M. Moreau
Sales Manager

EFOS Inc., incorporated in 1984, produces tangible goods for use in the scientific, medical and dental fields. For the past two years EFOS has been involved in the distribution of specialized lighting products for the dental industry.

In 1985, EFOS introduced the EFOS Eye Protection System for all available photo curing equipment. Also that same year, EFOS launched the EFOS Lite, a visible light curing unit, designed for the world dental market. Both innovative products are manufactured at the EFOS plant in Mississauga, Ontario.

The EFOS Lite is an efficient, visible light curing unit, equipped with automatic time setting and cooling fan, designed for dentists by EFOS Inc.
