WOMAN'S WORLD.

Women in the Canadian West. This is the age when women all over the world are striking out for themselves in the desire to earn their own living and acquire a comfortable independence.

A new publication of the Canadian Pacific Railway called "Home Life of Women in Western Canada," gives truly marvellous accounts of the wonderful things accomplished by women with no capital, except brains and energy.

The book, quite apart from its value as an exceedingly interesting and may be obtained by sending a two-cent stamp to W. T. Robson, C. P. R. offices, Montreal.

Adverse weather conditions prevented the customary large attendance at the Nurses' Club last evening, and those who did not attend missed some very instructive discourses.

Miss McIntosh of the Toronto City Mission dilated on municipal affairs in a very masterly style. She recommended as a solution of the housing problem, the building of houses on all vacant city property, either by the city or a reliable syndicate. She also advocated a juvenile court for the special treatment of youthful delinquents; also supervised playgrounds and boys' clubs.

Miss Carson of the Evangelical House gave an address on "Settlement House, its Aims, Purposes and Ideals," dealing great stress on the importance of instructing girls in the art of sewing and domestic science, as well as developing their social and religious tendencies. In the course of the evening much appreciated solos were rendered by Miss Grace Mackenzie and E. B. Goldy. Miss Hamilton, president of the Sick Children's Alumnae, occupied the chair.

DECLINE OF THE ZENANA. At the very moment when the loudest clamor is being made not only for the revival of Indian arts and industries, but for the preservation of all the Indian social customs, the most deep-rooted custom of all the zenanas, is, says The Calcutta Englishman, rapidly disappearing. The famous laying of the foundation-stone of the pre-deration Hall was witnessed from a neighboring house-top by a crowd of ladies belonging to the most orthodox families. Ladies day at the industrial exhibition attracts crowds of Indian women who have never before left the zenana. It is true that a pretence is made of keeping up the zenana tradition by excluding male visitors on these days, but the exhibitors and others in charge of stalls, many hundreds in number, and all males, cannot, of course, be excluded, and the result is that for practical purposes and whilst in the exhibition there is no zenana. Many ladies saw the congress opened. Indian ladies, moreover, are informed, are visiting Indian theatres where the most indecent tendencies are produced in large numbers.

The caste system, of course, is the other great block in the way of Indian progress. If we except some pundits in Madras and Bengal, who nobody regards, the general feeling amongst educated and respectable Indians to-day is that caste serves no useful purpose. Inter-dining has become quite a common affair, and the hundred and one taboos with regard to the cooking and food are scantily observed.

Again, the custom of demanding enormous dowries with brides is being denounced with such violence that presently it would not be surprising if a man who insisted on ruining his father-in-law were put under a real social ban. Moreover, in any case, the Indians begin to see, thanks to the numberless tracts now being issued on the subject, that for a girl to remain unmarried is not necessarily disgraceful, greedy bridegrooms will find that fathers will not accede to their demands.

GOVERNOR HUGHES REMOVES HEAD OF INSURANCE DEPT.

Has "Conspicuously Failed to Perform Obvious Duties of First Importance."

Albany, N.Y., Feb. 20.—Governor Hughes sent to the senate to-day a special message recommending the removal from office of State Superintendent of Insurance Otto Kelsey.

In the opening paragraph of his 5000 word message the governor advised that he recommended the removal of Otto Kelsey from the office of superintendent of insurance.

"With respect to life insurance, New York is easily the most important jurisdiction in the United States, if not in the world, and the vast interests involved imperatively require, and it should be a point of honor for the state to maintain, fearless and efficient administration of its superintending department commanding the confidence of the people.

"I recommend Mr. Kelsey's removal because as head of this department he has conspicuously failed to perform obvious duties of first importance, and his neglect has demonstrated his unfitness for the trust confided to him.

MANITOBA'S CAMPAIGN.

Government Appeal for Support on the Borden Issue.

Winnipeg, Feb. 20.—(Special.)—R. L. Richardson, editor of The Tribune, has decided to run in Killarney in the interests of the Liberals. Richardson has been out of the political arena for several years and his return has created quite a sensation.

The election fight is one of the bitterest campaigns. Liberals are making a desperate attempt to overturn the Roblin government, attacking it particularly on the land and railway policy and the ground of broken temperance pledges.

The government have made the extension of the boundaries the paramount issue, and are appealing to the people to vindicate the policy of the cabinet on the question.

The Liberals are better organized than they have been for years, but not even the most sanguine Liberal believes they will carry the province, altho Conservatives concede that their overwhelming majority in the house will likely be reduced.

The fight is particularly keen in the four Winnipeg seats, where an addition of over 5000 new names to the voters list has brought in a tremendous element of uncertainty. A bitter onslaught is being made against ex-Mayor Sharpe, who is standing in West Winnipeg in the Conservative column.

There will not be a solitary seat carried by acclamation.

Is Disease a Crime?

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all diseases are criminal. It is certain, it is that much of the sickness and suffering of mankind is due to the violation of certain Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to the reasonable mind as a radically wrong.

It would be harsh, unsympathetic, cruel, yes criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weakness, various displacements of pelvic organs and other derangements peculiar to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weakness, derangements and debility which are aggravated by the many household cares, and the hard and never-ending work which the mother is called upon to perform.

Dr. Pierce's Favorite Prescription says that one of the greatest obstacles to the cure of this class of maladies is the fact that the poor, over-worked housewife can not get the best medical practice in her own case, and labor to enable her to secure from the use of his "Prescription" the relief which is a matter of frequent experience, he says, in his extensive practice in these cases to meet with those in which his treatment fails, years and years may be wasted in the vain hope of hard work long enough to be cured. Other sufferers from prolapsus, anteversion or retroversion of the uterus, and other displacement of the womanly organs, who are very anxious to be cured, should try Dr. Pierce's Favorite Prescription, they obtain relief in a very short time.

As a preventive of disease, the use of Dr. Pierce's Favorite Prescription is also very important. As much as possible, the womanly organs should be exercised in a moderate, healthful manner. Dr. Pierce's Favorite Prescription will do the rest.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Littlefield, N. Y. 21 one-cent stamps for paper-covered, or 10 stamps for cloth-bound copy of his "Prescription" will do the rest.

If sick consult the Doctor, free of charge by letter. All such communications are held strictly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

The Habit of Health

Many people have a habit of ailing. How much better it would be to learn to keep well. For health, after all, is largely a matter of habit, which all may acquire with a little practice.
