IS WANAMAKER'S
ADVICE IN STATES
Dominion the Country of the Future
is View of Famous Merchant
and he Points Way Here to
Youth Across Border

(New York American)

John Wanamaker returned home yesterday aboard the steamship Oceanic after a three months' tour in Europe. He attended the coronation ceremonies at the guest of T. Vesey Strong, Lord Mayor of London, who presented him to King George V. The king then presented Mr. Wanamaker to Queen Mary.

"Both their majesties are delightful persons," Mr. Wanamaker said yesterday. "He was struck with the king's virility, strength and splendid common sense."

"Queen Mary," added Mr. Wanamaker, "is a superior woman, who impresses you with her womanhood and her splendid poise and capacity to act as helpmeet to the king."

Mr. Wanamaker said he was much gratified at President Taft's attitude in the peace movement and the sincerity of his intention to continue the advocacy of universal peace until it is considered by other nations.

"The Lord Mayor engineered the great Guildhall meeting, at which Premier Asquith, Lord Balfour, the Archbishop of Canterbury and others took such a decided stand in favor of arbitration."

Regarding reciprocity, Mr. Wanamaker said the English people seemed to favor the idea in the abstract, but that they had many differences of opinion as to the articles of agreement. Mr. Wanamaker said a pamphlet on Canada in his hand, and pointing to it, said:

"Canada is a great country. It is a fine field for Americans. There is no longer any need for our young men to go west. They should go north and settle in the country of the future."

White enamel furniture may be cleaned with a sponge and some soapy water. If there are stains here and there, rub with a sponge dipped in fine oatmeal.

"NA-DRU-CO" Headache Water
NATIONAL DRUG AND CHEMICAL CO. BY CANADA LIMITED, MONTREAL, 27**ONTARIO HAY CROP IS BADLY DAMAGED****Unprecedented Heat After Long Drought Has Done Much Harm—Fruits Suffer, Too**

(Financial Post of Canada)

The past few days have witnessed the serious damage of Ontario hay crop and an almost complete destruction of her small fruits. The unprecedented heat of the early part of the week, following the prolonged drought of the past six weeks, has done incalculable damage. That part of the province lying roughly between Lake Simcoe and Lakes Erie and Ontario, and extending from Toronto to Detroit has, except in isolated portions, suffered severely. The hay is short and thin and the straw of the grain is short. The straw, however, is not so short as it was last week, and the balance of the small fruits are not likely to survive the terrible scorching which they have received. It will be most fortunate if the larger fruits are not severely damaged. In this way ends a most promising spring.

The Hay Crop

For the country at large the loss of the hay crop is a most serious matter. Last year Ontario produced 800,000 tons of hay, an amount equal to about three-quarters of the wealth produced by wheat in the three grain provinces. So even a partial failure of the hay crop is a heavy direct financial loss. More than this, however, it makes it a most expensive matter to fatten animals for food, and its effect on raising the cost of living is not by any means confined to the hay crop alone. The price of meat, milk, butter, cheese, etc., are likely to advance. To this must be added the loss of the hay crop in the States. For instance, during the past month, it is reported that 41 cars of hay have been shipped from here to Philadelphia alone, where it was sold to net \$22 to \$23 a ton. The shortage of the grain straw will but add to the demand for hay, with the result that many farmers and others will be hard hit this winter.

On the other hand, the parts of Ontario east of Toronto and most of Quebec and the many parts of the west where the hay crop is good, will profit greatly by the damage, which will to some extent at least offset the loss in the affected districts. Quebec has for some years been unable to utilize or dispose of its whole hay crop, and as last year, for example, it produced 5,500,000 tons, worth, at last year's figures, some \$51,100,000 it should be a considerable source of profit.

The West

The heavy rains of the last fortnight have practically insured a bountiful harvest in the west. Moisture has been abundant and general. For example, in Alberta, where much—although a few days ago a severe storm swept over the district surrounding the city of Edmonton, did much damage to the fall wheat. The spring wheat is as yet insufficiently matured to be seriously damaged. From too, has been experienced in isolated parts of the north.

TOO MANY CANADIAN MERGERS

(New York Letter in Financial Post)

The latest critics of finance do not like the Canadian situation, in one respect. There are too many mergers in the air. We all remember the years from 1890 to 1900, when we had the maddest mania for a merger. It was a poor week we did not bring forth some kind of a merger in bread, bath tubs, railroads, sugar, cement, tin cans, paint, breakfast foods or something else. It was merry while it lasted, but gave us a lot of grief and indignation that was really not fairly cured by the slump of 1904, when 46 of these mergers either failed, went out of business, passed dividends or called for help in some other way, and which is not at all together cured even yet although a panic has intervened since then.

Naturally, watching the merry goings-on of Canadian finance, making its way over night along the very same lines, we feel a certain hesitation about the matter. Certainly the financial interests of New York are not going to acquire any very ardent hunger for Canadian securities. The industrial classes under the present circumstances. They are going to back a while. Everybody knows the possibilities of industry and enterprise on the other side of the line, but this market is not, as a rule, inclined to back all the day dreams of capital in an expanding country. We are inclined to figure the time to buy into industrial is not the time when industrial balloons are on the rise.

Daily Hints For the Cook

PRALINE COCAONUT.

Take a fresh coconut break it open and grate it. Take a cup and a half of white sugar, put it in a clean saucepan to melt and cook until it candies; then add the coconut, let it cook a minute, turning all the time. Put it in a pan on a large china platter or piece of marble to cool.

CREAM WAFFLES.

One cup flour, three heaping tablespoons cornstarch, two cups sour cream, one scant teaspoon soda, one teaspoon salt, one egg. Beat egg, then add cream into which soda has been previously beaten, then the flour, previously sifted, with salt and cornstarch. Bake in hot waffle iron and eat with butter and maple syrup.

HAD LIGHT REFRESHMENT

An old non-State darkey was sent to the hospital in Charlotte for treatment. Upon his arrival he was placed in the ward, and one of the nurses put a thermometer in his mouth to take his temperature, and when the doctor made the rounds he said to him:

"Well, my man, how do you feel?"

"I feel right to-day, sah."

"Have you had anything to eat?"

"Yessah."

"What did you have?"

"A lady done gimme a piece of glass to eat."

NOT SUPERSTITIOUS
(Philadelphia Record)

"Are you superstitious?" asked the bachelor.

"Well," replied the father of a large family, wearily, "I certainly think it's unlucky to have thirteen children."

All our yarns are full weight, 15 oz. to the lb.

YARN DEPARTMENT**THE LADIES' HOME JOURNAL PATTERNS**
In Pattern Department**MANCHESTER ROBERTSON ALLISON, LTD.****GIBSON PROPERTY IS SOLD FOR MILLION DOLLARS**
TO FARNWORTH & JARDINE

Fredericton, July 15.—The most extensively advertised equity sale ever known in New Brunswick took place before Auctioneer C. I. Atherton today and resulted in the Alexander Gibson Estate & Manufacturing Company's lumber property being sold to Farnworth & Jardine, the Liverpool lumber dealers, on a bid of \$1,000,000. Four promises were filed against the sale on behalf of members of the Gibson family.

The only bidder at the sale was Laurence MacLaren, of the firm of Farnworth & Jardine, Liverpool, England, the bid being made on behalf of David Jardine, who held an interest in the property by mortgage. A check for \$100,000 was posted with the officials in charge of the sale and it is believed the property will soon be turned over to the new owners.

The property in question is situated in the north of the province, and is being organized with a capital of \$5,000,000 to take over the property.

The incorporation of the new company are Lieut.-Colonel H. H. McLean, M. P.; Laurence MacLaren, J. S. MacLaren, Alfred Rowley and Fred. R. Taylor.

Senator Jones, of Bangor (Me.), was present at the sale. He has organized a pulp and paper proposition. The syndicate who offered \$1,000,000 for the property for the purpose of conducting a pulp and paper proposition. The syndicate who offered \$1,000,000 for the property for the purpose of conducting a pulp and paper proposition.

Percey A. Guthrie, on behalf of Mrs. Chisholm and Mrs. A. P. Crockett, protested against the sale and read a description of the property which he objected to having sold.

Another protest, on behalf of Gilbert Henry, of Gibson, who claimed title through John F. Miles to certain property, was made, and a description of the property was read.

"Ooping" The Baby

At the first sign of an attempt to stand arduous and sterile the babies, says Ellen Parker Butler, writing in "Success Magazine," I organized the "Fond Fathers Oop-de-baby Association of America." For thousands of years fathers have been permitted to oop-de-baby unrestrained, and this right was one of the first rights to be taken away from the father. I considered it a double blow, at the baby and at the father, and resented it as such. If a father may not oop his own baby, what is the world coming to? Ooping the baby is a father's greatest pleasure. It is the act of grasping the baby under the arms, tossing the baby into the air and catching it on its down trip, while the words "Oop-de-baby!" are repeated at each toss. This is repeated until the baby is tired or drops to the floor by accident. It is then handed to its mother.

GIC IT TO HIM

Merchant-It seems to me that you ask high wages considering that you have had no experience in this business.

Clerk—Ah, but you forget that that's just what makes it all the harder for me—My experience is that I have had no experience in this business.

WHITEWEAR DEPT.

THE WORK OF IMPROVEMENT TO BE DONE AT FORT HOWE

Sneers of Some Local Papers Are Commented on Effectively by Hon. Mr. Pugsley

Hon. William Pugsley, minister of public works, arrived in the city yesterday from Ottawa and went to Robbsey to spend the day with his family. When he returned to the city he was asked by the Telegraph regarding the beautifying of Fort Howe as referred to in Saturday's issue of the Telegraph, he said that the question of enlarging the site of the Quebec Battlefields Commission as to give it charge of the old forts in various parts of Canada and their restoration and care, was under consideration, and he, having recently visited Fort Howe in company with T. H. Estabrooke, president of the board of trade, was greatly impressed with the view of the city the harbor and surrounding country from the summit, and the possibilities of making it a splendid resort if properly improved by the planting of trees and the making of suitable approaches. In order that he might have a proper report to submit to the council at Ottawa, he had asked Sir Frederick Borden, the minister of militia, to send an engineer from his department to visit the property and make a report as to the best method of improving the fort, and the probable cost.

The minister said he was surprised to see in the Globe and Standard articles seeking to ridicule the proposal. That one of the things which militated most against St. John. Some newspapers for party purposes were always seeking to ridicule any proposal for improving the facilities for business or beautifying the city. "St. John cannot raise bananas," Dr. Pugsley said, "but nevertheless we have the best climate in the world, a city splendidly situated and presenting opportunities for making it beautiful. Fort Howe will be beautified and made a magnificent park in spite of the Globe and Standard."

AN EQUAL CHANCE

One of the features of the Canadian Government Annuities system which highly recommends itself to every person is that a man who is middle aged enjoys equal advantages with the man who starts at a younger age for he may, by the payment of a lump sum equivalent to the total amount which he would have paid had he entered at the earlier age, go on from his present age at the same rate as if he had begun at an earlier age. For example, a man of forty who has decided to purchase an annuity of \$800 pays in \$1,000, which is the equivalent of what he would have paid during the years from twenty to forty. He will now continue to pay \$80.00 each year until he is sixty, instead of \$167.10, which is the rate which a man entering at forty would have to pay for an annuity of \$800 to begin at sixty. A school teacher who has just cashed in a twenty year endowment policy has made the application of this amount on a \$500 annuity contract, a most provident disposition of a portion of his money. If he dies before he is sixty, the total amount which he pays up to the time of his death with three per cent compound interest will be returned to his legal representatives. A supply of interesting literature concerning the annuities scheme may be had on application to the Superintendent of Government Annuities, Ottawa, to whom letters go free of postage.

WHERE HE GETS HIS JOKES

"Isn't he original and funny?"

Very, if you haven't seen the same show he has."

QUEENS COUNTY MAN FOR THE MACDONALD COLLEGE

(Farmers' Advocate)

E. M. Straight, B. S. A., has been appointed assistant in horticulture at Macdonald College, to fill the position vacated through the resignation of J. F. Monroe, who has gone to South Carolina, being engaged as agricultural agent of the Southern Railway Co. with headquarters at Columbia, S. C.

Mr. Straight was born at Cambridge, Queens Co., N. B., where his father carried on a truck-gardening business, producing the earliest truck crops supplied to the St. John, N. B., market. He taught school for five years in his native town, and then came to the city, where his father, assisting him in his truck-gardening operations.

The call of the farm being too strong, he left teaching, and engaged for a number of years in intensive market-gardening at Cambridge. He was the first in this section to erect a greenhouse for the development of plants for early market crops. This start has resulted in the erection of many similar houses for this purpose by others in this and adjoining sections.

He branched away from the activities of the farm, and took two years at the Nova Scotia Agricultural College, Truro, N. S., securing a diploma from that institution. He followed this with one year at the Ontario Agricultural College, and the following year at Macdonald College, graduating from that institution in the spring of 1911.

ANNIVERSARY OF NOTED PRIEST'S BIRTH

Reverend Father Morrice, Born in Halifax, Seventy Years Ago Yesterday

Halifax, July 16.—Today is the seventieth anniversary of the birth in this city of William, afterward Reverend Father Morrice, formerly remembered throughout the Maritime Provinces and known across the continent for his remarkable cures.

There have probably been few priests better known throughout the Dominion than Reverend Father Morrice. Through his medical skill he enjoyed a wonderful reputation from coast to coast and during his thirty years' pastorate, at Berthouge, N. B., his services were at the disposal of all those who needed his help. From far and wide thousands came to him, or wrote for his advice and his name and fame spread far beyond the bounds of his own parish.

His good work, however, did not stop with his laudable death on March 30th, 1908, for his best known prescriptions then passed into the possession of the Reverend Sisters of the Hotel Dieu, at Chatham, N. B. These prescriptions are now made up and placed on sale throughout the whole Dominion, so that in even fuller measure than during his lifetime, his good work for the sick and suffering goes right on.

SOLDIERS' HOME.

A special military train with the 120 men of the three local batteries of the 3rd Regiment, C. A., accompanied by the subalterns of each battery who have spent a week at their annual training at Petawawa, arrived in the city last evening at 7.15 o'clock and the men rapidly dispersed to their homes.

Major Barker was in command of the regiment at Petawawa and remained over in Montreal. Capt. McKee was in command during the journey home.

ECZEMA IS CURABLE

In Every Case Where My Remedy Fails It is Supplied Free of All Cost

In making this statement I back it up with my promise that if my remedy does not subvert my claim in every particular, I will, without question or quibble, return every cent you paid me for it. I take all the risk—your none.

I strongly recommend Rosall Eczema Ointment, which possesses remarkable cleansing, antiseptic, germicidal, soothing and healing qualities. It is a powerful emollient, with a pleasant odor, and very cleanly for use. Its first application produces a refreshing sense of relief, and it quickly enables another comes the inflammation, irritation and discharge when present.

It is intended to be applied with a piece of muslin or linen, or it may be applied directly with the finger. It is ideal for the treatment of children who are tormented with itching, burning and disfiguring skin diseases. Dry a box at my retail store, 225 Germain street, or write to me for a box at my retail store, 225 Germain street. Remember, it is only sold at my store—The Rosall store, Chas. R. Watson, 225 Germain street.

OBITUARY

James Costley

The many friends of James Costley, of South Bay, will regret to learn of his death, which occurred at his home there on Saturday, July 15. He was unmarried and had not been in good health for the last six years. He was 65 years old and had been in the employ of the C. P. R. for the last fifteen years. He is survived by his father, Michael Costley, of South Bay; one sister, Mrs. Edward Kitchen, also of South Bay, and three brothers, Thomas, in the employ of the Maine Central railway; John and George, in the employ of the C. P. R. The funeral will take place at his home this afternoon at 2.30 o'clock.

Mrs. Edward McGee

Many in the city and especially in the west side were grieved to learn of the death of Mrs. Ellen A., wife of Edward McGee, which occurred on Saturday morning at her home, 225 Germain street. She had been ill for seven weeks. Mrs. McGee was in her 71st year and in her long life had won the respect and love of her neighbors for she was a woman of kindly, charitable ways, ever ready to lend a helping hand in time of distress. Besides her husband, she is survived by four children—George W. and Edward, Mrs. P. Burns, of West End, and Mrs. Michael Walsh, of Amherst. They will have the sympathy of many in their loss.

James Moores

James Moores, aged 70 years, died last night in Woodstock. He leaves three sons—H. V. and Fred L. of Woodstock, and Alfred Moores of Vancouver.

Douglas Nichols

Douglas Nichols, a pensioner from the Intercolonial service, died in Albert yesterday. He leaves a daughter, Miss Helena C. Nichols, of Hopewell Hill.

A handful of salt rubbed well into the kitchen table after it has been scrubbed will help to whiten the boards.
