CANADA'S GIFT TO BELGIUM REACHES OVER \$2,000,000

Money Contributions For Relief Up To May 15—Five Cargoes of Food.

NEW YORK, June 21.—Canada's contributions towards the relief of the destitute people of Belgium amounted to \$2,071,083, up to May 15, according to a report issued by H. Prud'homme, honorary secretary of the central executive committee for the Dominion of Canada, of the commission for relief in Belgium, and announced here today.

The report, which does not cover the period since May 15, says that up to that time the Canadians sent five cargoes of food to Belgium. The largest and most important, the cargo of flour, valued at \$462,500, but another shipment was worth nearly that sum, being valued at \$460,000. In addition to these cargoes the committee at Montreal reported that on May 15 they had on hand \$45,148 in cash, \$54,000 worth of clothing, and \$7,500 worth of foodstuffs, towards sending a sixth Canadian ship.

URGENT GUNS FOR BRITISH WARSHIPS TO THWART FOE'S MOVE

LONDON, June 22.—3:45 a.m.—The Daily Mail's naval correspondent, commenting on the reports from Holland that the Germans are rushing to complete several new battleships armed with guns up to seventeen inches, declares that victory in naval warfare in the present campaign has gone uniformly to the biggest guns and urges the British Admiralty under no circumstances to allow the Germans to gain ascendancy in this respect.

FRANCE MAY FLOAT LOAN IN THE STATES

NEW YORK, June 21.—Negotiations are in progress and may be brought to a favorable conclusion within the next 24 hours for an important loan in this country to assist the French Government in the purchase of war munitions here, according to the Evening Post.

The loan is being negotiated, it is stated, by influential private bankers in Paris, and will be secured by a block of American railway bonds, which are now owned in France. The loan may exceed \$50,000,000, and possibly run to \$75,000,000, it is said.

Bringing Up Father

POPE DECLINES TO CONDEMN TEUTONS MORE THAN OTHERS; FINDS WAR SERIES OF CRIMES

[Canadian Press.]

PARIS, June 21.—4:40 p.m.—La Liberté publishes today an interview with Pope Benedict, signed by Louis Latapie, a prominent member of the staff, who was sent to Rome for the purpose of ascertaining the Pope's views on the various aspects of the European war. Pope Benedict is quoted as expressing horror at some of the developments of the war, but in the main the words of the Pope have to do with peace.

The interview began with an allusion by the pontiff to what the Holy See had done in respect to the war. The pontiff had addressed a letter in favor of peace to the Catholic world. He had proposed a truce to the belligerents for the Christmas season. He had endeavored to obtain an exchange of prisoners unfettered for military service and had had the good fortune to obtain in this respect an appreciable result.

His holiness referred to the letter he had written to Cardinals Lucon and Amette of Rheims and Paris, respectively, and to his consistorial address on January 22. Latapie quotes the Pope as saying:

"You desire that I should condemn every crime specifically, but each one of your accusations is accompanied by a reply on the part of the Germans, and I am not able to institute here a continuous discussion nor can I make investigations at this moment."

"Is it necessary to inquire as to whether the neutrality of Belgium has been violated?" asked the correspondent.

"That was under the pontificate of Pius X," the Pope replied.

"Is it not known by all that many priests have been taken as hostages in Belgium and in France, and shot?"

The Pope replied: "I have received from Austrian bishops the assurance that the Russian army has also taken hostages from among the Catholic

priests and that the Russians on one occasion pushed before them 1,500 Jews so that they could advance behind this living barrier thus exposed to the bullets of the enemy. The Bishop of Cremona has informed me that the Italians have already taken eighteen Austrian priests as hostages."

"The Germans," said M. Latapie, "have committed other violations." To this the Pope replied: "The Cardinal Secretary of State has received the reports of seven Belgian congregations. They have declared that they are not able to cite a single case in their congregations protected especially by the Virgin or by some saint. We continue to be imperfectly informed up on this subject."

"And the burning of Louvain and the bombardment of churches?" "The Germans reply that their troops have been fired upon," the Pope said, "and that they would regret to answer. They have declared that there was an observatory in the tower of the cathedral at Rheims."

"I shall surprise you," Cardinal Mercier (archbishop of Malines) has never been arrested," replied the Pope. "I have received from General Von Bissing, the governor of Belgium, a letter assuring me that he would respect hereafter, with the utmost energy, all acts of violence against churches and against the ministers of God."

The Pope then referred to the sinking of the Lusitania, and is quoted by the correspondent as saying: "I do not know of a more frightful transaction. What grief to see our generation the prey of such horrors. I have the heart of a father, and this heart has been torn. But what do you think of the blockade which restricts two empires, which condemns to famine millions of innocents? Is that inspired also by feelings entirely humane?"

The Pope continued: "I do not say that after the war I will not proclaim a syllabus, recalling and summing up the doctrines of the church on this subject, and regulating for the future the rights and duties of belligerents. Then one will find without doubt the formal condemnation of crimes which will have been committed during the war."

"Does your holiness expect to take any initiative to promote peace?" To this the Pope replied: "The hour does not seem to me to have come. I should not act save with the fullest knowledge, lest I weaken the moral authority which I hold of God, and which I must employ to bring peace again among men. I shall seek the opportunity; I shall seize the first hand outstretched."

BIG LICENSE BOARD WILL SEE EVERY HOTEL

TORONTO, June 21.—Ontario's new board of license commissioners intends to make during the year a personal inspection of every hotel applying for a license in 1915. Applicants will be notified to put in their applications not later than July 15 next. It is expected that the inspection system in the province will be rearranged, with one provincial district inspector and as many local inspectors as may be required. The province will be divided into five or more inspection districts.

How To Prevent Acid Stomachs and Food Fermentation

By a Stomach Specialist. As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess conditions that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full, bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated at most past endurance by these foreign acids—acid and wind. In all such cases and they comprise over 90 per cent of all stomach difficulties—the first and most important step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisulphate of magnesia, which is doubtless the best and most really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy normal manner. Be sure to ask your druggist for the bisulphate of magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.

EMPIRE HAS LOST 11,072 OFFICERS

Over Two Thousand From May 19 to June 9.

LONDON, June 21.—The British army casualty lists, ending June 9, show that since the beginning of the war 2,372 officers have been killed, 6,651 wounded and 1,049 put down as missing, making a total of 11,072.

From May 19 to June 9, 703 officers were killed, 1,147 wounded and 410 reported missing, or 2,260 in all. These figures bring out the fact that the proportion of killed to wounded runs one to two, which is probably due as much to the fact that the line officers of the lower grade are the first to leave the trenches during attacks as to the use of high explosives.

Canadian Losses. During the fortnight, ending June 9, the Canadian contingent lost forty officers killed and 130 wounded. The Australians, 107 killed and 175 wounded, and the Indian troops, 48 killed and 117 wounded, who, being officers, were in large part English.

The Australians, 107 killed and 175 wounded, and the Indian troops, 48 killed and 117 wounded, who, being officers, were in large part English. The Leicesters had 18 killed to 14 wounded, while in the Dublin Fusiliers the proportion stood 17 to 7, in the Welsh Fusiliers 11 to 5, and in the Surreys 15 to 13.

With each casualty list a certain number of officers and men are transferred from the missing to the killed, owing to the finding of their bodies. The number of the dead is also constantly increased by those succumbing to wounds.

7,500 MORE LOST. LONDON, June 21.—3:45 a.m.—The British casualty lists issued Monday night contain the names of fifty-five officers and 3,500 men. The week-end list, issued Sunday was four thousand.

GERMANS CUT OFF RUSSIAN RETREAT NORTH OF LEMBERG

Teutons Capture Rowa Ruska and Are Nine Miles From the Capital of Galicia—Nicholas' Rapid Retreat Is Surprise To the Enemy.

LONDON, June 21.—10:54 p.m.—Rowa Ruska, according to a Berlin official report, is the latest Russian position in Galicia to fall into the hands of the Austro-Germans and, as the Teutons are also reported to be fighting east of this town, the investment of Lemberg must be so nearly complete that the Russians either must withdraw from the Galician capital or leave a portion of their forces there to be besieged.

The German General Von Mackensen is reported to have seized the railway connecting Rowa Ruska with Lemberg, thus cutting off the retreat northward of the Russians. According to the latest news from the Austrian headquarters, the Teutonic allies are now within nine miles of the limits of Lemberg.

Considerable wonder is expressed by the German military critics over the Austro-German advance of the last few days. They had expected the Russians to make a firm stand along the Grodek line. Instead, however, Grand Duke Nicholas, the commander-in-chief of the Russians, not only retired quickly from this position, but evidently recognizing his dangerous predicament, also ordered the withdrawal of the Russian forces from south of the Dniester River.

WARSHIPS OF ALLIES ACTIVE AT AVI BURNU. CONSTANTINOPLE (via London), June 21.—8:42 p.m.—The following official communication was issued today: "On the Dardanelles front, at Avi Burnu, nothing of importance occurred on June 18 or 19. An armed ship, protected by nine torpedo boats and seven mine-sweepers, appeared before Sedd-ul-Bahr and bombarded our coast batteries on the Asiatic shore. The armed ship retired under protection to Lemnos."

"A weak attack against the centre of our southern troops at Sedd-ul-Bahr was repulsed on June 18, with losses."

"Our coast batteries successfully bombarded some columns of artillery, and an enemy transport vessel, as well as infantry retiring under the violent fire of our European batteries. Our Asiatic batteries also bombarded enemy columns on their way to a new position."

"An aircraft shed was shelled, causing a fire, which destroyed several aircraft. Enemy airmen flew over our Asiatie batteries, dropping eight bombs without success."

NO REWARD YET FOR LUSITANIA MURDER. LONDON, June 21.—10:15 p.m.—A dispatch to the Exchange Telegraph from Copenhagen says that the official announcement has been made in Berlin that no order of merit has been conferred on any submarine commander for sinking the Cunard Line steamship Lusitania.

AUSTRIAN REPORT. VIENNA (via London), June 21.—11:26 p.m.—The following official communication was issued today: "The pursuing allied troops have advanced to Zolkiew, about eighteen miles north of Lemberg, and south of Lemberg to the Skernik riverlet. The Russian troops on this line are everywhere being attacked."

"Near Tikolawow and Zydakow the enemy is standing on the Dniester."

"The troops of the army of Gen. Pflanzer have repulsed strong Russian attacks with the heaviest of losses to the enemy south of Potok Zlopoy, near Zalka, Saczky, and on the Bessarabian frontier. Otherwise the situation in the northeast is unchanged."

Two Girls Who Tired of War Nursing

William C. McAdoo, secretary of the United States treasury, meeting his daughter, Miss McAdoo, and her friend, Miss Catherine Britton, on their return to New York after several months' war nursing in France. GREAT ACTIVITY SEEN IN FRENCH FACTORIES

Manufacture of Arms and Ammunition Proceeding Satisfactorily.

PARIS, June 21.—11:05 p.m.—That the manufacture of arms and ammunition in France is progressing satisfactorily was made known in an official communication issued tonight concerning a tour of the factories where the work is in progress, made by Minister of War Millerand Sunday. The statement says:

"The Minister of War went Sunday on a tour of the factories in the interior of France, and returned to Paris this morning. In all the factories he visited, those privately-owned, as well as those belonging to the state, the minister witnessed very great activity. He has satisfied himself personally that, thanks to the great and progressive efforts shown up to the present, the expected results will everywhere be realized, and in a good many factories probably exceeded."

1915 Edition of McKim's "Canadian Newspaper Directory" Now Issued.

It is now nearly a quarter of a century since Mr. A. McKim, who established the first independent advertising agency in this country, completed the rather ambitious task of publishing the first directory of Canadian publications. The nine successive editions of this valuable work provide the most complete and detailed record available of the growth of Canadian periodicals.

The 1915 edition, of which we have just received a copy, shows that the great war has seriously affected the newspapers of Canada. While the birth-rate of new publications has increased a trifle, most of the leading papers, particularly the dailies, show very healthy increases in circulation. Three metropolitan dailies have reached or passed the hundred thousand mark.

A census of the papers listed and described in the 1915 directory shows nearly 150 dailies, 7 tri-weeklies, 45 semi-weeklies, over 1,000 weeklies, about 40 bi-weeklies or semi-monthlies, 250 monthlies, 2 bi-monthlies and 18 quarterlies—a total of over 1,575 publications.

This means approximately one daily to every 10,000 families, and one weekly to every 1,500 families. From this, one would infer that for a comparatively new country, Canada is well read.

A. McKim, Limited, report the usual keen demand for the Canadian Newspaper Directory, which sells at \$2. Its red-banded, gold-stamped green cover has become a familiar sight on the desks of advertisers, publishers and businessmen everywhere who are interested in Canada.
