

REPORT OF TEMPORAL COMMITTEE.

To the Congregation of St. Andrew's Church, in annual general meeting assembled :

The Temporal Committee report,—

That the Treasurer's accounts for the year 1872-3 are presented herewith.

These, it will be seen, show a balance of \$682 63 borrowed, and \$176 31 of accounts owing; and, although the assets as shown are equal to the liabilities, they are not available at present; in fact, a considerable portion of them are only accrued, not due. From these it may be fairly estimated that about three hundred dollars will be realized in March; therefore, it is apparent that about \$550 more than usual will be required during this month from the revenue of 1873-4, if this account is to be placed in a proper condition.

The transfer of the Bazaar money from ordinary account to building account, to which it properly belongs, is the cause of this apparently unfavorable change in the exhibit of the former.

Your Committee have pleasure in reporting that the rule adopted at last meeting, to ask each pewholder of 1871-72 to pay to this fund, as usual, has been very generally complied with,—in several instances exceeded, and only in or two cases objected to, although there still remain a number who have not paid. In this connection, however, your Committee have to add that there are some families belonging to the congregation, hitherto borne on the revenue books, from whom nothing can be collected. For these, as well as for parties not able to pay, there should be sufficient free pews set apart in the new church.
