ELEVATOR ACCIDENTS

Sometimes elevators are operated by more than one person. Accidents and loss of life are often the result.

The Danger is caused by men and goods falling down the shaft after someone on the floors above or below has removed the cage. To Prevent this we supply a simple but efficient lock, which by attaching to the operating rope, holds the cage level with the floor until released by the party using it.

Fensom Elevator Works—52, 54, 56 Duke Street, Toronto.

Woollens And Tailors' Trimmings

We are enabled to keep our stock in Montreal constantly well assorted with latest novelties in all classes of Woollen and Worsted cloths, as our house in Huddersfield, England, keep a large stock ready for shipment, from which they supply other markets, especially English, Irish and Scotch, where they do a large trade with tailors and clothiers, besides having constantly in work various lines especially selected for the Canadian trade. Often Montreal orders (especially cables) are despatched same day as received in Huddersfield.

All Canadian woollen buyers visiting the English markets would find exceptional advantages in buying and ordering from our Huddersfield House, as in addition to holding a large stock to select from, we are at all times in complete touch with the makers of every class of woollen and worsted suitings and coatings, the senior member of our firm having had many years experience there, both as manufacturer and merchant.
