STOCK MARKETS.

H. C. Becher, broker, Bank of Com-merce building, received the following by private wire from Bartlett, Frazier & arrington today: New York, May 13-Noon.-There was a continuance during the first hour at least of some of the little activity that developed yesterday, but the volume of trading for the first hour was not equal to the content of the conte to that of yesterday. A few stocks monopolized the transactions, but during the second hour trading as more scatter ed. Steel. common, managed to establish a new low record for itself this morning, selling down to 8%. There must be some reason back of this weakness in the stock, and while the ostensible cause is liquidation, the cause of the liquidation has not been made known yet. The pre-ferred stock held up comparatively well. Amalgamated Copper, preferred. was firm throughout the day, and, in fact, it was the strongest stock on the list. Con-solidated Gas was firm. Union Pacific and Pennsylvania, were narrow and steady. The market is now relatively heavy, with fractional declines from the highest prices. There is a rumor cur-rent that Consolidated Gas is to issue rent that Consolidated Gas is to issue \$20,000,000 of bonds, convertible into stock in two years, and which, it is said, will

be used in connection with the plan to secure control of Brooklyn Union Gas, and operate under its charters. Sales to noon were 178,000 shares. MONTREAL. Montreal, May 13 Off 1163/4 Ast1167/8
