# Why a Cold "Hangs On."

Stop and think a minute. The tickling in the throat, the tight feeling in the chest and that racking cough are only the results of the cold, not the cold itself. To apply a soothing medicine to the irritated membrane does not exits for the poison, but the cold is in the system.

### Shiloh's Consumption Cure will Cure a Cold.

It will cure a cold when it has developed so far as to be Consumption. "Shiloh's" supplies the blood with the vitality necessary to kill the germs and drive the dread disease out of the system.

Why keep on treating the results of the disease. Take "Shiloh" and you will cure the diesase itself, and leave the system strong to resist future attacks. "Shiloh" is guaranteed to cure. If you are dissatisfied after using two thirds of the bottle take the remainder back to your druggist, and he will refund the whole of the purchase money.

James South of Vancouver, writes: "S. J. Wells & Co., Toronto—I suffered for years from a cough and tried scores of remedies. Occassionally it would disappear for few days, but would inevitably return—worse than before—1 tried Shiloh's Consumption Cure and from the first day my cough was relieved and finally it left me. For over eleven months I have been quite well and I never tire of praising your grand medicine." Sold in Canada and United States 25c., 50c., and \$1.00 a bottle. In England 18. 2d., 2s. 3d. and 4s. 6d.

BOERS LOCATED. London, March 14.-A dispatch from Ladysmith, dated today, says:
"The Boers have been located in several strong positions near the junction of the Drakensburg and the Big-garsberg ranges. They have heavy guns in position at Pongwoni Kop, Hlatikulu and in the Impati Moun-tains, as well as at Gibson's farm,

near Cundycleugh Pass. "Gen. Hunter now commands the division. Both men and officers of the relief column are completely recover-ed, and are now in the pink of con-dition. The reconstruction of the railway from Ladysmith to Dundee is pro-

gressing rapidly." A private dispatch received here says that Dr. Jameson, who was critically ill at Ladysmith, is better and likely to recover. Dr. Jameson was anxious to have a military command in the campaign, but as the leader of the raid he was excluded from the ser-vice for political reasons, and was not welcomed when he arrived at Ladysmith a few days before the investment of the town. His opportunity, came. When the garrison was fever-stricken, he reverted to medical practice, and did ten men's work in caring for the fever patients and the wound-

SUSPICIOUS WATERMELONS. Cape Town, March 14.-Another plot has been discovered to free the Boer prisoners at Simonstown. The remarkable quantities of watermelons received by the prisoners aroused comment and an investigation showed that com-

promising letters were contained in the melons, the writers planning the escape of the captives.

BOSHOF SEIZED. The British troops, under Lord Methuen, have returned to Kimberley from the occupation of Boshof, Orange Free State. Guns and 70,000 rounds of ammunition were seized. A strong force was left to garrison the town. Nearly all the residents were wearing mourning, as the Boshof commando lost 200 men at the battle of Belmont.

THE CANADIANS. London, March 14.—The correspondent of the Morning Standard, cabling from Poplar Grove, Orange Free State, with Lord Roberts' force, on March 8, states that Gen. Colville, commanding the ninth division, in which are the Canadians, captured a Krupp gun at the top of a large, flat kopje. It was taken by the Shropshire Regiment without opposition.

### WEAK, FAINT FEELINGS. Serious Conditions that Milburn's Heart and Nerve Pills can

Readily Cure.

One of the indications of serious heart brouble is the sensation of weakness or faintness that comes on at times. Sometimes it is simply a dizzy feeling that passes off, or it may be a state of un-consciousness with hands and feet cold

and countenance ghastly pale. These symp. toms indicate weakened heart. They are unmis-takable evidences of the engine of life breaking

Now there's only one reliable emedy for restoring strength and vitality weakened hearts and relieving all the distressing symptoms. It is Milburn's Heart and Nerve Pills.

con, N.B., amply proves this. Here is

'I suffered very much from an impoverished condition of the blood, coupled with extreme nervousness. A dizzy senstairs, often troubled me, and my breath was so short that I could not walk up tairs. The least exertion caused my heart to flutter and palpitate violently, and I sometimes felt a smothering sen-

ation on going to sleep.

I doctored back and forth for my weaknoss, but I got no relief from any medicine until I tried Milburn's Heart and Nerve Pills, and I can say that they helped me conderfully. Sometimes my face and arms would swell and puff, but all these troubles speedily yielded to the restoring influences of Milburn's Heart and Nerve Pills, and I am now strong and well. I did not use them long until I regained the blessing of healthful, refreshing sleep and it will always be a pleasure to me to recommend them to others."

Canadians, who were on the left of the Shropshires, consequently formed the extreme left line, and were sent forward to turn the kopje before its evacuation was discovered.

### THE DEPARTURE

Of the Men of London District for Halifax to Do Garrison Duty-Recruiting Continues.

The men of London district who will do garrison duty at Halifax during the absence of the Leinsters in Africa, left for Ottawa on the C. P. R., en route for their destination, at 5:10 o'clock yesterday afternoon. The quota comprised 88 men. More men will be sworn in as rapidly as possible, and will be sent forward. Considering the short period of recruiting, the number of men obtained has been very satisfactory. The departure was attended by very little formality or enthusiasm. After being paraded at the barracks they were addressed briefly by Col. Holmes, and, having been cheered vig-orously by the men of No. 1 company, R. C. R, I., they proceeded along Piccadilly street to Richmond, thence to the station. A small crowd of friends had gathered there, and while waiting for the train the good-byes were said, not sorrowfully, as when the contingents went away, but with brightness and laughter, because of the likelihood of return. Capt. A. G. McDonald, of the 59th, Stormont and Glengarry Regiment, was in command, and with him were three provisional sergeants, Dass, Dobie and Livens.

When the train was pulling out, one of the soldiers had a narrow escape from serious injury. He was scuffling with a companion on the station platform when the train moved out, and in attempting to board it his foot slipped and he was dragged for nearly a block, holding on to the steps of the car. The train was stopped and he was taken on board, little the worse for his experience.

### SHE'S PINING AWAY

Turkish Minister's Wife at Washington Virtually a Prisoner.

New York, N. Y., March 15.—The wife of Ali Ferrouh Bey, Turkish minister at Washington, is pining away, according to a Washington special, because she is unable to be out of doors. For this reason the minister is going to take a house in the suburbs so she can have more fresh air without being gazed at.

Since the minister's arrival public interest has centered around his home so much that he has not been able to take the ladies, even closely veiled, either to walk or to ride. The windows of their apartments are kept closely covered for fear a camera field might get a picture of the ladies, or of the interior of his harem. This would mean his instant recall and degradation, since he promised the sultan that his house-hold here would be maintained exactly as if he were living in Turkey. This close confinement has made i il of the ladies ill, and it is now necessary to move them to an isolated j lace with

The action of the Empress Dowager of China towards the reformers, it is said, will upset the "open door" policy.

Ottawa, March 14.-In the house today Sir Wilfrid Laurier Introduced two bills from the senate, viz., a bill to provide for the liberation of penitentiary convicts, and respecting the supreme court of the Northwest Territories, which were read a first time. Mr. Fielding, in reply to Mr. Domville, said the total sum paid to Sir Charles Tupper as salary and allowance as high commissioner at London was \$127,000; that no deductions were made from his salary for the periods during which he was in Canada in 1887 and 1891, and that the question of taking steps to recover the amount paid him during those periods, if the samec ould be recovered,

had not been considered.
Sir Richard Cartwright, replying to
Mr. Fraser (Lambton), said that, inciuding British Guiana, approximately 770,000 barrels of flour were imported by the British West Indies every year, and that steps have been taken in connection with the imperial government for a fast steamship service to the Wets Indies, which will com-

mence on July 1 next.

Replying to Mr. Davis, Mr. Mulock said that the government had taken tenders for the mail services between Eastern Harbor and Port Hastings, which up to 1896 cost \$11,582 per annum, with the result that the work is now done for \$7,073 per annum, a saving during the contract term of

Sir Wilfrid Laurier, in reply to Mr. McMullen, said that the operation of the Dominion franchise act was suspended eight times between 1885 and 1897; that under it there were four revisions of the voters' list, and that the net cost thereof was \$1,121,216 99.

Mr. Foster moved the adjournment of the house after some 43 questions had been answered by the ministry, in order to bring up the question of again referring the West Huron and Brockville election cases to the com-Brockville election cases to the committee of privileges and elections. He asked that the unopposed motions be taken up out of the regular order in which the business stood upon the

Sir Wilfrid Laurier replied that owing to the abuse of the privilege when ing to the abuse of the privilege when he last agreed to a variation of the regular order of the day, he could not accept the suggestion of Mr. Foster. Sir Charles Tupper asked if the un-oposed motions on the paper would be gone through

gone through. Sir Wilfrid Laurier replied that owing to the fact that when this privi-lege was granted last week, the gov-ernment was accused blocking the inquiry into the West Huron and Brockville elections, because that motion was not allowed to go through, he did not propose to go through the order paper in that way.

Mr. Foster urged that this was con-trary to all precedent. He contended that the course of the government in reference to questions had been unfair. He spoke in condemnation of Sir Wilfrid Laurier's action, saying that if the course was insisted on, parliament-

Sir Charles Tupper said that no attempt was made by the government to call Mr. McMullen to order when he covered them. charged him with breaking all the commandments. Sir Richard Cart-wright had turned around and incited Mr. McMullen to go on.

Sir Richard Cartwright said that this statement was absolutely unfounded on fact. He suggested, however, that it was in Sir Charles' interest that Mr. McMullen did not go into details on that occasion.

Sir Charles retorted sharply, pretesting against what he called an in-

decent assault on a member. Mr. Foster reverted to the subject of his motion, saying that the evidence had shown that the officers of the government had done everything in their power to thwart the will of the people. The West Elgin disclosures were such that the premier of Ont-tario had to resign his premiership. The government should allow the matter to go to the committee as a matter of privilege. There were two gentle-men in the house who would not be

in connection with this election. Wilfrid Laurier said that he would not notice the extraordinary exhibition that they had had from Mr. Foster. He did not indulge in personalities; he left that to the small men in the house. He had only to say that every man in the house was equal; every man had a right to bring in a motion. They could not all be served at the same time; every man must take his turn. The motion for this inquiry was not for papers; he asked it to stand over, and because he did that it was said next day that he had refused an investigation. He then said he would not again extend the courtesy, unless it was understood they should take only motions for papers, and nothing else. He had the sense of his own responsibility, and he intended to adhere to it.

Mr. Borden (Halifax), charged there had been a deliberate plan to prevent this matter being reached this session, although it was an unoppos-

dence taken last year at some length, in an effort to prove that grave irregularities had been committed.

Mr. McMullen sald the Conservatives, knowing how elections were won under their regime, feared it was a case of chickens coming home to roost, case of chickens coming home to roost, and he would not, for himself, consent to any reference which was merely a fishing investigation, because not a single instance of wrong-doing by the deputy returning officers had been shown in West Huron. The whole responsibility for delay rested upon Mr. Borden, by reason of that gentleman not having placed his motion upon the order paper earlier.

order paper earlier.

Sir Charles Tupper asked the indulgence of the house while he announced he had been informed by the agent of the Ocean Guarantee and Accident Insurance Company that the insurance of \$1,000,000 placed upon the men of the first Canadian contingent would not

Mr. Charlton said that at the close of the session there will be a large amount of public business requiring the attention of members who are de sirous of getting away, while the whole of this day had been fooled away. The acting leader of the opposition (Mr. Foster) had boldly threatened that unless the motion was allowed to go through the business of the house would be blocked. He regretted that the opposition resorted to such tac-

Mr. Davin said the premier was shielding the rascals who were re-sponsible for the scandals in West Huron and Brockville. He then pro-ceeded, and said that the member for Halifax (Mr. Russell) by his great ability, and Mr. Britton, by his pettifogging, sought to prevent the evidence being brought out.

Sir Louis Davis rose to a point of order, and the speaker ruled that the application of the word pettifogging to a member of the house or to the action of a committee was unparlia-

mentary.

Mr. Davin accepted the decision and said he would say it was not pettifogging, and that was not saying much. (Laughter.) Mr. Britton said that Mr. Davin had

the power of writing a few lines of poetry outside and coming into the house to recite them. He could also string off a lot of words possessing neither the power of logic nor the light of reason. The speaker at some length dealt

with the evidence and the legal aspect of the case, and contended that if the charge was proven against the deputy returning officer, as the opposition claimed, they should proceed to prose-
