

Food is never spoiled if you own a

SOUVENIR

WITH AN Aerated Oven

GREAT are the blessings that come from a **Souvenir** Range, for what blessing is more to be prized than good health? The basis of good health is good cooking. Good cooking depends finally on the oven in which the foods are cooked. The secret of good cooking, if you own a **Souvenir**, is its aerated oven. The pure, fresh air that goes in and out of this oven, like as the lungs work in the human body, renders poor cooking an impossibility. A study of the illustration here means much to anyone interested in good cooking—and that means everybody. Ask for booklet entitled "Kitchen Wisdom." It gives special information.

1. Where the fresh air enters.
2. Circulating fresh air flue, and where it becomes heated.
3. Fresh heated air entering the oven.
4. Indicates the action of the air in passing through the oven.
5. Exit flue for impure air.
6. Back view of the fire-box.
