HOT WATER DRINKING.

There are four classes of persons who should no drink large quantities of hot water. These are as follows:

1. People who have irritability of the heart. Hot water will cause palpitation of the heart in such cases.

2. Persons with dilated stomachs.

3. Persons afflicted with "sour stomach."

4. Persons who have soreness of the stomach, or pain induced by light pres-

These rules are not for those who take hot water simply to relieve thirst better than cold water, and for that purpose is not to be condemned. But hot water is an excitant, and in cases in which irritation of the stomach exists should be avoided .- Indiana Lancet.
