Long, Medical Officer, Education Board; Member Advisory Committee, Insurance Act; ex-President Association of Registered Medical Women, etc. London: Baillière, Tindall & Cox, 8 Henrietta Street, Covent Garden. 1916. Price, 12/6 net.

Dr. Jung has been known as an extensive writer and careful student of psychical phenomena. In the present volume Dr. Jung has given us a good translation, and the publishers have produced an attractive book. The author covers a variety of topics, such as the Pathology of Occult Phenomena, Somnambalistic Phenomena, the Unconscious Personality, Associated Methods, Psycho-Analysis, Dreams, and New Paths in Psychology. The work is worthy of careful study, as it reveals much thought and research on the part of the author. It covers an important, but too much neglected, subject. The work can be recommended.
