POWER AGREEMENT

Disarmament Treaty Expected
This Week Between
Five Great Naval Powers—
The Chinese Tangle.

Washington, Jan. 9.—(By Canadian Press)—If the armament conference brings about a treaty among the five great naval powers for the limitation of armaments—and such a treaty will undoubtedly be forthcoming this week—there will be a quick winding up and an adjournment. The questions of the Far East cannot be detailed or specified attention. General statements like the Root resolutions, will define the position of the powers toward China but the various abuses of which the Chinese complain can only be remedied by the peace conference represent the Peking government which is the defacto government recognized by the powers but there are other governments just as powerful and a condition of civil war rages. Some of the provincial governments are only nominally subject to the government at Peking.

KINNAIRD CASTLE
Kinnaird Castle, the Earl of Southesk's beautiful chateau like Scottish seat, which has been destroyed by fire, has had a chequered career. It was rebuilt in 1547, and the fifth Earl (the title was created in 1683), forfeited his estates for his share in the rebellion of 1715. The York Building Company bought the whole estate for £21,000, but the property was bought back for £36,000 by Sir James Carnegie, of Pittarow, T. here Sir James Carnegie was restored to the Earldom by reversal of the Act of Attainder.

EAST ST. JOHN
WANTS TO BECOME
PART OF CITY

Letter Received by City Council, Asking Terms of Amalgamation.

Tenders Opened for Lumber and for a Steam Drill—Schedule of Wages Received from Public Service Employees' Union—No Increases Asked.

Tenders for lumber for West Side and for a steam drill for the public works department were opened at the committee meeting of the common council this morning. The schedule of wages for the coming year was presented by the Public Service Employees' Union and received consideration by the council. A letter was received from ratepayers of East St. John asking on what terms that village would be admitted to the city. Mayor Schofield presided and all the commissioners were present.

In the schedule of wages received from the Public Service Employees' Union there was practically no change in the rates asked from those of last year. The price of general labor remains at \$3.50 a day of nine hours. The higher wages asked for asphalt construction workers of \$3.75 to \$3 a day of nine hours and \$4.83 a day of eight hours for carpenters, a list showing increases made in 1919.

It was moved and carried that the departments affected make a list of wages now paid.

East St. John Matters.
A letter was read on what terms and conditions that village could be amalgamated with the city. It asked that for five years from date of amalgamation. If amalgamation is effected, it would be installed at once, also lights and other services. The letter was signed by W. F. B. Dunlop, J. E. Quinn, Alex. Magee and J. W. Flewelling, and was ordered laid on the table.

A communication was received from D. J. Purdy in regard to extending his wharf twenty-five feet into the Indian harbor. A general reduction of ten per cent. has already gone into effect at the John Palmer Company plant.

Tenders for the supplying of fifty pieces of common Douglas fir 12 x 12 inches, for use in repairs, were opened and were as follows: Union Lumber Company, \$57.75 per thousand; J. E. Quinn, \$62.90; western hemlock \$52; R. H. Williamson, \$35 pieces of spruce, \$33.00 per thousand; J. E. Quinn, \$32.00; immediate delivery, \$62.20 months from date, \$54.15; J. S. Gregory, twenty per cent. advance, \$54.75; J. E. Quinn, \$54.75. The tenders were referred to the commissioner of harbors and fisheries.

The tenders were referred to the engineer for a report.

Mr. Frink read a report on the breaking of a plate glass window at 110-112 Prince Edward street, which had been put in by T. B. and H. B. Robinson, insurance agents, as it was alleged that the window had been broken by a city workman. Mr. Frink read the opinion of the city collector. He read an affidavit by John P. O'Brien, which said that a stone from the pick of a city workman had done the damage. It was decided that Messrs. T. B. and H. B. Robinson be notified that the city had been advised the claim should not be paid.

Mr. Frink said that a meeting of the finance committee of the municipal council had been called for Wednesday and that the estimates would have to be passed through the council on January 17. He thought that the councillors were being rushed to round down before those of the county, he declared. He wanted more information before voting on the estimates.

The mayor said that some of the city estimates would be passed by January 17. If it had not been for the unemployment situation, they would not have had to spend much money till the tax list was made out again.

The mayor said that the city had \$109,679 in the bank on December 31, after paying all bills. He said that he would ask the council to consider the unpaid tax list in the near future. He also said that he expected to get much of the hydro electric matter cleaned up by Wednesday. Among other matters to be considered by the council soon would be the overhauled bridge at the falls.

Mr. Frink suggested that the stone crusher be started to help all in the Newman brook before the snow department.

Jacobson, who led the league in batting in the 1920 season with an average of .468, dropped last season to .340, being tied for eleventh place with Fred Meikel, the former first baseman of the New York Giants, now with the Rochester Club. In 1921 games he was at bat 622 times and scored 117 runs, made 218 hits for a total of 317 bases. He smashed out twelve homers and made 19 sacrifice hits. His stolen bases numbered 6 to 9.

JOSEPHINE MARTINO
AND ASSISTING ARTISTS
The glorious voice of Josephine Martino is rapidly bringing to fulfillment the promise of a brilliant career before her. It early attracted attention from no less a personage than Enrico Caruso.

Mrs. Martino sang before Caruso, Gatti-Casazza, and Alex. Lambert, in three of New York's most prominent musical figures. All predicted a wonderful career for this young singer, and the great tenor did more than praise her. He coached her on several of the operatic numbers she is using on her present tour.

While President Mr. Willson complimented her, the Edison people arranged for her to be one of their advertised re-creation artists.

Mrs. Martino's voice is one of intrinsic sweetness and beauty, a voice of remarkable range and power—truly a voice that lingers in the memory of her hearers. She has a remarkable technique and sings at all times with delightful ease and confidence.

Armando Lenzi, as violinist, will be an accompanying artist for Miss Martino. A young man, Italian, with musical training first under Di Natori, then under Fumara, and of recent years under Carmine Rabbiosi, all well known masters.

Miss Florence Jane Strat, accompanist and piano soloist, has attracted splendid comment in the musical field, typical of which is the following from a review of a recital at Columbus, Ohio:—"The work of Miss Strat, the assisting artist, was of a high order. She has an artistic understanding of her music which, combined with a lightness of touch and excellent phrasing, charmed her audience."

In recital on Jan. 29th at Pithburgh, Canada, Union street. Seats now on sale, Photograph Salon, Ltd., 19 King St., Price \$1. 1—10
