LYCEUM CLUB,  
138, PICCADILLY,  
W.I.

Christmas in Paris partly so that Sholto can do some work at the Sorbonne and next summer we shall spend in Germany so that he can get German. He is specializing in Political Theory in his Economics and philosophy and feels that he can learn much in Germany. It is really wonderful what chances these young people are having to day. Education is so cheap anywhere outside of England on this continent.

I suppose you will have the problem of Garner on your hands before very long but no doubt such a forthcoming young man as Marjorie tells me he is will make up his own mind !

with kind regards

yours sincerely

Eu R Watt
