—WILL BE HELD IN—  
**VICTORIA RINK, on October 6th and 7th, 1903.**  
\$2,500 IN PRIZES AND VALUABLE SILVER CUPS.

**Athletic and Aquatic Sports.**  
These events are also exciting much interest, and enquiries are coming from all Canada and the United States asking for information. The best athletes and swimmers in the country will compete for supremacy. A few newspaper comments on last fall's Carnival Sports: "Never before in the history of the Maritime Provinces has such a gathering of athletes been brought together as those who will try their strength and endurance today on the Athletic Grounds." The Harbor Regatta of October 14, 1902, was referred to as follows: "Conditions excellent. The harbor was never in such fine order for good boat racing. There was hardly a ripple on the water. The weather was warm and comfortable, and about 12,000 people lined the harbor front, while hundreds of small craft were about the course in the races." The above events will be excelled in the coming fall sports. October in St. John is one of the finest months of the year. A cheap fare everywhere.

R. R. MACAULAY, President. J. F. GLEESON, Secretary, R. B. EMERSON, Vice-Pres.

**MURDER OR SUICIDE.**  
CHICAGO, Sept. 15.—A despatch from Wheeling, W. Va., says: The nude body of Miss Ella Zane, 23 years old, a member of the family that founded this city, has been found in the Ohio river. Coroner Fitzpatrick says the young woman was murdered and thrown into the river. The family refuses to give details, but hints at suicide. Three years ago Miss Zane retired from active society life and became a recluse. She was missed from her home Sunday.

**Boys Suits!**  
Our BOYS' SUIT selling is rapidly increasing. One mother tells another of the wonderful values got at HARVEY'S, and so the good news spreads. We are showing now the best stock of Boys' Clothing yet shown.

**RUSSIA'S PLANS FAR REACHING.**  
Would Isolate Bulgaria Then Seize the Country.  
Turkish Horrors Continued—Prisoners Tortured and Starved to Death in Underground Cells

LONDON, Sept. 15.—The St. Petersburg correspondent of the Daily Telegraph claims to have the highest diplomatic authority for saying that Russia's Balkan policy is to isolate Bulgaria by refusing to stop the Macedonian massacres and inducing the powers to remain inactive. Then when Turkey has defeated Bulgaria, Russia will insist on stepping in and occupying Bulgaria under the pretext of protecting her. Thus Bulgaria would become Russia's vassal. Minister De Witte's removal, continues the correspondent, was due to his advocacy of a peaceful settlement of the Balkan problem. A despatch from Belgrade to the Daily Mail asserts that the Serbian government lately equipped bands which were sent in military trains to the frontier, where each man was given arms, provisions and \$35 cash. The Turkish representative has demanded the cessation of this practice.

VIENNA, Sept. 15.—A Constantinople despatch asserts that Col. Massey, who was commissioned by the British embassy to inspect the action of the Turkish troops in the Adrianople district, has returned to Constantinople, having been forbidden to continue the journey. It is stated that as far as his observations went they confirmed the reports of the extermination of the Macedonian population by the Turks. A report was published in a Trieste paper that an Austrian squadron had been ordered to keep its readiness to proceed to Salonica. This news is semi-officially denied but is believed to be substantially correct.

LONDON, Sept. 15.—The correspondent of the Daily Mail at Monastir describes the underground cells in the prisons there used for political prisoners. They are so low that the inmates cannot even sit, they must lie down. Water is poured into the cells at night time by the guards, who probe the prisoners with their bayonets to prevent them from sleeping. Food is withheld for three days together, and air passages are stopped and other tortures inflicted in order to force the prisoners into confessions of complicity with the revolutionaries. Many have died under the treatment.

**PARLIAMENT.**  
OTTAWA, Sept. 15.—In the house of commons the motion of Mr. T. A. Crerar, M.P., concerning the duties of the commissioners who will construct the eastern section, Mr. Fielding took occasion to bring forward the charge that parliament's control of judges calls in force, and that judges were neglecting their duty all over the country. Mr. Borden considered such a charge a very serious one. If Mr. Fielding knew that judges were misconducting themselves it was the duty of the government to deal with them and if necessary to provide legislation for that purpose.

On the clause to provide for the construction of the eastern section, the opposition urged that the Grand Trunk Pacific and the government should continue to suspend of judges calls in force, and thus destroy the continental aspect of the railway. The mountains of information provided by the government in regard to the Grand Trunk Pacific scheme came down today in the form of a report by Dr. Ami of the geological survey. It is nothing more than a review of the opinions of explorers of the geological survey provided by Dr. Whiteaves; Notes on 25 Years' Service in Hudson Bay Company by John McLean; British Elementary Geography, British Colonies and Report on Explorations in Labrador Peninsula, by A. P. Low. The report covers 174 pages.

**ESCAPES ON SPECIAL TRAIN.**  
ST. LOUIS, Mo., Sept. 15.—A special train for a nine hours' ride and the holding of the Washburn Limited for four hours for a private car was the trip that Mrs. Louis P. Aho planned and carried into effect, that she might bring her little daughters to their home here, when she learned that they had contracted scarlet fever near Muskegon, Mich. Dreading to have her little girls quarantined away from home, Mrs. Aho made arrangements for the trip, telegraphed directions to railroad men, and started to Muskegon by boat before the reports as to the nature of the illness of her children had reached the authorities. A special train carried her and the children to Chicago, and Mrs. Aho induced the Washburn railroad to hold their fast limited train out of Chicago until her special train arrived. Mrs. Aho is the wife of Louis P. Aho, a millionaire politician.

**LABORERS DISCHARGED.**  
The Street Railway Company have discharged all the men who were at work on the west side and the job is now hung up. There was some intention of going on with the Fairville line but this has not been carried out. The delay, Mr. Earle says, is solely due to the difficulty with the common council and not a strike of work will be done until all the matters now in dispute are settled. This was decided at the meeting of the directors but it is hoped that an amicable agreement will be arrived at when the joint meeting is held.

**RIOT IN NEW YORK.**  
Many Shot in Fierce Battle Between Police and Gang of East Side Toughs.

NEW YORK, Sept. 15.—One man was shot and killed, another probably fatally wounded and several others were badly hurt during a fierce fight early today between the police and an east side gang of toughs. The man who was killed was Michael Donovan, a stevedore. He was shot in the head and chest and was found lying in a gutter at Second street and the Bowery by a policeman. Four prisoners who were taken to Bellevue hospital, where Donovan had been taken, said that they had never seen the injured man before and Donovan on his deathbed refused to look at them, saying he knew who had shot him and would "fix" his assailant when he got out of the hospital. An hour later he died. According to the police one of the prisoners arrested during the night is "Monk Eastman." They claim that it was a meeting of the members of the "Paul Kelly" gang and that "Monk Eastman" started the trouble in which the police were engaged. The police believe that the trouble started over the shooting of Dave Bernstein, an east side saloon keeper several weeks ago. Several men were arrested for the shooting at the time but accused and accused were equally non-committal, all saying that they would get "square" in their own way at some future date.

**BRIEFS BY WIRE.**  
DETROIT, Mich., Sept. 15.—The fire which broke out in South St. Marie last night and which destroyed several buildings in the business section, was gotten under control about one o'clock this morning. It is believed that the damage will amount to \$100,000. NEWBORN CASE. With Miss Jean, William Howe shot and killed his daughter-in-law shortly after midnight. He then refilled the rifle with which he committed the murder and killed himself. The victim had been divorced from Howe's son.

**LAREDO, Tex., Sept. 15.**—The state board of health and the federal authorities last night established a most rigorous quarantine against New Laredo, Mexico, opposite this city, on account of the appearance of several very suspicious cases of fever, which physicians say indicate all the symptoms of yellow fever. One death has resulted thus far. Many are preparing to leave the city.

**MANILA, Sept. 15.**—One hundred cases of bubonic plague are reported in Manila, the most northern and populous suburban district of this city. Of these eighty have had a fatal termination. The cases with nine deaths are also reported from Cebu, in the province of the Visayas. Cholera is prevalent in all parts of the island, the result of an absence of rain.

**THE WEATHER.**  
Sept. 15.—Highest temperature, 63; lowest, 49; barometer, 30.02; wind, from north 30 to 20 inches, wind south, velocity four miles per hour. Fog. Forecast—Moderate, variable winds and cloudy; Thursday, increasing light winds, showers; Friday, increasing light winds, showers. Synopses: The barometer now likely to fall steadily in advance of two depressions, one from the west and the other from the south, unsettled weather is probable. Banks light, variable winds today and early Thursday. American ports strong southeast winds on Thursday.

**JUST SCARE THEM.**  
In connection with the escape of a prisoner from the park gang yesterday, a morning paper stated that one of the guards fired two shots. The Star is told that the guards are instructed to take all necessary measures to enforce discipline. The use of revolvers is not forbidden, but there must be no shooting to hit.

**DON'T SELL LIQUOR.**  
Agnes Williams, a resident of Broad street, appeared in court this morning on the charge of keeping liquor for sale. A few days ago the police visited her place and found some liquor and beer. This morning a man, who lives with the Williams woman, testified that he had bought the liquor for his own use. The case was dismissed.

**MORE TROUBLE.**  
Two light carriages went over the Brussels street obstruction last evening, and both were badly shaken, though not broken. On Monday evening several prominent citizens were down having a look at the log, but beyond a few swear words no statement was made by any of them.

Excursions to Boston by rail started yesterday, and will continue during the month. Quite a lot of people took advantage of the cheap rates and the indications are that many others will leave here in the next few weeks. James Lockhart, the young boy who stole money from his father's shop on Main street, will be sent to the boys' industrial home at Silver Falls. Yesterday his mother arranged for his admission there and it will not now be necessary to have him sent to the reformatory.

On the occasion of their visit to St. John the band of the Coldstream Guards will be received at the depot by the Artillery and 62nd Regt. bands, who will play them to the hotel. There will be no formal reception, but on the first evening of the concert all officers attending will appear in uniform.

A number of local militia officers have received invitations to attend the reception in Boston to the Honorable Artillery Company of London, which takes place on Oct. 2nd. There has been practically no change this year in the water assessment. The total amount has increased some \$300, which is about the normal yearly growth.

**CANADA'S TRADE ON THE INCREASE**  
Imperial Government's Trade Statistics Issued.

Chamberlain Will Modify His Proposals—Canada Again Attacked by Labourers.

(U. S. Associated Press.)  
LONDON, Sept. 15.—On the heels of Premier Balfour's academic exposition of his personal views of the fiscal problem contained in the pamphlet on "Insular Free Trade," advance sheets of which were issued last night, came the long promised and much demanded government statistics dealing with that subject. They were issued this morning by the board of trade, in the shape of a bluebook of nearly 500 pages of bewildering tables of figures showing the various aspects of British and foreign trade and the industrial conditions. No publications were drawn, though the notes upon what are regarded as points of fact. The references to foreign trade were chiefly confined to France, Germany and the United States. The bluebook states that the cabinet has concluded the consideration of its fiscal position and its policy in regard thereto, that no further cabinet meetings will be held for the present, probably not until late in the autumn and that in the meanwhile the Colonial Secretary Chamberlain will proceed with his expository programme. The paper adds: "It will probably be found that he has modified his proposals so as to bring them in harmony with Mr. Balfour's views as set forth in the pamphlet. The main feature of Mr. Chamberlain's modifications will be the disappearance of all suggestions in the direction of the further taxation of food stuffs and raw materials. Consideration of the war commission's report is reserved for future meetings of the cabinet." The Fall Mail Gazette believes it is still possible that there will be more than one resignation from the cabinet. (Can. Associated Press.)

**LONDON, Sept. 15.**—The board of trade returns dealing with the value of the United Kingdom, Canada and Germany, shows the value of imports to Germany from Canada in 1902 to have been \$478,900, as compared with \$370,000 in 1901, \$209,000 in 1900, and \$190,000 in 1899. The value of exports from Germany to Canada in 1902 were \$1,927,000 as compared with \$1,325,000 in 1901, \$833,000 in 1900, and \$528,000 in 1899. Proportionately the value of imports from Canada have grown more rapidly than exports from Germany. Imports from Canada into the United Kingdom in 1902 amounted to \$22,965,000, as compared with \$18,000,000 in 1901, \$10,213,000 in 1897, and \$12,738,000 in 1895. The total exports from the United Kingdom to Canada in 1902 were \$11,998,000, in 1901, \$9,250,000, in 1895, \$6,528,000. The total value of imports of the United Kingdom and the Dominion in 1902 was \$24,961,000, whereas in 1901 it was \$21,000,000.

Chamberlain, replying to a correspondent, denied ever having issued a broad hint from any one of the colonies that they desired separation from the British empire. True in a lengthy article on labor as an export says it would be extremely interesting to know the real truth as to openings for emigrants otherwise than farming that at present exists in Canada. The Canadian government is doing its best to import not merely farmers, but workers of all classes, but labor organizations resist this policy. Truth quotes two Toronto letters as showing that a direct conflict of opinion prevails on the subject. One compares the cost of living in Canada with that in England as a warning to the British emigrant tempted to emigrate to Canada. The article concludes by saying that the most ardent imperialist must hope the facility of the emigration process when so many settlers transported to Canada for the purpose of increasing the number of the population in the course of a year or two into the United States.

The King has approved the appointment of Dr. Don Juan Antonio Sulliva as consul general for the Argentine Republic at Quebec, for Canada. George Towns, the celebrated sculler, premises at Newcastle, N. S. W., with his entire stock of boats, have been totally destroyed by fire.

**ALASKA TRIBUNAL.**  
(U. S. Associated Press.)  
LONDON, Sept. 15.—Only a few spectators were present when Attorney General Finlay today resumed his argument for Canada before the Alaskan boundary tribunal, in session at the Foreign Office. During the morning sitting the wives of several of the American and Canadian commissioners entered the chamber but they remained only a short time, as the attorney general merely continued to read his documents connected with the negotiations for the Russian-British treaty of 1825, which while having an important bearing upon the question, were of no interest whatever to non-experts.

**MANILA, Sept. 15.**—One hundred rebels attacked the head quarters of the constabulary in Santos in the province of Guava Eciste, Island of Luzon, and attempted to take the place by storm. After a lively fight the attacking force were repulsed with a loss of eight. The constabulary lost five men in the fight.

Michael Barry, of 137 St. James street, died at his home this forenoon, after an illness of some months. He was seventy-one years of age and leaves three daughters, two of whom are in New York, and the other, Mrs. Catherine Murphy, is at home.

**OMAHA, Neb., Sept. 15.**—Reports from fifty of the seventy counties in the corn belt of Nebraska received by the World Herald up to midnight indicate that frost was general in the state last night. In many localities it is killing, in others light. C. P. Bureau estimates place the damage to corn at \$5 per cent.

**FIRE ALARM TESTED.**  
System Found to be All Right When Wires Are Intact—Danger is There.

The striking of the fire alarm this morning occasioned some wonderment as to what it all meant. It was only Superintendent Leonard testing a number of the boxes. The superintendent was endeavoring to ascertain the cause of the recent disturbance on the box circuit.

Yesterday a silent test was made of boxes 126, 127, 135, 231 and 42. The boxes were found to be in perfect working order. This morning a round was sent in from boxes 126, 135 and 231. In each instance the bells in all parts of the city responded promptly. The superintendent has not found out the reason why box 42 did not strike properly when pulled in on Monday night. The current was interrupted by a heavy cross from a private wire in Lower Cove. The superintendent says that the fire alarm system, considering its shortcomings, is in very good order. The bells and boxes in all parts of the city are working well, and all the disturbance that has recently taken place on the box circuit was due wholly to the unreliable state of the wire. The box circuit is entirely of iron wire, which the superintendent says was always too small for the purpose, and, moreover, owing to its extreme age, a strong resistance to the free passage of the current is encountered.

Nothing like this can occur with the new copper wire which it is intended to put up. It is about four times larger than the iron wire at present in use, and in addition to this, it is protected by a weatherproof insulation. It is not known when the work of installing the new box circuit will be commenced. Owing to the deceptible state of the present wire, it should be begun at once. Twelve miles of the new copper wire have already been procured. Twenty-four miles in all will be required.

**BRIEFS BY WIRE.**  
ST. LOUIS, Mo., Sept. 15.—The biennial convention of the brotherhood of railroad car men of America, which has been in session here for the past week, has completed its business and has decided to meet in Buffalo in 1905. Among the officers elected for the ensuing two years were: W. F. Romeus, Kansas City, grand chief carman, and P. H. Wallace, Toronto Junction, Ont., member of the executive board.

**PHILADELPHIA, Pa., Sept. 15.**—Following closely on the sensational discovery of a counterfeit plant inside the walls of the Eastern penitentiary, it has been learned that a shortage of three hundred thousand stockings has been discovered in the stocking department. They disappeared since the first of the year.

**PROVINCIAL ITEMS.**  
A haul of thirty hogheads of sardine herring were captured Monday forenoon in the St. Andrews Golf Club weir and were sold at twelve dollars per hoghead. On Saturday last fifteen hogheads were seized out of the Rocky Point weir, owned by Charles Hornell.

A writ was issued recently out of the supreme court at the instance of C. B. Warren, Glace Bay, against the Phoenix, the Anglo-American and the Canadian Fire Insurance Companies, for claims amounting in the vicinity of \$4,000. It will be remembered that a few weeks ago the business place of Mr. Warren, at Glace Bay, was burned out. The insurance amounted to only \$1,400, which was insufficient to pay for the heavy loss suffered. The companies are now refusing payment on some technicality or other and are offering \$1,400 in full settlement of the claim, which Mr. Warren refuses to accept.—Glace Bay Gazette.

The Wolfville Fruit Co., Ltd., raised over two hundred barrels of pears this year.

**RECENT WEDDINGS.**  
A very quiet, yet pretty wedding took place at Truro, on Saturday, at the manse of St. Andrew's church, when William Dand Chisholm, son of the late Captain Angus Chisholm, and one of the most popular of New Glasgow's young men, was united in marriage to Miss Blanche Green, one of New Glasgow's best and fairest young ladies. The ceremony was performed by Rev. Mr. Strathie.

The church of the Sacred Heart at Sydney was the scene of a pretty event on Monday morning when Allan C. Macdonald was united in marriage to Miss Martha E. Connick, daughter of John Connick of this town. Rev. D. M. MacAdam, pastor of the Sacred Heart church, performed the ceremony.

Last week the home of Joseph Ward, River Esplanade, Cumberland Co., N. S., was the scene of a very happy event, when his eldest daughter Maud was united in marriage to Frederick McIver, the nuptial knot was tied by the Rev. Joseph Sellar, uncle of the bride.

**STREET RAILWAY MEN'S UNION.**  
Last evening the street car conductors and motormen held a meeting preparatory to the forming of a union. The meeting was well attended and it is reported that the majority of the men favor the proposal while some fifteen or twenty are either adverse or not interested in it. The names of all who will join were taken and an organization meeting will be held tomorrow evening. The men say that their proposed union is solely for purposes of protection, from which they may receive support in times of illness. They have at present no idea of combining for the purpose of asking for an increase in pay, although such a contingency may possibly arise later.

**WILL FACE PARLIAMENT.**  
LONDON, Sept. 15.—The Times thinks there is no doubt that Premier Balfour will meet parliament and defend the policy embodied in his pamphlet. Even should there be, as rumored, one or two ministerial resignations, it is unlikely that there would arise any question of the resignation of the government or an appeal to the country.

**From Straw to Felt.**  
Now is the time to don a felt hat and "let bygones be bygones" with the old straw hat. As a moment of the good old summer time it may be all right, but its age is telling on it.

Our stock of Fall Hats contains all the newest.
