SUFFERING WOMEN

Troubled With Weaknesses Peculiar to Their Sex.

HOW THEY MAY BE CURED

Dodd's Kidney Pills Act Upon the Fe male Organs as Well as Upon the Kidneys - Many a Woman Suffers Needlessly.

Women suffer more than men. From he time a girl-child turns the corner into womanhood, she has more troupon women as weak and fragile, but sidering what they endure they are

stronger by far. Women suffer many times more than they need to. Partly because they don't know what alls them at first then because they are ashamed to tell doctor; latterly because they hate be a continual source of expense to their husbands.

'Female Weaknesses," are what term the diseases peculiar to the female sex. They are often confounded with female kidney troubles, and kidney troubles are often mistaken for other troubles. All those delicate organs are closely connected. What afects one affects the others.

What cures one, cures the others, too. DODD'S KIDNEY PILLS, which are a sovereign cure for all kidney ills, act to regulate and control the female organs and to relieve their difficulties. This is worth while for every woman to

Mrs. Lucy Crabbe, Chambers P. O., says: "For years I was a sufferer from weakness peculiar to my sex, combined with kidney trouble, from all of which I was completely cured by two boxes of Dodd's Kidney Pills."

Mr. Cowan Introduces an Anti-Alien Labor Motion.

Wishes to Retaliate On the United States-Sir Richard Cartwright Receives an Ovation - Scathing Criticisms-The Queen's Jubilee.

Ottawa, March 30 .- The House reassembled yesterday after its three days' adjournment. Mr. J. F. Guite, the recently-elected member for Bonaventure, was introduced by Mr. Laurier, and Mr. Talbot, and took his seat amid cheers from both sides of the House. A number of bills were read a first time, amongst them being one to secure the safety of railway employes and passengers, introduced, as in former sesstons, by Mr. Casey. It requires the railway companies to provide an automatic device in the train pipes of air brakes to let the engineer know when the coupling is deranged, and provides that all box freight cars shall be built that all box freight cars shall be built of a uniform height and capacity, and fitted with certain attachments for the convenience and safety of trainmen. The most important sections, however, are those which fix 60 per cent of their current rate of wages as the minimum compensation for employes laid off as the result of accidents not caused by their own negligence, this sum being payable for any period not more than 52 weeks. Employes permanently disabled or the representatives of such as are killed are to receive \$3,000; all these allowances are to be without representation. The first business was the introduction of Senator Lovitt, the new member from New Brunswick, by Sir Oliver Mowat and Hon. R. W. Scott.

Senator Cox, in a very able speech, moved the address in reply to the speech from the throne. He was followed by Senator King, who urged that United States tariff legislation be met representatives of such as are killed are to receive \$3,000; all these allowances are to be without prejudice to the right of the employe to enforce his claims by legal proceedings, and no employe can give up his right under the act by any bargain with the railway company.

tion. THE FRANCHISE BILL. Mr. Fitzpatrick, in asking for leave to introduce his bill to repeal the fran-chise act, intimated that it proposed to substitute the provincial franchises chiefly in order to obviate the great cost occasioned by the present ac expenditure under which amounted to \$1,141,000.

Sir Charles Tupper suggested laying the Franchise Bill over for a session. As a contentious measure it would de-lay the tariff bill being brought down, and might interfere with Mr. Laurier attending the diamond jubilee celebra-

Mr. Laurier objected, and said nothing would be hailed with more delight by the country than the repeal of this

MR. GIBSON'S RAILWAY BILL. Mr. Gibson introduced his bill to amend the railway act, the benevolent terial used on the construction of any railway a first lien on the work, thus preventing construction companies taking all they can get and then leaving their sub-contractors to foot the bills. Mr. Gibson's explanation of the objects of his bill seemed to find an echo in several parts of the House.

THE QUEEN'S JUBILEE. Mr. Davin interrogated the Government as to whether the mounted po-lice shall be represented at the jubilee, and Mr. Laurier, informed him that the question is now engaging the attention of the Militia Department.

THE COTTON DUTIES. Mr. Foster called attention to a dispatch from Kingston, in the Toronto Mail and Empire, which stated that the Kingston cotton mill had started up at full blast. While the members of the late Government attempt to repudiate their An East End merchant, Mr. John A own supplementary estimates, it must be remembered that they made as much use of them as they possibly could in the constituencies. There were 106 separate votes for Nova Scotia alone. The expenditure decreased from \$38,132,000 in 1894-5 to \$36,949,142 in 1895-6, but the saving was more apparent than real. Charges were deferred and public services neglected, including the drilling of the militia, for the purpose of making a good showing before the general election came on. If Mr. Foster had brought down his supplementary estimates, supplemented by other charges on account of interest and statutory engagements, which would have amounted to \$1,500,000, or \$2,000,-000, it would bring the sum up to over \$43,000,000. These facts were very forcibly put by Sir Richard and make the subject of effective comment.
Sir Richard said that the Govern-
