## Motion Was Lost.

The motion to have the mention of the three-fifths clause expunged from the report was then put and lost.

"I am not a temperance bigot, nor a teetotal crank," said Mr. Henry Macklin, of this city, as he rose to challenge the advocacy of compensation for cancelled licenses. "I don't think the principle is right, nor should such a recommendation come from the synod. "His lordship and a number of the nembers of the synod expressed their lisagreement with this contention," Mr. Macklin continued.

"Your lordship referred to the British liberation of the slaves, and the compensation made therefore, but I hold that the cases are not parallel. The slaves were property, and it was only right to treat them as such. But a man's license is given him for one year only, and he has no definite right to expect a continuance of that license longer than the year. Twenty-five years ago 3,000 licenses were cut off by the Crooks act, yet there was no compensation given. And I can see no reason why compensation should be given."
