BOARD OF TRADE

THE TORONTO WORLD

To-day or Saturday Your Last Chance

You know the "why" of the Victory Loan 1919.

You know that Canada's prosperity depends upon the success of the Victory Loan.

You know that if the bonds are not sold every industry in the country must suffer.

You know that if industry suffers thousands of people will be without employment.

You know the hardship and suffering that follows lack of employment.

You know that an investment in Canada's Victory bonds is secure beyond discussion.

You know that $5\frac{1}{2}$ is a good rate of interest on a secure investment.

You know that Canada's Victory Bonds can be turned into cash at any time.

You already know that Canada's Victory

Bonds are likely to increase in value.

You know that you, like every other citizen, have a responsibility to Canada in this matter.

You know that your employer (if you are a worker) will help you to finance your purchase of bonds.

You know (if you are an employer) that it is your duty to assist your employees to buy bonds by helping to finance them.

You know that the banks are prepared to help you to buy bonds, and that you should ask some banker for information.

You know that if you have not bought as many bonds as you can possibly pay for now, and with your future savings, that you have not bought as many as you should.

You know you have just two days left, to-day and to-morrow, so make up your mind NOW to do your full part and buy as many as you can of
