Chester Arbo, charged with breaking and entering a car at Fredericton Junction and stealing shoes, was remanded on September 28, appeared this morning before Magistrate Smith at Fredericton Junction. The value of the shoes was \$12.20. He was remanded.

NOT THE NEXT YEAR.

It is not expected that the first sitting of the new municipal council, which was elected last week, will take place until some time in January, so J. King Kelley, the county secretary, said today. At that time a warrant will be issued and the council will be elected and organized.

NEXT WEDNESDAY.

An investigation into a charge that evidence was withheld by the police in the recent trial of Edward O'Brien will be commenced on Wednesday evening in the committee rooms in city hall. John Thornton, commissioner of public safety, will preside, and Dr. J. Roy Campbell, acting city solicitor, will be in attendance. The testimony of eight or nine witnesses will be taken under oath, and it is expected that the probe will be completed in one sitting.

A FINE CRAFT.

A recent fine addition to the fleet of the Royal Kennebecasis Yacht Club is the yacht Nile, which was built this season at Harborsville, N. S., for A. Rowan of this city, and which is now at the club waters at Millidgeville. The Nile was constructed by Captain Morris, a retired sea captain, and is said to be the largest single masted boat that has ever been in the club. She is fifty feet in length with a very spacious cabin, elegantly appointed. She can carry a particularly large spread of canvas in a brisk breeze and is expected to make a good showing next year. Already three trial trips have been made and the new boat has been the subject of much favorable comment among the members of the club.

HERE ON HONEYMOON.

Mr. and Mrs. George O'Pray who recently arrived in the city from Montreal on a honeymoon trip, will leave for Boston and New York next Monday. Their wedding took place in St. Anthony's Church, on October 18. Monsignor Donnelly officiating. The bride, who was Miss Mary Broderick, was costumed in crepe de chene with an overdress of Georgeanne with wide sleeves, a white-velvet hat and carried a bouquet of shell pink roses. She was attended by her sister, Miss Broderick, who wore a becoming costume of brown georgette with beaded trimmings and hat to match. The groom was supported by James P. Fitzpatrick. At the conclusion of their honeymoon trip Mr. and Mrs. O'Pray will reside in Montreal.

CHARTER REPORT.

The State Marine and Commercial Bulletin for the week says that the full cargo steamer market continued extremely light and the demand for tonnage was extremely slow, and confined almost exclusively to the transatlantic grain trade. There were occasional orders for time charter boats for short periods and for carriers for coal and other cargoes, but the combined demand was far below normal, and only a limited amount of chartering resulted. The rates were favorable to charterers as ample tonnage offered and in a few cases slight declines were noted. In sailing tonnage the market was quiet and no improvement was noticeable in any of the various trades. A limited demand prevailed for coastwise carriers for lumber, coal and other cargo, but there was little inquiry for off shore trading. The rates continue low in all trades and the supply of vessels is sufficient for all requirements.

LEE'S BRICKYARD IS TAKEN OVER

Stephen Construction Co. the New Owners—Means Employment and Aid to Building.

The Lee brickyard situated at East St. John, comprising of about twenty-five acres with buildings, machinery and all equipment, has been taken over by the Stephens Construction Company. Announcement was made this morning. The deal also includes the clay bank, which is known throughout Eastern Canada, as the best quality of clay suitable for brick making.

The company's intention is to install thoroughly up-to-date machinery. Mr. Stephens will leave next week for Upper Canada to inspect various plants in operation. The excavator used so successfully in Douglas Avenue, will be utilized to dig the clay bank. It is the company's intention to get the clay and sand ready, so as to give employment to a number of men during the winter months. Machinery will be installed and plant ready for operation at the opening of the brick making season in the spring. At present Pugwash is the nearest brick plant to St. John. The re-opening of the Lee yards should mean much for building work in St. John.

To Resume Work.
The Canada Nail and Wire Co. in West St. John, which has been shut down for the last four months, started today to prepare for recommencing operations immediately, and it is expected that before long the mill will be in full operation.
