LONDON WILL HOLD "DOLLAR DAY"

CITY DOLLAR DAY OFFERS BARGAINS OF GREAT WORTH

London Merchants Promise Something Bigger and Better Than Before.

PRICES EXCEPTIONAL

Dollar Day in the past has always been anonymous with Bargain Day After a perusal of the attractive advertisements placed in the daily papers by London merchants, ho wives and the male sex too, for that matter, have looked for bargains not every daybargins but opportunihose obtainable at any other period

And have they been disappointed? They have not. The merchans of the city realizing that people expect something a little better on Dollar Day have always generously slashed prices. The obvious result is that the merchants have won the confidence of the people. This year they have decided to hold a Dollar Day next Thursday and they promise that the bargains this time will be bet-ter than ever than those offered on Dollar Day of last spring—and that one day sale was declared to be about the most successful vet conducted

Early in the week the merchants who are participating in this Dollar Day will be displaying "Dollar Day" banners in their windows so the public will know what establishments to patronize when the day comes around. The businessmen wish it understood that they are not taking advantage

ISSUE ULTIMATUM

Socialists of German Reichstag Allege Plot To Further Depreciate Mark.

4,800,000 TO DOLLAR

Special Cable to The London Advertiser and New York Tribune, Copyright. Berlin, Aug. 17.-Influential members of the Social-Democratic party, constituting the socialistic bloc in the Reichstag today issued an ultimatum to Herr Hauenstein and Herr Glazenapp, president and vice-president respectively of the Reichs bank demanding their resignation within three days.

If they fail to obey the ultimatum the socialists announce they will force a proposal to reconvoke the Reichstag, which only adjourned Wednesday after a week of feverish activity for the purpose of revising the statutes of the Reichsbank in a E. Sanders, E.C., E.L., B.H., A.H., manner permitting the dismissal of the head officials.

On the demand of the entente the Reichsbank was made autonomous of the German government about a year ago, thus putting the officials of the bank in a position to defy the government and to exercise sabotage against it.

According to Vorwarts, which today features prominently the socialist ultimatum, Herr Hauenstein and Herr Glazenapp now are deliberately seeking to undermine the government's efforts to bolster up the mark, which is necessary if the new cabinet is to ameliorate the food situation by imports from abroad and succeed in its internal loan.

After regaining almost half its ground the middle of the week, the mark today fell nearly 1,000,000 points, being quoted at 3,500,000 to the dollar at the close of the bourse, and 4,800,-000 in outside trading. Further decline of the mark now threatens to upset the government's entire finan-cial program, upon which a solution of the present difficulties largely de-
