County Clerk's Office, Berlin, 25th May, 1869.

Extract from the Report of the Standing Committee on House of Industry and Refuge, presented and adopted by the County Council on the 21st day of Decr., 1869 :—

“ * * * Your Committee having before them the annual Report of the Inspector upon the Accounts, &c., of the House of Industry and Refuge, since the opening of the House, would recommend that the same be adopted ; and in this connection your Committee would beg to congratulate the Council upon the success of the Institution thus far, in having provided for the maintenance and support of the really deserving Poor of the County at a reasonable cost, and what is of almost equal importance, namely, in its having been the means of driving a number of idle vagrants outside the limits of our County in wholesome dread of being made to support themselves in the Institution.”
