

4. Provision for the carriage of passengers, cargo and mail both taken up and discharged at points on the specified routes in the territories of States other than that designating the airline shall be made in accordance with the general principle that capacity shall be related to:
  - (a) traffic requirements to and from the territory of the Contracting Party which has designated the airline;
  - (b) traffic requirements of the area through which the airline passes after taking account of other transport services established by airlines of the States comprising the area; and
  - (c) the requirements of through airline operation.
5. The capacity to be provided on the specified routes, i.e. frequency of services and type of aircraft, shall be agreed in advance between the designated airlines in accordance with the principles laid down in this Article, and subject to the approval of the Aeronautical Authorities of the Contracting Parties. In the absence of an agreement between the designated airlines, the matter shall be referred to the Aeronautical Authorities of the Contracting parties which will endeavour to resolve the problem pursuant to Article 16 of this Agreement. Pending an arrangement either at the airline level or between the Aeronautical Authorities, the status quo shall be maintained.

#### ARTICLE 10

##### Statistics

1. The Aeronautical Authorities of both Contracting Parties shall exchange, at the request of either of them, such statements of statistics as may be reasonably required for the purpose of assessing the capacity provided on the agreed service. Such statements shall include all information required to determine the amount of traffic carried on the agreed services and the origins and destinations of such traffic.
2. The Aeronautical Authorities of both Contracting Parties shall maintain close contact with respect to the implementation of paragraph 1 of this Article. Consultations may be held in accordance with Article 16 of this Agreement to discuss the details and the methods for the provision of statistical information.
