PRIZE WINNERS AT SEASIDE

It was a Great Time on Saturday for the Orphans.

Due to the generosity of interested citizens, the orphans of St. John enjoyed a wonderful day at Seaside Park on Saturday. The following institutions were represented: Silver Falls, St. Vincent's Convent, Provincial Home for Children, Protestant Orphanage, Protestant Orphan's Home and Children's Aid. The children were taken to and returned from the park in automobiles. A troupe of kiddies under the direction of Mrs. Jack Hoadley, gave a tabloid musical revue, after which a two-hour programme of singing, dancing and juggling was given. C. Cromwell entertained the children with bagpipe selections during the afternoon.

The orphans received 106 pounds of candy in fancy boxes, twelve gallons of ice-cream, four bunches of bananas, a cake and peanuts galore. Three hundred and fifty boxes containing toys, shoes, ties, ribbons and blouses were placed in the festoon and each child was allowed to fish.

The results of the races, with the prizes won, were as follows: Boys, eight to ten, first, Herbie Mullin, St. Patrick's, blouse; second, George Mullin, Britain street, hat; Girls, eight to ten, first, Evangeline Sapier, St. Vincent's, doll; second, Alice Donovan, Britain street, hat; Girls, ten to twelve, first, Gertrude Ewing, West Side, sweater; second, Mary McMahon, St. Vincent's, hat; Boys, ten to twelve, first, Harvey Crossman, West Side, cap; second, Kenneth Donnelly, Britain street, knife; Boys, eight and under, first, Woodrow Zakie, Britain street; second, Charlie Clarkson, Britain street; Girls, eight and under, first, Madeline Touner, St. Vincent's, cloth coat; second, Mary Hogan, St. Vincent's, hat; Boys, four and under, first, Nicky Hart, blouse; second, Hal Woods, hat; Girls, four and under, first, Helen Donovan, Britain street, blouse; second, Russell Ward and Templeton, St. Vincent's, doll; Boys, six to eight, first, George Campbell, West Side, blouse; second, Russell Ward and Eddie Wood, Children's Aid, knife; Girls, six to eight, first, Winnifred Bettison, West Side, blouse; second, Rosetta Zalis, St. Vincent's, hat; Boys, twelve and over, first, Walter Appleton, Britain street, rubber coat; second, Gordon Steves, Silver Falls, blouse; Girls, twelve and over, first, Gertrude Appleton, Britain street, gold bracelet; second, Alice Armstrong, Britain street, boots.

PORT SITUATION

Need for Development of the Grain Conveyor Equipment—Congestion at Montreal.

The Board of Trade has been making enquiries into the port situation at Montreal, with a view to considering its bearing upon the port of St. John. The suggestion has been made that the congested situation at Montreal might be relieved by the utilization of pier space for a portion of the traffic and by the extension of the grain conveyor equipment here. All six of the city piers on the West Side are provided with grain conveyors, but piers 14 and 16 of the government piers have no conveyors.

It has been learned from the head office of the C. P. R. that the steamers at Montreal must discharge their wheat bound cargo at that port, where 80 per cent of the same is consigned, the balance being for points west. As the liners are refusing to call at Quebec for out-bound wheat, it is not considered likely that they will want to berth at St. John. The congestion at Montreal is reported to be temporary, due to low water at certain berths.

Other advice received show that the Montreal situation is serious. The Montreal Shipping Register says that the extra berths for tramp steamers and of having the grain conveyor system extended is badly in need of the present amount of grain that has been shipped from Montreal.

A despatch from Winnipeg says the grain shippers there are growing weary over the enormous movement of American grain through Canadian Atlantic ports. This statistic further says that Montreal elevators are all full with American grain and there are 3,000 cars of wheat waiting to unload.

The situation is one that indicates the pressing need for increased utilization and development of the grain conveyor equipment of this port. It might be worth stating here that in September of last year the inadequacy of the present grain loading facilities at St. John was pointed out to the authorities at Ottawa, through Mr. Wigmore, and the suggestion was then made that the grain conveyor at No. 6 berth be extended to government berth No. 7. No action was taken by the government on this suggestion, but it was said today that it should be attended to at once, as it could be made available for use this winter, while it might take a longer time to provide conveyors at the other government berths.
