Life More Abundant.

As the word, "Christ is risen" brought new hope and fresh courage to that small but devoted band of Christians nearly two thousand years ago, so to-day at the Festival of Easter the whole Christian world responds to the same message; despondency and misgiving are dispelled like mists before the rising sun, and the despair of night flies before the joy of the morning.

To us who live in a country in which at this time of the year all Nature begins to reassert itself after the winter's sleep the season of Easter has a special appeal, and even though the north wind seems reluctant to yield to the warm breezes from the south, the earth is already responding to the longer hours of sunlight, the rivers are bursting their icy bonds, and the sap is carrying new life into the leafless branches of the trees. Around the coast increased activity is already noticeable as the fishermen prepares for his season's work, and one and all of us are throwing off our lethargy at the call of spring which is in the air, and are applying ourselves to the task with renewed zest.

We have carried on through a long period of depression and hardship which has reduced many almost to despondency, but all the signs indicate that "the winter of our discontent" has passed and the dawn of a brighter day is lightening up the horizon.

The pulp and paper industries are thriving, others are in process of development and there are good prospects of further activities in this direction. Already the results of the seal-fishery promise to be satisfactory, and what is of the greatest importance to us, there seems to be every hope of a successful codfishery.

May we not hope too that in the public affairs of this country there is awakening a new life: a greater sense of our responsibilities and a stronger desire to introduce into them a cleaner and healthier moral tone?

A Trusted Watchman

ENTERTAINS UNDESIRABLE GUESTS AND IS FIRED.

Caught red-handed entertaining a number of guests of questionable character on the premises of his employer, a trusted watchman of a large mercantile firm has been given a prompt dismissal after years of service. It appears that the watchman in question became possessed of a quantity of booze, and helping himself to "cats" he lavishly entertained a number of female friends. A number of the employees became involved through partaking of a drink or two of the booze and were only saved from dismissal through having no knowledge of its origin or of the actions of the watchman. On the foreman, who was likewise innocent except for taking a drink of the liquor, the responsibility was placed and he was given a month's notice to quit. It is said that a large quantity of liquor was landed on the premises and the watchman was given a share for looking after it.

SEALING NEWS

RANGER REPORTS FOR FULL LOAD.

The only sealing news of an encouraging nature received over the holiday is a message from the Post-Telegraph operator at Herring Neck to Messrs. Bowring Brothers, this morning, stating that the landmen, in communication with the crew of the Ranger, report that ship with a full load. 10,000 bedlamers were batted and placed on board within the past few days, which now brings her total catch up to 24,000. The Ranger reports her catch two miles North of Baccalieu and should weather and ice conditions not impede her progress, an early arrival can be looked forward to. There is nothing of importance from the other ships. The Terra Nova has secured an additional 400, whilst the Thetis managed to pick up 1,000 bedlamers, batted on Wednesday evening, but a number of the men were lost owing to a heavy swell. The outlook in the Gulf is a very gloomy one. The Viking has drifted to a position off the East Cape of Prince Edward Island and reports prospects very poor.

The following are the messages:—

BOWRING BROS.
 Terra Nova, (Thursday evening)—Gale from northeast, jammed, too thick to sail far, took few bedlamers. Sagona—Fifteen miles northeast Cabot Islands, gale from northeast. Fear lost half our pans, heavy swell of yesterday. Have about 1,000 on board.

Viking—60 miles southwest by half west Deadman's Island. Blowing N.W.E., fine and clear, ice rafted. Prospects poor for whitecoats.

Terra Nova, (Friday evening)—Ten miles southeast off Wadhams. Kill-400 bedlamers to-day. No report from Ranger.

Sagona—Six miles southeast Cape Freels, wind northeast. Thetis, (Thursday evening)—Position 15 miles south Funks, wind N.E. rain, snow storm. Sagona and Terra Nova, (commencing). Picked up yesterday's seals this morning.

(Friday evening)—Position north west Cabot Islands. Having trying time since yesterday.

BAINE JOHNSTON & CO.
 Seal—(Thursday evening)—Gale from N.E. last night and to-day, very heavy swell; ice broken to pieces. Men all night chopping ice to protect ship. Expect to get clear soon as swell goes back. Position 4 miles South Horse Islands, jammed.

LA TEST.
 Ranger—(10 a.m.) via Herring Neck—Batted bedlamers, full load; 2 miles North Baccalieu, N.D.B. to-day. This connection received by way of landmen. Last spark wireless dead last night.

International Intrigue

Germany outwitted. British loan to the Chinese Navy. British diplomacy. The sternness of the Foreign Office. Chinese gratitude. Mr. Paul Marketel, eminent international financier, has agreed to make a large loan to the Chinese Navy. The British Government is behind this. An alternative loan from Germany was contemplated, but through the good offices of Sir Roger de la Hays, son of the eminent British Ambassador to China, and Ch. Lung, plenipotentiary to Great Britain from the celestial kingdom, the coup was culminated. However, all is not well, for the terms of the loan have got into the press and Sir Roger is in disgrace and has been asked to resign from the Foreign Office. Who gave the information to the Press and who accepted the blame and everlasting disgrace is well told in the Chinese Puzzle by our local amateur.

TO-DAY'S MESSAGES

ST. LAWRENCE CLEAR.
 MONTREAL, April 17. The 1924 channel in the St. Lawrence from Montreal to the sea was to-day reported clear of stationary ice.

BRITISH AVIATOR REACHES CAIRO.
 CAIRO, April 18. Stuart McLaren, British aviator, reached Cairo this afternoon from Athens, having safely negotiated the trans-Mediterranean passage of his attempted Globe encircling flight.

PRINCE OF WALES RELUCTANTLY LEAVES PARIS.
 PARIS, April 18. The Prince of Wales left at 7.30 to-night for Le Touquet where he plans to spend Easter-tide, nearly 30 hours behind the schedule which he had originally laid out for himself. The Prince is finding it very hard to tear himself away from Paris where for the past five days he has had a royal time in a becomingly regal manner. Incidentally he has probably made the fortune of a young restaurateur who recently opened a dancing establishment in Mont Matre, which the Prince frequented on four successive nights. The Prince has made a real hit in Paris, and is now as popular in the French capital as was his grandfather who was the first Prince of Wales to enjoy real popularity among the French people.

THREAT OF HOSTILE ACTION ABSURD.
 PARIS, April 18. "It is impossible to imagine any Government or its representatives addressing a threat to the United States Government," said Viscount Ishii to the Kavas Agency to-day, commenting on the construction placed by some United States Senators upon the Ambassador's Note regarding the Immigration Question. "Simple common sense prevents such a suspicion," he added.

FIREMEN BURIED IN BURNING DEBRIS.
 CHICAGO, April 18. Nine firemen and an unidentified civilian are known to have been killed and a score of other firemen and spectators were buried beneath the falling walls of a burning four-story box factory on West Side to-day. Many buried in the debris are believed to have perished. A dozen firemen were standing on the fire escape beneath the second and third floors when the roof of the stone building crashed in, carrying down the two floors beneath. The wall against which the firemen were grouped collapsed, and the firemen were thrown into the flaming debris.

PARENTS AND SON PERISH IN A FIRE.
 QUEBEC, April 18. Three lives were lost and two seriously jeopardized in a fire early this morning which destroyed the residence of Mr. and Mrs. William Ramsey, Breakville, near Levis, and but for the crying of a baby belonging to a neighbor who lived in another section of the two tenement house, the loss of life would have been increased as there were ten inmates sleeping in the building at the time. The dead are: William Ramsey, a farmer, aged 48 years; Mrs. William Ramsey, his wife, aged 50; Willie Ramsey, their son, aged 18.

TWO KILLED BY FALLING WALL.
