Lowdon, April 11—The House of Commons had a special sitting to-day, when the Chancellor of the Exchequer submitted his Annual Budget. He makes a most satisfactory exhibits of the condition of the government, and shows the total amount of specie reserved from all sources, during the figural tory exhibit of the condition of the government, and shows the total amount of specie received from all sources during the fiscal year ending March 1870 to be £75,334,000, exceeding the estimate by £1,819,000. Custems produced £21,529,000 against £21,-656,000; excise £21,763,000 against £21,-900,000. The total amount received from incomes was £10,660,000 against £9,036,000 estimated. The new methods of collecting yield £1,134,000 more than was anticipated. The total expenses of the fiscal year were £67,064,000, against an estimate of £68,-408,000; for the payment of interest on the debt the estimate fell £335,000 shart of the amount required. The expenses of the army under, and the surplus required was £787,000, of which £430,000 had been expended in paying the debt of the Abysinaian war. The expenses, therefore, for the current fiscal year, which was estimated by Lowe at £71,-130,000, foots £11,730,000 below the total amount of grants for the past year.

Hair Vigor, For restoring Gray Hair to is natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous.

Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING.

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

LOWELL, MASS. PRICE \$1.00.

Ayer's Cherry Pectoral. For Diseases of the Threat and Lungs, off such as Coughs, Colds, Whooping Cough, Bronchitts, Asthma, and Consumption.

Probably never, before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through along series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for inciplent consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Orosap, it should be kept on hand in every family, and indeed as all ahould be provided with this antidote for them.

Although settled Consumptions is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Okerry Protoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Astanta is aways reneved and often where the property it.

Bronchitis is generally cured by taking Cherry Pectoral in small and frequent doses So generally are its virtues known that we most publish the certificates of them here, or do in than assure the public that its qualities are functionally the continuous control of the control Ayer's Ague Cure.

As its name implies, it does Osere, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague diricts, are literally beyond account, and we believe without a parallel in the history of Agne medicias. Our, pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly falled. Unacclimated persons, either resident in, or travelling through missmatic localities, will be protected by taking the AGUE CULE daily. For Idear Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is as excellent remedy, producing many truly remarkable cures, where other medicinee had falled. Prepared by Dr. J. C. ATER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
