

LONDON AND THE WATER PROBLEM

(Continued from page 1)
to ratepayers who have paid for these improvements that dirt and filth should be allowed to lie for days on the best streets in the hot weather.

How is London to get her share of new industries and keep what she has? This is one of the vexed questions of civic policy. It is made more difficult by the excessive insurance rates under which local merchants and manufacturers are groaning. A substantial reduction in these would take a dead-weight off the city's progress and be equivalent to a policy of bonusing new industries. The independent system is the only water scheme that assures immediate relief. The fire underwriters have pledged their word that the rates will be greatly reduced if a high pressure service is installed. This is another advantage over the other plans before the public.

Supt. A. J. Cody, of the Cody Detective Agency, was in the city last night on his way to Finland to find the friendless old woman and bring her to opulence in the land of her brother's adoption.
Shortly before his death Kostermann, who had changed his name to Charles A. White, became interested in the estate of the late, leaving a considerable portion of the estate to various members of the order, willing the balance at his death in 1898 to the Abo Society at Madras, British India.

POPULAR JOURNALIST LEAVES FOR WEST

Mr. George F. Buskard Accepts Position With Manitoba Government.

Mr. George F. Buskard, who for many years has been connected with the reportorial staffs of The Advertiser and Free Press, and who for four years has held the position of city editor of The Advertiser, is leaving for Winnipeg, having accepted a position as private secretary to Hon. Mr. Rogers, minister of public works, in the Roblin Government.

During the years he has been connected with The Advertiser, Mr. Buskard has won for himself the warm friendship and admiration of his fellow workers, and by them was yesterday presented with a very handsome English leather traveling bag, as a small mark of their esteem.
The presentation took place in the rooms of the managing editor, who paid some warm tributes to the sterling character of Mr. Buskard, and to his ability as a newspaper man. Mr. Buskard he described as a man who knew the business from the ground up, and was capable and reliable in all respects. He was sorry to lose Mr. Buskard's valuable services, but was sure he would have the same success in his new position as he had had in the one he was leaving.

The presentation of the traveling bag was then made by Mr. E. J. Carty, who succeeds Mr. Buskard as city editor.

Mr. Buskard, in reply, referred to the pleasant relations which have always existed between himself and the other members of the staff, and declared that it was only after the greatest consideration that he decided to go west. There had not been a break in the staff for some years and he felt very sorry to sever pleasant ties.

Mr. Buskard leaves for Winnipeg Saturday morning. He has been one of the most popular newspaper men London has known, and carries with him the good wishes of a host of friends.

MONTREAL TENEMENT FIRE

Twelve Families Burned Out, Losing Most of Their Effects.
Montreal, July 11.—Fire broke out last night in a block of tenements in St. Henri Ward and before the western section of the fire brigade could arrive the three-hour fight twelve families were rendered homeless. The houses were occupied by the families of workmen. They lost most of their effects and carried comparatively little insurance.

NOT A PRISONER

Korean Emperor Allowed to Come and Go As He Pleases.
Seoul, May 11, via Tokyo, July 12.—The request of the Korean delegates at The Hague, as published in the Courier De La Conference, to the effect that the Emperor of Korea is a prisoner here, and the imputation that the emperor is helpless in the hands of the Japanese, is denied by Marquis Ito, as a gross misrepresentation of facts.

Marquis Ito regards the personal liberty of the emperor to be unchanged by the protectorate, the emperor being free to go and come, and see whom he likes. His manner of life remains unchanged. Foreigners have until now regarded the emperor as a prisoner. Marquis Ito's reform of a Korean court, or, as it is called, court purification, excludes a class of intriguers, heretofore guiding the emperor, but does not interfere with the emperor's movements, communications or access to ministers and others who have legitimate business, and even suspicious interrogators are admitted to him.

PACKERS COMPROMISE

Chicago, July 12.—"The sealed package" system of buying cut at the Chicago stock yards, was adopted as a compromise at a meeting between representatives of the Chicago live stock exchange and the packers yesterday. Under the agreement the packing house buyers will make purchases at their own risks. They will be given the right to examine, but one selection has been made, and prices agreed upon, the sale will be regarded as completed, and any subsequent losses will fall upon the purchasers.
A MATTER OF TIME.
Windsor, Ont., July 12.—A Windsor businessman, just returned from New York, says that he talked with officials of the United States Steel Company, and was told that owing to the construction of their big plants at Gary and Duluth, little attention had been given to the projected Sandwich plant, but that this was assured, and it was only a matter of time when it would be built.

PRES. ROOSEVELT TOO GRANDIOSE

Ito's Organ Dislikes President's Remarks as to United States Navy.

Tokyo, July 11.—The massing of the fleet in the Pacific, about which American papers have applied to Marquis Ito for an opinion, is semi-officially discussed in Ito's administration organ today. The paper says:
"We cannot help feeling some misgivings with regard to the significance of the intended massing of American battleships in the Pacific, especially in view of the grandiose announcement attributed to President Roosevelt to the effect that the navy would furnish the world with a startling demonstration of American defense capacity."

"It is difficult for us to accept the assurance that the coming maneuvers do not possess any important what- ever with the Japanese-American situation. We regret that Washington thinks it necessary to take what resembles a precautionary measure. However, we are not disposed to attach serious importance to this matter and have no inclination to doubt the President's sincerity in assuring the peaceful nature of the proposed maneuvers. Neither have we the slightest doubt of the pacific and friendly sentiments of the American Government. The people toward whom Japan's blame is probably due are the irresponsible sections of both nations."

"To decline discussion regarding the sensational agitation in the press. His sole comment on the probability of war is: 'There is no feeling in my heart for this.'"

INDUCING THEM TO WED

Clergyman's Celibates' Club is Proving a Great Success.
London, July 11.—Rev. W. J. Gomersall and wife, some time ago started a private club at Hampstead to bring together celibates of both sexes to marry, say they are doing a big business. The attendance at the club gathering, which takes place every Friday evening, averages 300, and dozens of happy marriages have already resulted. The women outnumber the men three to one and are usually less diffident. The men are mostly shy at first, but they generally melt and grow very amiable over coffee. Coffee, it would seem, is one of the most potent drugs in Cupid's pharmacy, and most of the proposals take place under its influence.

All sorts of business and professions are represented among the frequenters, but among the women, typewriters, teachers and dressmakers predominate, while the men include curates, dentists, clerks and school teachers.
Asked what class men was most amenable, Mrs. Gomersall answered unhesitatingly dentists. They are always courteous and gentlemanly. Widowers are also amiable, but it must be admitted that they are particular in certain respects. They invariably ask to be introduced to certain types of girls.

LOVERS ON A JAUNT

Detroit, Mich., July 12.—Mary Campbell, aged 17, of Belle River, Ont., while visiting relatives on the Canadian side of the river here, crossed to Detroit last Sunday. On Belle Isle bridge she engaged in a flirtation with William Berny, aged 18. It was love at first sight, and the couple decided to get married as soon as they could reach Flint, Mich., where Berny had a job in the city.
The couple walked the 70 miles thither, but on reaching Flint, they were arrested as vagrants. Berny was sent to jail for five days, and the girl held for examination.

LIPTON'S CUP COMING

Boston, July 12.—The Boston old home week committee has received a cablegram from Sir Thomas Lipton, stating that the cup, said to be valued at \$5,000, which Sir Thomas has offered to a fisherman's race during old home week, is on its way here.
Two hundred nominations have been sent out to owners of fishing schooners from Provincetown to Gloucester, to compete in the race. There will be two classes for schooners, one for boats over 50 feet, and the other for boats over 85 feet.

The pencils first used in Italy for drawing were composed of a mixture of lead and tin, nothing more than pewter. This pencil was called a "stilet." Michael Angelo mentions the use of it, and it seems that such pencils were used commonly over the whole continent of Europe. At this period the name plumbago or graphite was not in use, but instead the name molybdena or molybdom, which is at the present time applied to an entirely different mineral.
A dollar bill has an average life of fifteen months.
A four-year-old oyster is the best for eating purposes.

Don't Go Away

On your vacation minus the toilet preparations you appreciate so much.
Creams, Sunburn Lotions, Tooth Paste and Toilet Water, are as necessary to the well-groomed traveler as soap and water.
We might suggest "Pompadour" perfume as a dainty toilet luxury for the ladies.

Love of Canines Makes Ouida Poor

London, July 12.—Relative to Ouida, the novelist, being reduced to poverty, the Florence correspondent of the Daily Mail sends a story of her recent life. He says that until two years ago, Miss De La Ramee occupied a splendid three-story villa at Lucca. She was known as the "Lady of the Dogs," as she invariably had 30, and was always seen with a number of the kind around her. Her intense fondness for dogs, with a certain megalomania, caused her on one occasion to give a meal of milk, bread and meat to each dog in Lucca. She paid the bill for the extraordinary amount of money willingly, although heavy debts were crowding in on her through her utter ignorance of the value of money.

Ice Cream And Soda At Peters'

210 DUNDAS
TABLET TO CHAUNCEY.
London, July 11.—Ambassador Whitelaw Reid today unveiled a tablet erected in the parish church of Ware, Hertfordshire, in memory of the Rev. Charles Chauncey, professor of Greek in the University of Cambridge, subsequently Vicar of Ware, in 1627, and who in 1654 became the second president of Harvard College. In a brief speech Mr. Reid lauded Professor Chauncey's educational work in America.
