BUSINESS MOTICE.

## Miramichi Advance.

CHATHAM. . . . . . . MAY 8, 1879. New Brunswick and the Tariff

views, as we do, however, and being desireus, to carry them out, we are still unable to refrain from pointing out the great—the exceeding injustice, which them as, Ferguson \$443.20, Davidson our Province will suffer under the operation of the new tariff. We have, Ferguson's amount by \$69.51 and Mr. ust at our material welfare has been

the Tory papers throughout the country '78 at \$179.13, but he very conveniently making a total expenditure of \$5,723 in every person connected with these against the tariff are to be published as a something which was to give proforgot to add \$180.94 due to him at the
sperity and plenty to every section and
close of that fiscal year, and which was
total amount expended in the Province.

They form a capital, political part of the Dominion. All interests paid to him by check on the Bank of Montreal Chatham taken that no undue burdens were to 1878. His account was, therefore, tually carried out in the County, and after its introduction all was to go amount he stated it was. We refer to very reverse of this, however, was true. after its introduction all was to go amount he stated it was. We refer to very reverse of this, however, was true.

Annoying regulations, restrictions and and that Mr. Venning only attempts to this matter only to indicate the extent Annoying regulations, restrictions and and that Mr. Venning only attempts to New Tariff will leave the Macdonald do we find the programme carried out to which Mr. Young and his majority at with regard to New Brunswick? What the Board, would go in misrepresenting facts in order to bolster up their indefacts in order to bolste where do we find markets for them? fensible proceedings. We regret, for in the minds of the people that the in-Taking the latest returns we find that Mr. Young's own sake, that he has althe total exports, the produce of the lowed himself to so abuse the power the fisherman than to protect the fish.

Province, amount to \$5,132,912. Of placed in his hands as to render it Gaspereaux, of which large quantities this amount fish shipped to the United necessary that the Board should be had been taken, and which still fre-States represents \$603,536 and lumber swept away entirely and the managecally 2877,048 of our total exports to hands, but private interests ought albe distributed over the rest of the ways to give way to public ones. Mr. ing had been prohibited without sufficient and the distributed over the rest of the ways to give way to public ones. Mr. ing had been prohibited without sufficients and the proper work. As an ing had been prohibited without sufficient and the proper work. world. How is protection to benefit us Young, only a few months ago, with cient discrimination.

and these foreign markets, upon the public interest. which we have to depend so largely for the sale of our products and we natu ally turn to the only other way in which it can help us-viz., by cheapening those supplies which we require in the way of clothing, food &c., and which we have to go outside to buy-to see what is done for us in this direction.

afacture everything we require and buy nothing, that, in fact, we should the Queen had written Dr. Grant, are we to sell to? Is it possible that in tion as to health of the Marquis's housecan be entertained? If we wish to sell | reply by the Doctor stated the Princess' tions also desire to do the same, and if stated it. The disatisfaction followwe think we can compel these nations ed, and Dr. Grant is in troubled to buy from us without, in return, buy- waters. ing from them we are laboring under a and mistake, as nations, like individuals, prefer trading with those who will trade

told over and over again by the Tory crease the price of goods to the consumer; that everyone would get better prices for what they had to sell, whilst no one would require to pay a dollar more for what they wanted to buy! This precious logic was still further enhanced by a reference to the United protection-ignoring the evident fa that, for years, protection had made culty, be heard when they may address States the most expensive country in the world to live in

We have only to compare the tariff with the last import returns for this Province to see how we are to suffer under it, and how the little life which these times of depression has left in our staple industries is to be crushed out of them by enhancing the cost of producfree list " of the old tariff there were imported into this Province, goods -absolute necessaries, consisting of our lumber, shipbuilding and fishing the value of MASS 073 Under the new tariff, should our imports night they were so unruly that Sir not more than 280,000 in the building. be as large, the people of this Province will be required to pay duties on these goods to the amount of nearly \$100,000. Under the old tariff we imported, under the 171 rate, goods to the value of at him, however, and several said, sotto \$4,775,218. ### Telephonic Despatches. From our Special Correspondent.

OTTAWA, May 4th. There has been a good deal of excite ent and bustle lately about the Fisher Department, and as a result some m -regulations-have been promulgated fo the benefit (?) of Miramichi, Mr. Inspector Venning's pet bete noir, the attention to the fact that the total expenditure in the Province of New lever had been in the establishment, of course their object is to prevent Mr. late lamented "to put a spoke in the wheel" of those who rejected him.

A good many lugubrious faces are to be seen among the members. They are beginning to find out the N. P. is not all it was cracked up to be" in those famous Pic nic orations. Farmers think agricultural implements ought to have been on the free list, and a greater tax placed on bread-stuffs. Agricultural implement makers think it ought to have been the other way. Makers of boots and shoes think these are both wrong in their ideas—that boots and gress was fair and in some the reading atshoes ought to be protected, but these other things are quite expensive enough already, whilst the coal mine owners are discovering that they have been sold; that 50c. per ton won't cover the increased cost graphy of Scotland, including its boundof material required to carry on their works. Members think all this will look very awkward when they come to "face" and also that of North America, especially of the United States. The class did very charge of I. B. Oakes, Esq., commercially of the United States. the music" again, and not a few are thinking of taking lessons in that famous quick-

step entitled "jump jim crow." There is a rumor that the House will be prorogued by the 8th or 12th-which will effectually dispose of the Letellier matter for a year, which is just what Si John desires and his disingenuous trick of making the Governor-General the scape goat for the reference to England and so keeping his Quebec followers from turning recaloitrant will be more successful than

it deserved to be. "Coming events cast their shadows before," and it is just possible Major Domville may be Captain of the Wimbledon team next year. The Major thinks he would make a first rate "felleah" for the position. Meantime, some of his exuberant fighting propensities might be util-

#### Continued from last week. School Examinations

On Tuesday morning (29th) the examina-tion of the Advanced Department in the Academy building, in charge of Miss Williston, took place at 10 o'clock. 40, the age of the pupils ranging from 10

The trustees present, were Messrs. T. G. Smith and a number of ladies.

corated with mottoes and maps drawn by the pupils, which did them very great size. Those who exhibited maps were G. Henderson, A. McKay, Edith Winslow, Ernest Murray, C. E. Murray, Saddie present at the first part of the examination Gillespie, H. Wyse, Jessie B. Ullock, Stothart, Campbell Johnson, Josephine Kelly, Susie Creighton, Charles Paterson, Annie McKay and Dice Davidson.

A water-color marine piece, by Ada Johnson was also very creditably executed for a beginner.

The pupils entered singing a March and

was recited by Miss Irene Strang. Class B was called on and read from the 4th book and were examined in spelling. Class A read several pieces from the 5th book, and were, also, examined in spelling. In both these classes the pro-

tracted the notice of visitors. Dialogue by Miles McKay and Bernard Wyse. "The Arithmetician. The A. class were examined in the geoaries, physical features, chief towns, etc.,

well.

The B. Class were examined in the geo. graphy of the Dominion, including that of the North West Territories, answering 28. The Trustees present, were Messrs.

the questions readily.
Song "Do Good" by the pupils. The A. Class were examined in Grammar and Analysis from sentences written on the black board, acquitting themselves

Mr. McBain. Messrs. A. W. Paterson, D. Davidson, Geo. B. Fraser, and Dr. J. very well.

Recitation—"Sunshine and shower"

by Edith Winslow.

The whole of the Pupils were exercised in Mental Arithmetic, solving a number of questions very promptly and after wards giving an analysis of the working of the time of the Tudors. Dialogue—"Civilty is never lost." by

Misses A McKay, Jessie Ullock, Mac Snowball, Harry Shirreff and C. Johnson. The B Class were examined in arithmetical questions involving the use of rules as far as fractions. This exercise was performed on slates

home in working the different rules, but Geometrical Progression, the latter of were able to give the reasons for using which was explained by Miss Bessie Car-

them.
It being 1 o'clock, the examination was adjourned till afternoon.

After dinner the pupils sang "Don't forget the old folks."

The A Class were examined in Cana dian History, from the period of the discovery of Canada to the taking of Quebec. Recitation. - "The Brook," by Mabel Mur-

the Roses. Recitation—"Grandfather's Dream," by Miss Bessie McKeown.

pupils shewed great progress, and the Rev Mr. McKeown and Messrs Winslow J, McKay and D, Martin were appointed arterial Blood, Ventilation, the object to decide which pupil had made the most of Cooking, Cleanliness, Disinfectants, and

It was finally decided that Minnie Blair very satisfactory explanations of the dif was the pupil who had made the most im-provement in writing and for this a prize traits of the Marquis of Lorne and the Princess Louise. A cut glass inkstand was awarded to

Earnest Murray, as the best writer in the ed by the School, and a papetrie to Edith Winslow as the next best. Indeed it was difficult Europe, the Dominion of Canada and the to choose between these two pupils.

A prize being announced by the Trus-tees for general proficiency, it was found McKeown and Miles McKay that they were equal, upon which prizes consisting of books were awarded to each. The pupils now sang "Scatter Smiles."

saying as the oldest Trustee present, he had been selected to express the satisfac. McKay, Chas Blair, A. tion they all felt at the progress that had been made in the School. It was very satisfactory to see the interest which the parents of the children had taken in the proceedings, and he thought all must be Rev. Mr. McBain. satisfied. The progress the pupils had made in Geography and History, was par-ticularly noticeable and reflected great spirit by Miss Maggie Mowatt and deservcredit on the teacher. The parents had, evidently, also, taken great interest in the studies of their children, and he was sorry that there were not more prizes to be distributed, as he was sure from the number of tickets in the possession of the pupils, that others were entitled to them.

conduct in the pupils, was an important conduct in the pupils, was an important R. Ramsay.

The Class in Grammar and Analysis in that branch and acquite

ance had improved, and thought he expressed the wishes of those parents present in stating the satisfaction which Rev. Canon Harrison, recently Rector had been afforded by the way in which Monday at Beach Hill, Kings County. Mr, Crimmen said that this was the He was one of the best known, and first time he had attended the School, and most highly esteemed clergyman of the he was more than pleased, and no doubt in simple equations, a number of which

cholars had shown ouring the past year that they were laying the foundati "HYDRAULICS AND HYDROSTATICS" broad and deep for useful lives, and would arithmetic. In his school days he never shows that the Inspector did not know | not be anxious to appear to know what we did not know. The teacher of the school Miss Williston seemed to be quite equal to her work, and it required consider force to stop her when she had once com menced a subject with the pupils, whom he trusted would not only be wise, but in different parts of the county but he would always feel an interest in the cause The number on the register of this school is 50, and the average attendance would do the same. He next spoke of the importance of upholding the hands of the teacher, and to so guard children interests at home that when they came to School, they Crimmen and F. E. Winslow.

There were also present the Rev. Messrs in their future lives. He was thankful for in their future lives. Samuel Benson, W. Nicholson, A. W. Paterson, Dr. McCurdy, Jas. McKay, D. Suggestions had been made by the teacher regarding marks for merit and he would The walls of the school room were dethere should be a perfect programme with

credit, some of them being of considerable Mr. Smith said their junior Trustee had led them to expect him to say som thing. He could only say he was not but was much pleased with what he had Gillespie, H. Wyse, Jessie B. Ullock,
