

## Canadian International Development Agency

The Canadian International Development Agency (CIDA) provides international development assistance to some 100 countries. CIDA's Industrial Co-operation Program assists Canadian firms seeking opportunities for investment, joint ventures and transfers of proven technology in Asia, Latin America, the Caribbean, Africa and the Middle East. It offers financial incentives to Canadian firms to develop long-term arrangements for business co-operation and to carry out project definition studies in developing countries. Support is also available for building contacts and identifying opportunities through visiting missions and seminars.

CIDA will provide general information on supplying goods and services for CIDA projects as well as on its Industrial Co-operation Program.
