May Be Connected With Bisturbed him Burglary at Inglis Factory-Another Attempt Foiled.

By the vigilance of Night Watchman Wright and the police in watching the notorious Stanley Park gang, another

notorious Stanley Park gang, another robbery at the Inglis foundry was narrowly averted on Tuesday night.

Wright, while going his usual rounds shortly before midnight, observed that a window in the rear of the building which had been the scene of the Saturday night attempt, had been broken with the evident intent of securing an easy entrance when the alert watchman had finished his round. He immediately called up the proprietor and informed him of his discovery, and on his communicating with Police Station No. 3, reinforcements were sent to the officers already on duty in the vicinity. Thus another bold attempt on the part of the incorrigible Stanley Parkers was foiled.

The second day's session of the Presbyterian summer school opened with a number of addresse given at Knox College in the morning, and an historical trip around the city under the guidance of framing." Rev. Mr. Turnbull took up his second series of Bible studies, and Rev. Charles H. Vessot spoke interestingly of the French Canadians in Quebec. There were 600,000 French Canadian children in that province, he said, who were illiterate. None of this number could either read or write. While the statutes required that the three school commissioners who were appointed in each section should be able to read and write, the law was being violated daily. It was, he added, a most difficult thing to find three men in each district to appoint as commissioners who had any education. In the evening he continued his address about conditions in Quebec, and strongly urged for Protestant missions there. Rev. Charles A. Webster of Bayreuth, Syria, then gave a most interesting lecture on Palestine, which oc-

forts to apprehend the men who made the Saturday night entrance, but the matter is rendered exceedingly diffi-

the fact that on the morning following several box cars at Stratford were broken into, and on the G. T. R. constable there making investigation, four Toronto men, said to be members of the Staniey Park gang, who had just arrived that morning, were found hil-ing in a box car. They gave their names as Robert McGuire, 51 Arthurstreet; James McCann, Wools-ley-street; Fred Franks, 15 Crokerstreet, and Wm. Gibbs, Lippincott-

street.
It will be remembered that on the night in question the watchman saw the robbers run down the Prison Lane, across the grounds and over to the G. T. R. tracks. The Toronto police have received communications from Stratford, and G. T. R. Constable Hodge went to Stratford last night.

Now in Control.

Montreal, July 8.—The Mexican Light, Heat and Power Company are now in full possession of the plant which lights the city of Mexico. A meeting of this Canadian corporation, which is now installing a great electrical plant some miles from the Mexican capital, was held here to-day, when the important deal above mentioned was put thru. It is understood that the Mexican Light, Heat and Power Co. will pay for the smaller company's plant, with bonds and stock of the former company.

Ottawa, July 8.—The bill incorporating the Canadian Telephone and Telegraph Co., which is promoted by a number of American capitalists, who have associated with them several members of the Canadian parliament, was talked out by T. O. Davis, who claimed that it was a great trust which intended to control all the companies in Canadian which intended to panies in Canada.

"This move of the Steel Company to start a plant at Port Cotborne, Ont., is a very significant one in many ways. It means that the United States will ultimately lose the world's market for its steel production.

"Canada will eventually secure the greater part of the trade.

"Pittsburg and other American steel centres will be the greatest losers.

"Canada will surely get the upper hand of her sister colonies in that line of trade in the event of the adoption of a protective tariff by the British parliament, and that fact will remove the possibility of a union between this country and Canada one degree farther.

"Thesfar-reaching results of this move of the Steel Trust cannot be overestimated by the commercial world.
