

J. B. McArthur, H. McGaw and H. Anderson. The cricket club is endeavoring to arrange several matches with outside teams.

OUR "Flat Prayer Meetings" are held regularly on Tuesdays and Fridays, between tea and study hours, and on Thursday evenings the students meet in the Chapel for the general weekly prayer meeting. These gatherings are led by members of the student body and are very profitable, stimulating the spiritual life of the boys, and we are glad to know, in not a few cases, leading the unconverted to decision for Christ.

BASEBALL is just now claiming a good share of attention and causing a great deal of excitement owing to the playing of the annual games, between the different years of the school, for the honors of championship. The Preparatory along with the First and Second Years comprise one team and make a strong combination that will be hard to beat. The rivalry is very keen in these matches which give such good exercise, not only to the players' limbs but to the "rooters'" lungs as well.

EACH Sunday morning at 9.30, Bible classes for the study of the International Sunday School Lesson are conducted by Professors McKechnie and Russell. Last week, however, (Sunday, 22nd inst.,) instead of the regular study, we were addressed by Rev. J. L. Gilmour, B.D., of the James St. Baptist Church, Hamilton, Ont. Mr. Gilmour spoke on Christ in a four-fold aspect,—as a Hero, as a Counsellor, as a Friend, and as a Saviour. The subject matter, and the manner in which it was handled, were eminently suited to an audience of young men such as the speaker addressed.

THE new Athletic Association which now takes charge of all sports in the school is working splendidly. The boys have responded well to the idea and therefore a large membership has put the Association on a good financial basis. This plan of having all games under one control does away with a great deal of trouble and friction which was bound to occur under the old system where every club had to make its own arrangements and raise its own funds. The Association controls baseball, cricket, football, tennis, lacrosse, basket-ball. Each club has a "captain-manager," as he is called, who selects teams and, looks after the interests of his club. A membership ticket costing the moderate sum of twenty-five cents will admit, up to the end of the school year, to every game on the campus.

THE Literary Societies have now concluded their term of activity. A successful series of meetings was brought to a close by a fine combined meeting. Speeches were made, the Society papers read by the editors, and some good music rendered by different members. A feature of the evening was a splendid paper by Prof. D. K. Clarke on Scottish life and character. The work of Literary and Debating Societies is an important educational factor in the life of any college. The opportunities given by their meetings for cultivating the power of
