consequently treatment with this magic-working remedy cured me entirely, and I have ever since stayed well."

Mrs. Evans' case is but one of hundreds that might be quoted. Nerviline is a specific for all nerve, muscular or joint pain. It quickly cures neuralgia, sciatica, lumbago, lame back, neuritis and rheumatism. Forty years in use, and to-day the most widely used liniment in the Dominion. Don't take anything but "Nerviline," which any dealer anywhere can supply in large 50c. family size bottles, or in a small 25c. trial size.

Successful Newfoundlander.

In one of our Canadian exchanges is given the results in medical examinations Queen's University, and we notice Stanley H. Martin, of this city, has done exceptionally well, passing with honors in all his subjects, and taking first place in Pathology and Clinical Surgery; second in Obstetrics, Pediatrics and the Practice of Medicine and Theoretical Surgery; third in Clinical Medicine, and 75 per cent. in other subjects for his year. This is a splendid record and shows the application which was given to his studies, and inherent ability to go on to higher attainments. Several of the boys formerly of the Methodist College Science Classes, are now prominent in their chosen professions. Some remain here, others go, and will go later to wider fields. Mr. Martin hopes to become a Medical Missionary. He has strong convictions of that being his call. For the summer months he will be at St. Anthony Hospital, in charge of the X-Ray apparatus which he installed last year for Dr. Grenfell.

McMurdo's Store News.

TUESDAY, May 5, 1914.

Sarsaparilla is one of those old-fashioned blood purifiers which is still fully up-to-date, and its reputation is in some quarters as strong as it was in our grandfather's days. And with improved methods of extracting the virtues of the root, and the addition of the yellow dock and other alteratives from the vegetable kingdom, and of the rodides of potassium and iron, we are able to offer you in McMurdo's Compound Extract of Sarsaparilla a blood purifier equal to anything of the kind, imported or home made, and indeed superior to most of them. A bottle of our Sarsaparilla contains one hundred full doses, and may be regarded as cheap at one dollar.
