which is the more objectionable. The practical difficulties which the reservation would create are such that in some lic lands those royalties will have to be causes the value of a discovery would be paid, or the gold extracted from the licensists, of which the Honorable Licensist destroyed. The representation would be paid, or the gold extracted from the licensists, of which the Honorable Licensists. almost destroyed. The proposed royalty might in some cases amount almost to confiscation. The reservation of claims would be almost certain to lead to mining being done by large syndicates, who would buy up the alternate claims camps if the government should fall to was appointed to the staff of a Washing-

adjacent claim. We do not say that the However much one may disagree with up to his highest tension, and thinks he regulations are intended to drive poor the news above expressed as to the has lived that week in vain in which he nen out of the Yukon and turn the coun-equitableness of the royalty, there can has not managed to get himself talked try over to rich syndicates, for we do not be no two opinions as to the correctness about. A clever fellow is the Colonel, believe they are; but that will be their of the views expressed on other points, and as good a soul as ever lived; but it effect. Unless they are changed, we The laws will be enforced on the Yukon. does not do to take him too seriously, greatly fear that very much harm will If they are oppressive they will be except when he undertakes to save a

ORIENTALS IN AMERICA.

be respected.

A concerted attempt is about to be the same position is taken as that which made by the Uninese residents in the Colonist, alone among Canadian United States to secure the repeal of the exclusion law at the session of congress, has held. The Globe's rtion. 10 cents per line article is founded upon a paper in the which opens in December. The state-Captain Jack Bunsby, of delightful memory. While the Peking government ment to make the freest possible use of money. While the Peking government money. While the Peking government abolition of lengthy quarantine. He case of infected ships and an entire abolition of lengthy quarantine. He calls the old fashioned notion of quarantine seements not insertion, 5 cents. Adversements not inserted every day, 10 cents; each subsections for cents and the case of infected ships and an entire abolition of lengthy quarantine. He calls the old fashioned notion of quarantine are destroyer of commerce," and says it was ineffectual. In England Births, Marriages and Deaths, \$1.00; funeral serious 50 cents are Births, Marriages and Deaths, \$1.00; funeral there is practically no quarantine, and there outs are inserted they must be are the methods have been applied in the new methods have been applied in the new methods have been applied in a feeling that the exclusion act is a need-our good neighbors are it. Egypt, under British direction, with less and unjustifiable discrimination against a friendly people. When the Dr. Doty describes in his article the law was under discussion in congress,

If the use of large type, set in doublebroadly absurd as to be hardly worth rights are respected, provides them with means of communication, and generally even this passing reference.

"the case is altered quite." He begins its quality the condition of every organ depends. Good blood means strong nerves, ought to suffice. It is right that miners and prospectors looks after their interests in a way not why the importation is made, and there will protest undue exactions and have want to. He thinks there will be no never yet failed to discover a means of great difficulty in collecting the charges, making their protests heard.

The objections to the regulations are a claim if it has reason to believe the many. Of the two clauses principally conticized—namely, that reserving alter—nate claims and that imposing the 10 and a that whatever laws the Dominion may 20 per cent, royalty—It is not easy to say have provided affecting the Klondyke, for this purpose. As no one thinks about

and freeze out the locators. The enormous royalty of 20 per cent. might easily dyke. But it will not fail. . . . Its swallow up all the profits of a very rich mine, carried on under such disadvan
