## THE STAR "WRONG AGAIN"

The New Freeman Holds the Mirror Up to Its Contemporary.

SOMEWHAT DIFFERENT.

Saturday's Star says—"The New Freeman announces that A. O. Skinner will not be a candidate in the provincial by-election unless it is run on Dominion political lines. This is not the first time that Mr. Skinner has expressed his lack of confidence in the Twedd-Pugsley administration. He knows well that to run an election on the record of the government would mean certain defeat not only in St. John but in almost every constituency in the province."

What we really saw was that a question was asked of Mr. Skinner regarding the whole party, and not for a committee reached by the rank and file, the full Liberal party of the city called together to consider the question as to whether provincial politics should be run on Dominion lines. He is very properly a member of the party, and as such he has the right to be consulted by the rank and file, the full Liberal party of the city called together to consider the question as to whether provincial politics should be run on Dominion lines. He is very properly a member of the party, and as such he has the right to be consulted by the rank and file, the full Liberal party of the city called together to consider the question as to whether provincial politics should be run on Dominion lines.

## HOME DESTROYED

The House and Barn of Geo. A. Saunders Burned Yesterday.

The house and barn of George Andrew Saunders, who lives on the Grand Point road, about three miles from Robb's, were burned yesterday afternoon. The fire spread to the house, and though the firemen tried to save it, the house was soon consumed. Only a part of the furniture being saved.

Great sympathy is felt for Mr. Saunders, as he had no insurance, and had everything around him. He has a fine farm and was getting along very nicely when this disaster overtook him. One of his sons graduated at business college and is in the employ of W. F. Thomas.

## FOR WINTER BOARDERS

Now that those who have been living in the country for the summer are returning to the city for the winter many persons and some families who board are thinking of a desirable home in a desirable location.

The New Victoria Hotel, on Prince William street, is each winter the headquarters of quite a number of such boarders, including small families, who find in this excellent hotel all the home comforts at moderate cost.

The New Victoria is not only well heated, with warm and well furnished rooms, but has table service of the best, and every care taken to ensure the comfort and convenience of its guests. It is on the street car line, close to the business center of the city, overlooking the harbor, the outlook being exceptionally fine.

The New Victoria has many boarders who have been its guests for years, which is the best evidence of the excellence of its accommodation, service and location.

Persons desiring quarters for the winter will do well to consult the management of this hotel.

## NOT BOOK AGENTS

While other schools are engaged in selling text-books on short-hand and long-hand, some "old" or "new" or so-called "easily acquired" short-hand system, the management of The Currier Business University, Limited, very wisely avoided such tactics. This institution engaged the services of expert court stenographers and had a system of shorthand compiled at a cost of nearly one thousand dollars, which is imparted to the pupil the "technique" of the profession; or, to put it plainly, the "tricks of the expert" for the accomplishment of a large mass of work. This class of training cannot be obtained through text-book teaching, nor can it be acquired in any other school in this vicinity; hence the reason why this school guarantees a position to every graduate.

## MORE DIPHTHERIA

Two More Cases Reported to the Board of Health Today.

Two more cases of diphtheria have been reported to the board of health, one on Germain street, and the second on British street. The board of health authorities are seeing to it that the infected houses are being fumigated, and the doctors are using antitoxine in the treatment of patients. Everything possible is being done to prevent the spread of the disease.

There are various rumors as regards the cause of its outbreak, one of them being that a child from an infected house had associated with other children, the disease being spread by contact. The accuracy of the statement has not yet been ascertained.

It is, perhaps, worthy of note that the disease has not in all cases been confined to the dirtiest parts of the city, a fact which seems to indicate that cleanliness is not always a preventive.

## THE NEW FREEMAN

Talks of Grocers and Mr. Purdy and Has a Sly Dig at Mr. Lantlumm.

Onlooker, in the New Freeman, makes these observations on the appointment of Mr. Molitka as factory inspector: "It is said that five of the disappointed applicants for the position of factory inspector are starting grocery stores in the North."

"This is not the first occasion that Mr. Purdy has been mentioned in connection with the position of factory inspector. He has been mentioned in connection with the position of factory inspector, and it is not surprising that he should be mentioned in connection with the position of factory inspector."

Mr. Purdy is a well known figure in the city, and it is not surprising that he should be mentioned in connection with the position of factory inspector. ## NEW NORTH END BANK

The Royal Bank has decided to open a north end branch in the Harrison Building, that used to be the post office on Main street. This bank has adopted a more progressive policy in St. John, and its branch in the north end will no doubt prove a great convenience to the citizens there. It will be opened as soon as the office can be properly fitted up.

Under T. B. Blair's management the Royal Bank is growing in popularity with the business community.

In connection with the suspension of Policeman Bowes, it is rumored that an investigation is to be held, and that a local M. P. P. has taken a hand in the game in the interests of that officer, who claims that he should be given a hearing, and that he has something interesting to say.

## THAT ST. MARTINS CAR

A Misunderstanding in Which the Times Was Misled.

The Times on Thursday contained the following item:—

"An unusual incident happened at the depot recently. A passenger car was held from making a trip up the line by the customs officials in the station, because the owners had neglected to pay the duty on it. The car in question was purchased by the Hampton and St. Martins railway from the Boston and Albany railway and was in the city for three or four days before the customs officer was aware that the formality of paying the duty had not been gone through. He got busy then and the result was the car did not go to St. Martins on that day. The management, however, paid the necessary amount of the 'cost of the train,' before next day and procured a release so that only one trip was missed. The car is now running regularly."

The St. Martins Railway Company take exception to this article and state that there was no difficulty regarding the duty on this car. They further state, and it is confirmed by the customs house authority, that the latter knew the car was not paid up by order of the collector, but by the officer in the ordinary course of this duty. It was not until the collector of the company to provide the money, but to a misunderstanding, in the course of which the Times was misled.
