With able and trusted correspondents in the leading capitals, and wherever great clauges are in progress, THE TRIBUSE aims, at whatever cost, to lay before its readers the most prompt, complete, and popular presentment of these diverse and conflicting mose incuts, through all of which, as it foully trusts, the toiling masses are everywhere struggling up toward laigers regultion and a brighter future.

'4t home the struggle for freedom seems over. The last slave has long been a citizen; the last opposition to emancipation, enfanchisement, equal civil rights, has formally been abundoned. No party, Norths or South, longer desputes the result of the War for his Union, all declare that these results on the grant plater on the prolonged with contests that followed, lave led us, the Republic closes the records of the bitter, hateful Past, and turns peacefully,

an inonest statement of the lates; and this they always is to the lates. The Weekly Thebune, now more than thirty years old, has endeavored to keep up with the progress of the age in improvement and enterprise. It devotes alarge share of its columns to Agriculture as it enotes essential and general of human purstats. It employs the ablest and most successful cultivators to set forth in brief, clear essays their practical views of the Farmer's work it reports public disscussions which cluckdate that work; gathers from every source agricultural news, the reports of the latest experiments, the stories of the latest successes and failures, and whatever may tend-at once to better Agriculture, and to commend it as the first and most important of progressive Art, based on natura science.

The Weekly Tribune appeals also to Teachers Students, and persons of inquiring minds, by the character of its literary contents, which include reviews of all the works proceeding from themaster initias of the eld or of the New World, with liberal extracts from those of especial interest. Imaginative Literature also claim attention; but in a subordinatedegree. "Home Interests" and discussed weekly by a lady specially qualified to instruct and interest her own sex, and the younger portion of the other. No column is more eagerly sought or prisued with greater average profit than hers. The News of the Day, enclated by brief comments, is so condensed that no reader can doom it diffuse, while given sufficiently in detail to satisfy 'be wants of the average reader. Selections are regularly made from the extensive correspondence of The Daily Trainure from every country, and its editorials of more permanent value are here reproduced. In Short, The Weekly Trainure, and other Markets, will, of themselves save the farmer who regularly notes them. For more than his journal's price.

For the family circle of the educated farmer or artisan, The Weekly Tribune has no superior, as is proved by the hundred of thousands who, having read it from childhood, still cherish and enjoy it in the prime and on the down hill of life. It is an elegant charactary, pure, light and graceful literature, and a collection of pictures, the travels specimens of artistic skill, in black and white.
