The following quotations from the Supplementary Report of Student C. 5980, Toronto, give some idea of the results that are being obtained by hundreds of thousands of students of The Pelman Mind and Memory Training Course.

"My will power is increased.

"I feel more enthusiasm and interest in almost everything I undertake.

"The After-Talks have helped me in many ways, especially in regard to utilizing spare moments. It is really surprising the amount of spare time one has when it is figured out.

"I am sorry I didn't obtain the course years ago, for, although I have invested in many ways, this has proved the one real investment in my life, and I feel that the money spent is as nothing in comparison to the value obtained."

These are not by any means all the good words this student has for the Pelman Course, but they are sufficient to show that he is getting splendid results, although the course.
