

(H.)

Estimated cost of breaking, drawing, crushing, and dressing, a fathom of ore ground in the Coal Hill Mine :

	Dollars.
Cost of stopcing (the average)	22.00
Drawing to surface	1.50
Crushing and Dressing	15.50
	<hr/>
	39.00
	£ 8.
Price or value is	24.
	<hr/>
Profit per fathom	£16.

According to Messrs. Whitney and Dunkin's statements and Petherick's plan, the 1st and 2nd levels would lay open 3,000 fathoms of ore ground. If this does as well as hitherto, the profit would be £48,000 in the two levels alone.
