U. S. STEEL STOCK SHOWS DECLINE

Advances Are Recorded by Nash Motors, Jersey Central and Others.

Associated Press Despatch.

New York, Jan. 19.—Bullish demonstrations in the specialties were used as a screen to cover profit-taking in a number of standard industrials during the morning. Lower call money rates, reports of expanding steel operations and the commodity price average at the highest level since 1920, accounted for the general bullish sentiment.

Associated Drygoods dropped 5½ points below Saturday's closing price, Dupont 3¾, and Baldwin, American Can, General Electric and Mexican Seaboard sold off a point or more.

United States Steel dropped from 125 to 123¾ before it met sufficient support to withstand the volume of realizing. Sharp gains took place in other quarters, Nash Motors soaring 9½ points, Wickwire-Spencer preferred 4½, and Jersey Central and United Fruit 4¾ points, but the turnover in each stock was relatively small. Lowering of the call money renewal rates to 3½ per cent, followed by the subsequent drop to 3 per cent, reflected the huge heavy excess reserve shown in the weekly clearing house statement last Saturday.

"U" YEAR BOOK PLACED UNDER F. HITCHINS

Staff of Western's 1925 Publication Is Now Being Chosen.

Fred Hitchens, M.A., is to have charge of the producing of the university year book. It is expected that the 1925 edition will be somewhat larger than last year owing to the larger number of students enrolled and the greater scope of the university.

The new book will follow fairly closely last year's beautiful design. One new departure will be an increase in the advertising space sold to lessen the heavy costs of production.

John Elliott, '26, will be editor. Leslie Gray will be business manager, assisted by Harold Newll. Bob Curry will be associate editor in arts. Meyer Lerner will be arts circulation manager. Other colleges are choosing their own editors and circulation managers.

ROBSON DENIES KNOWLEDGE OF GUELPH DELEGATION

A report from Guelph stating that men from London were in the Royal City last week measuring the Guelph winter fair buildings, was news to Capt. Tom Robson, chairman of the committee interested in establishing a Western Ontario winter fair in this city.

"First I have heard about it," commented Capt. Robson when interviewed by The Advertiser today.

Grain Markets

WINNIPEG

Canadian Press Despatch.

Winnipeg, Jan. 18.—Reflecting an extremely bullish tone throughout the session here Saturday morning, and after opening from 1c to 1½c higher, the advance continued with the May future. Reaction developed shortly before the market closed, with May at $1.94⅞ and July at $1.91¾.

Further reports that Russia was negotiating for additional flour purchases, involving several million bushels for seeding purposes, was a strong factor in the price advance. Other European countries were also reported to have placed orders for large amounts of Canadian wheat. There was a fair amount of selling, and offerings were quite heavy on the extreme bulge, which satisfied the demand. The undertone continues very bullish, and all breaks are being capitalized by large buyers in the export trade.

Coarse grains followed closely the strength of wheat, with oats and barley scoring minor advances, while rye was up from 3c to 4⅜c. The flax market was also strong, gaining about 3c. Trade volume was generally light in all the coarse grains.

Interest in the cash wheat market was listless. Spreads were unchanged to fractionally better on a few off grades. The coarse grains and flax continued in good demand, but offerings were unusually light.

CHICAGO

Associated Press Despatch.

Chicago, Jan. 19.—With trading on a big scale, all deliveries of wheat and corn jumped to new high record prices today as soon as trading began. May delivery of wheat went to above $1.90 a bushel, contrasting sharply against the former top record of $1.88½ at the close on Saturday. The new advance in values here was more or less due to the fact that the Liverpool market showed a decided upturn above Saturday's quotations. Chicago opening prices, which varied from unchanged figures to 2⅜c higher, were soon followed by additional gains, despite heavy selling to realize profits. Export business in wheat was said to be huge.

Corn and oats derived their strength largely from wheat. Besides, country buying of corn continued active. After opening at ⅜c to 1⅜c higher, the corn market scored a quick further advance.

Oats started at ⅛c to 1⅛c gain. A further rise ensued.

Opening futures:

Wheat—May, $1.89½; July, $1.64¾.

Corn—May, $1.35¾; July, $1.36¼.

Oats—May, 63⅝c; July, 63⅝c.

ALL LEADERS STRIVING TO HALT COAL STRIKE

60,000 Pennsylvania Miners Threaten To Walk Out—Lewis Issues Appeal.

Associated Press Despatch.

Scranton, Pa., Jan. 19.—Businessmen, labor leaders and other agencies continued their efforts today to avert a tie-up of anthracite mining operations in district No. 1, United Mine Workers, where a general strike of the 60,000 miners is threatened. Union officials of the district have been given until Wednesday by the general grievance committee to settle the strike of the 11,000 miners of the Pennsylvania Coal Company or to call a special convention of the miners, the alternative being an order for a general walkout.

International President John L. Lewis notified members of the grievance committees that a call for a general strike would be a violation of the mine workers' agreement and the constitution of their organization, and urged the men to remain at work pending adjustment of their alleged grievances. Among other steps taken to prevent the general walkout is an appeal to Governor Pinchot for intervention.
