GOLD-LINED PLATES.

The method which we employ in making our gold-lined plates is the bestwe will have no other in any branch of dental work. It is the only all-gold lining that has ever proved a success, and all other methods are experiments along the line that this plate discovers. We'll be very glad to show you sam ples of this work. You will readily see ts great advantages. All people who suffer from sore mouths caused by rubper plates, and all who appreciate th bright, cleanly appearance of an artificial denture, will be attracted by this work, which gives the advantages of a barely the cost of good rubber ones.

the Board.

The six principals for the new departnight and their salaries fixed. This, with night to be selected by the chairman next

The World representative, on seeking admittance, was informed by the secretary privately and make no announcement until presenting a completed report to the board, which meets in two weeks.

After the meeting the chairman stated that the committee could not complete their work without a further meeting, as the members desired to secure certain further information. He expressed regret that an afternoon paper had spoken of the board in an unfriendly tone, as trebling the expenditure. It should be remembered, he said, that the city grant asked was but \$9000, but there would be a certain amount from small fees for the day classes, and a grant from the Outario Government. He assured The World that no member of the, Technical School Board had an ax to grind, that all were animated by a desire to see an adequite Technical School, worthy of the city, established, and that on all principles (if not principals) the committee was agreed. privately and make no announcement un

of the suggested a maximum penalty of such a protest, and return it to the person making the protest.

Mr. Hackett suggested a maximum penalty of such as protest, and returning officer failing to return all the ballots at a recount.

The Solicitor-General considered the law sufficiently covered such cases.

Mr. Hackett pointed to the case of West Prince, when a ballot box was rified on a train and thrown away while the returning officer sat in an adjacent car. At the trial nothing could be done about it. What he wanted was to make the returning officer responsible for the safe custody of the ballots.

The suggestion to have the counterfoil on the right side of the ballots.

The suggestion to have the counterfoil on the right side of the ballots as Mr. Clancy's instance.

Several of the ballots.

The suggestion to have the counterfoil on the right side of the ballots.

The suggestion to have the counterfoil on the right side of the ballots were placed on record, so that they may be considered before the bill is again taken up in committee.
