THE Directors of the Colonial Life Assurance THE Directors of the Colonial Life Assurance Company being desirous to afford all those advantages to their Policy-holders in this country, which are commanded by Assurers in Great Britain, have invested the Board in Montreal with full powers to examine into and accept proposals, putting the Company on the risk, at once, without communicating with the Parent Board.

A party has it thus in his power to effect an Assurance on his Life immediately, without incurring the delay to which Life Assurers in this country have hitherto been subjected, from the sanction of the Head Board being required to complete the transaction; the deliverance of the Board at Montreal being final and ir revocable.

This arrangement gives to the Colonial all the faculties of a Company essentially becal; and, combined with the additional advantage of a large Guaranteed Capital, affords the most perfect security in all Assurance transactions.

The Colonial Life Assurance Company Has been established for the purpose of extending the benefits of Life Assurance in the Colonies of Great Britain, and affording increased facilities to persons assured in passing from one country to another. The success which has attended its operation testifies how greatly such an Institution was required, and how much it has been appreciated.

Mr. Fowle—Dear Sir: I could send you a dozen certificates, strong and decisive, of the really sanative effects of your valuable Balsam of Wild Cherry, within the past twelve months, under my own supervision and direction. Indeed, I know of few persons who have used it, comparatively, but commend it in the strongest terms. A case of Asthma, the severest I ever saw, to which I was called a month ago, evinced the superiority of the Balsam. This disease lasted six weeks and the dyspepsea and suffering were dreaduli, he sat up every night. The gentleman told me to give him something to last him home. (21 miles), so that he might see his wife and child, and die in peace! I gave him one bottle of the Balsam, and four others of syrup squins, directing him to take tea-spoonful doses of best Bordeaux olive oil, when the difficulty of breathing was greatest. Next day I forced his despondent will, and made him take six bottles of Wistar's Balsam of Wild Cherry home with him as a present, he having alleged that he had used so much expensive medicine to no profit. Last week Mr. A. called and expressed his gratitude to me in the warmest manner, said the medicine had saved his life, paid his whole bill, and took six bottles more, and left my office for home rejoiting.

Very respectfully yours,
