It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Aper's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar ceating makes them pleasant to take, and preserves their virtues unimpaired for any leagth of time, so that they are ever fresh, and perfectly reliable. The Quivium Labarraque is an eminently tonic and febrifuge Wine, destined to replace all the other preparations of Peruvian Bark The Bark Wines usually employed inmedicine are prepared from Barks which vary considerably in the degree to which they possess the desired properties. Besides owing to the manner in which they are prepared, these Wines contain scarcely more than the traces of active principles, and these always in variable proportions.

Physicians and Patients can always rely.

The Quintum Labarraque is prescribed with great success for persons of weak contitution, or for those debilitated by various exhausting causes or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in childbirth; and for aged persons enfeebled by years or illness. It is the best preservative against Fevers.

In cases of Chlorosis, Anemia, or Greensikness, this Wine is a powerful auxiliary of the ferruginous preparations. In conjunction, for example, with Valler's Pills, the rapidity of its action is really marvellous.
