### Closing of the Industrial Exhibition

me to a successful conclusion last Long's Hill Ster night, when Mr. W. A. McKay, the manager and organizer, brought it to a fating close with a speech in which thanked the public for their patronage, the exhibitors, electric ans, decorators and all other helpers for t was. During the eight days of the Fair, upwards of 18,000 people visited it. Interest did not wane one bit formance. This certainly speaks well for Mr. McKay and all concerned, and they are deserving of all the Yesterday afternoon the exhibit was thrown open to the Orphans of the city between 8 and 5 p.m. The childthe guests of the management and they were all delighted with the excellent display. During the attenuon, the Misses Furlance of Smithville.

The Misses Furlance of Smithvill the Misses Furlong, of Smithville, to its two-fold action. were kept busy serving the little ones with drinks and sandwiches. The exhibits at the Fair for 1924 have proven an eye-opener to many, and as a result much good has been accomplished. Many of the exhibitors represented by the exhibitors of the exhibitors represented by the exhibitors represented by the exhibitors of th Many of the exhibitors reseived orders for their goods, amounting to thousands of dollars, and this directly into the affected air passages prior to taking up residence at Corner alone illustrates the effectiveness of and lungs. such an exhibition. Last night the C.L.B. Band was in attendance and through the skin like a liniment or rendered some pleasing selections. With the following concludes a series

Murray seams were shown. The us-

ual comment was "Why do we have

to send outside when we have such

excellent coal in the country?" We

learn from Mr. Freeman, President

of the Company, that the successful

termination of the fight to interest

apitalists will not be long delayed

and the coming spring may see work

begun in earnest. The earliest men-

tion of coal in Newfoundland was

made by a celebrated circumnav gator,

Capt. Cook. Over one hundred years

ago, a celebrated traveller, W. E.

Cormack, whilst crossing the Island

put on the Barachoix Rivers. The

Jukes' Seam, from which one of the

samples shown was taken, was dis-

covered in 1840 by an Irish Geologist,

J. B .Jukes, M.A., F.G.S., F.C.P.S.,

sent here by the British Government.

in 1873 Alexander Murray, C.M.G.,

F.G.S., discovered a very promising

seam of coal in the St. George's area,

which he named Howley Seam. It

was not until 1899 that the Murray

Seam was discovered by the late Geo-

logist, Mr. Howley. 'The St.. George's

of coal than those from which samp-

les are exhibited, but time and other

matters did not permit of a full dis-

The building is an inspiration to all who enter it and as we are all part owners, we should see that the utmost is made of it. As a mother of a family I would like my children to have the opportunity of continuing their education, and I suggest that night classes should be held during the a loss to the country. There are rooms for every branch of education. There are hundreds of young men anzious to learn who have to work during the day. Personally I am very interested in drawing, but I never had the opportunity to learn to draw, and my visit to the room devoted to this work was a delight, and I envy the students. Many other mothers were interested in this room. All Newfoundlanders love beauty but the Simm Bruce on the floor and Jean opportunities to take up this branch standing over him, of work are few, and I heard many say that they wished they could send Jean Ishel wounded and hiding in a their children. As a Newfoundlander say we have the brains and ability when Ellen shoots Colter with a rifle. and all we want is the opportunity to fill this fine Memorial School with willing students, morning, afternoon and night. I know that you are interested in education and I am sure you will give this letter space in your widely read paper. MOTHER. LeMarchant Rd., Nov. 10, 1924.
