LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me. I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good."

A NEW NAME

Adopted by the Michigan Central Railway.

Commission Sale of Tickets To Be Abolished by Many Roads.

The Michigan Central has adopted a new name. It will still be the "Niagara Falls Route" as of old, but it will also be known as the "Pan-American Route." It will earn the title by taking passengers to the great Buffalo show and landing them right at the exposition grounds.

Many of the old-time employees of the Pennsylvania Railroad who have been retired under the new pension system that has just become effective on this road are making pathetic appeals to be retained in active service. One of the train baggagemen, who is 81 years of age, and who takes his turn in handling baggage on the limited between Philadelphia and Pittsburgh, says he desires to remain in harness until next August that he may round out fifty years' service with the company. Another desires to complete forty years, and a third says the pension granted him is not sufficient to support a large family.

Representatives of the eastern and southern railroads decided at Chicago on Thursday to unite for this purpose of stopping the paying of commission on the sale of tickets. A mass meeting of the general passenger agents of the roads east, southeast and south was called for this purpose, and it was decided to abolish all commissions on Jan. 30. About 30 roads joined in the action.

FIRST CANADIANS

A Former Londoner Tells of Their Arrival in Cape Town.

The Woodstock Sentinel-Review says: A friend in town has received a letter of a private nature from Mr. Moffat, a merchant of Cape Town and a son of the late Col. Moffat, of London, who was widely known here. Among other tidings Mr. Moffat says that he and Mrs. Moffat went up to the Cape to see the Canadian contingent, especially the London boys Sippi and Macbeth, with whom they were well acquainted. The boys were all in good spirits and eager for the fray. The writer was delighted with the contingent and could not say too much in their favor. The opinion was freely expressed by the people of the city of Cape Town that the Canadian regiment was the finest that had stepped on the wharf at that place.

The board will ask that the council appoint a sewer committee and that the board of health be asked to have two representatives on that committee as heretofore.

Engineer Graydon's report on the work to be done this year was received for consideration. He will be asked for a report upon the condition of the tools and machinery owned by the city.

Can Catarh Be Cured?

Shepherd G. Frost, Chatham, N. B., writes: "For a number of years I have been troubled with catarh and headache, and have tried many remedies during that time, but without avail. At last I heard of your medicated air treatment and procured a Catarh-zone outfit. Within twenty-four hours my headache disappeared and has not since returned, and in a short time I have been completely cured of catarh. I recommend Catarh-zone as the safest and cheapest cure for catarh. One bottle did the trick for me." Catarh-zone is sold by all druggists. Trial outfit sent for ten cents in stamps. N. C.
