Canada Cam.

## The Lunkenheimer "CLIP" Gate Valve

SINGLE DISC, DOUBLE SEATED

In Screw Ends, from 1/4 to 6-inch Sizes.  
In Flange Ends, from 2 to 6-inch Sizes.

Best in quality, lowest in price, the engineer's favorite. These Valves are made of cast iron and all wearing parts of gun metal. They are superior to common, cheap brass valves. Why? Because they possess all the advantages of a cast-iron pipe fitting, are heavy and rigid—not injured by expansion and contraction or rough handling in pipe fitting. Take pressure from either end. Body and hub held together by a steel clip, consequently always easily taken apart. Joint between body and hub made permanent by an imbedded seamless oval copper wire washer. If you desire the best, strongest and most durable valve for general purposes, on all ordinary pressures, use this valve. Fully warranted to satisfy. Made also in All Iron for Cyanide and other acids. Specify them and order through your dealer. Write for catalogue. Sole Makers and Patentees,
