SATURDA

London, Ont., April 2.—Without a dissenting vote, and with considerable enthusiasm, the delegates assembled in the Masonic Temple today for the annual convention of the Ontario Independent Labor party, passed a resolution of sympathy with the Winnipeg labor men who are at present in jail in connection with the incidents arising out of the Winnipeg strike of last year. The resolution, which follows, was moved by James McArthur Conner and seconded by Peter Heenan, M.L.A. for Kenora:

"Resolved, that this convention of the Independent Labor party, after hearing G. Cascaden address us on the Winnipeg strike, go on record as expressing sympathy with the convicted men in their fight for constitutional liberty, and, in view of the appeal about to be made, we urge the minister of justice to release these men on bail in the meantime, without restricting their personal liberty, and that a copy of this be sent to the minister of justice af Ottawa and to the defence committee at Winnipeg."

Alleges a Spy System.

Prior to the adoption of this resolution, Gordon Cascaden was given some time to make a statement concerning the trial to the convention. He stated that during the last few years a spy system has been inaugurated in Canada.

"Inaccurate reports have been made,"

ads.

"Inaccurate reports have been made, and innocent remarks have been construed into seditious utterances," said Mr. Cascaden. "Detective spies have been operating to send innocent men to prison. If there are any spies present here, they can come forward and get a copy of this address, in which they will find the truth of the situation."

Blames Hon. A. Meighen.

The speaker referred to the "Hon. Artless Meighen" as the one responsible for having inaugurated the espionage system. Testimony he had heard at the trial in Winnipeg, he stated, was unfair and biased in many cases even when given by members of

cases, even when given by members of the Royal Canadian Mounted Police. Continuing, Mr. Cascaden stated that there are thousands of men lying that there are thousands of men lying in American prisons today as the result of the "terrific war which is being waged against labor in the United States." He said that he had been at the trial of the "Wichita victims" in Kansas some time before the Winnipeg trial was held, and he alleged that he had been set upon by two strange men on his return to his hotel after a session of the Kansas trial. His ankle was broken in the melee. He still uses a cane in walking.

Tribute was paid to Rev. William Ivens whose church "has grown so rapidly that there are now eleven

During his address Mr. Cascaden stated that "the Canadian Pacific railroad, the banking trust and the Canadian grain exchange did not want these men freed, rather the officials of these companies laugh with glee at the imprisonment of the labor

This statement so far as it refers to the Canadian Pacific railway, was questioned by one delegate who as-serted that he had had much rusiness with the officials of this road in con-nection with flabor questions and he had always found the officials to be willing to keep any agreement and to be fair in their dealings. sity of placing candidates in the field at the federal elections.

Make it Party Plank.

"Therefore, be it resolved, that this convention favor the following plank in the party plaiform:

"The gradual elimination of import duties on all necessaries of life, such as food, clothing (including boots and shoes) and the tools and machinery used in production, the revenue derived from these sources to be raised by direct taxation of land values and luxuries."

Chairman W. B. Rollo urged the meeting to "quit dreaming and get down to business" after one and one-half hours had been spent in discussion. "I take it that this party is trying to secure representation at Ottawa," said he. "It has been said that labor and farmer will control the federal government after the next Dominion elections.

Tariff Policy Needed.

"Now if we waut representation at Ottawa then we must adopt some policy with reference to the tariff. This is going to be the issue on which the fight will be waged, and I am sure that no labor candidate who comes out on a free trade platform can get elected in any constituency in Ontario at the federal elections. Come down to earth. There is no use floating around heaven considering some idealistic plan. If you want representation at Ottawa consider what is the best means of getting this."

INTIMIDATION IN EGYPT'S POLITICS

Those Favoring Independence Are Resorting Freely to

Cairo, March 16.—An attentive observer of the trend of Egyptian politics during the last year must have come to the conclusion that those who purpose to build a national independence are choosing as part of their foundation a remarkably unsuitable material in the form of a suitable material in the form of a live of intimidation. As has been management of the Canadian National Kansas some time before the Winnipeg trial was held, and he alleged that he had been set upon by two strange men on his return to his hotel after a session of the Kansas trial. His ankle was broken in the melee. He still uses a cane in walking.

"This occurred because I was trying to give the truths of the trial out to the public as I found them," said he.

Says Wall St. Took Action.

Mr. Cascaden further stated that R. A. Bonnar, K.C., counsel for the defence in the Winnipeg trial, said that Wall Street interests were responsible for the attempt to deport the labor men. Quoting Mr. Bonnar directly the speaker said "the Borden government was attempting to borrow" labor men was attempting to borrow | y connected with Egyptian life.

rectly the speaker said "the Borden government was attempting to borrow \$100,000,000 at the time of the strike. What, however, the prime movers will street, however, put its foot down and refused to make the loan until the strike could be settled. The deportation attempt was the result. Later it was understood that J. P. Morgan was in Ottawa in conference with Canadian officials."

In concluding his address the speaker asserted that labor men in prison will contest every riding in Winnipeg at the next election in that province if necessary. In fact one of these at present incarcerated has been nominated by the Dominion Labor party

resorted to, an instance of which is shown in the methods employed for deterring notables from giving evidence before the Milner commission. Thus, any well-known person receiving a member of that commission is aware that in all probability a delegation of lawyers and students will cross-examine him on the subject and have the interview published in a press almost entirely in Nationalist hands. In a country in which public opinion counts for so much, it is scarcely surprising that few natives care to risk such publicity, or that, if it cannot be avoided, they will see that the report shall be innocuous from a Nationalist standpoint as far as they are concerned, whether it be in accordance with the actual facts

have been evidenced in the recent bomb outrages on public ministers, not to mention the method of sending out anonymous threats of violence. Few temperaments can with-stand the strain of experiencing such methods, and certainly that of the average Egyptian is not included in the few. It is not surprising, then, that the policy of two ministers, the former premier, Mohamed Pasha Said, and the former minister of public works, Ismail Pasha Sirry. should have been affected by the re-

ods of taxation which will place the burden upon those who obtain "her burden upon those who obtain "her burden upon those who obtain "her burden upon the was also recommend that a capital lavy alou recommend that a capital lavy should be made."
