### What the Saleswoman Said: Yes, we like to sell Stanfield's Truro-Knit Ladies' Underwear, as we know our customers will be de-lighted with it. We feel so safe with Stanfield's, too. We guarantee it not to shrink. If it does, we return the money, and the makers reimburse us. Stanfield's Truro-Knit Underwear is made of the finest non-irritating yarns. All the wool is of uniform length. So carefully is this underwear made that even every thread is tested before being woven. That is why Stanfield's "Truro-Knit" is so soft, light, warm and durable. We have Stanfield's "Truro-Knit's in such a range of sizes that we can perfectly fit every figure. And it wears so well that while a little more expensive to start with, it is really the cheapest in the end."

# A PRETTY ROMANCE

Russian Nurse Who is Seek-

ing Her Lover

and is Now at Chefoo

story develops around Miss Corelle, first reports said Miss Corelle had vol- the fracas. untarily entered the Japanese lines. This now seems to be incorrect. Miss Sam Rose. On being asked his age he Corelle, it is now said, was a nurse said "I dunno, mebe twenty-five, meduring the Boxer rebellion and won be fifty." He is a small man and apceived the St. George's medal because swered "I take one drink several she continued to work when her wound | times." He did not appear, however, was dressed. Recently this learned however, McDermott had nevofficer was among the missing and it er known the man nor had ever had was believed he was wounded or a any words with him. prisoner among the Japanese. In order to find him, it is alleged, Miss Corelle strolled from the Russian comand very cheerfully allowed some Chi-

nese bandits to capture her. This was about ten days ago. The next step in her scheme was to become a Japanese prisoner or reach their lines. The bandits, it is asserted, allowed her to communicate with the French consul at Newchwang, following which a detail of Japanese soldiers reached their camp and Miss Corelle was taken to Newchwang. She tried to secure permission to go to Japan and search for her lover, but the Japanese gave her twenty-four hours in which to leave the town, suspecting her of being a spy. The French consul at Chefoo is now endeavoring to obtain permission for Miss Corelle to nurse wounded Russians in Japan.

A despatch to the Associated Press from General Oku's headquarters via Fusan, Nov. 20, said that a Russian woman Red Cross nurse had entered the Japanese lines Sunday last, surrendering and requesting to be sent to Matsuyama to nurse the Russian prisoners there. She said she was the daughter of a Russian colonel, and that she had been sent to Japan to care for the offcers at Matsuyama. It was added that her wish was granted.

## ANOTHER ASSAULT.

John McDermott Clubbed by an Assyrian,

Who on Being Arrested Announced

the Former.

That He Had Intended to Kill

About 10.30 last Tuesday John Mc-Dermott of Erin street, lighted his pipe and started out to get the fresh air and enjoy the moonlight. When he arrived at the corner of Erin and Brussels he stopped for a few minutes. Suddenly he heard footsteps behind him and before he could turn around he felt a heavy weight landing on his heard. This was the last he knew of what was going on for a few minutes. When he picked himself up and began o realize what had taken place, he ooked around for his assailant and ound an Assyrian near him still holdng the club which had brought him

McDermott clutched the Assyrian and after a short scuffle brought him the ground. Some boys were watching the affair and the word soon reached a number of the foreigner's friends who come running to his rescue. They separated McDermott from his victim and the latter feeling no longer at ease where he was, made haste toward his home. On reaching home he immediately tumbled into bed, thinking that there he would be

the ground.

ered around McDermott, but his assailant was missing. McDermott said he could identify the man if he saw him, and he went with the officers to the place known as "the home" at the foot of Erin street, below the cotton factory. This place is not unknown to Was Captured by Chinese Bandits, the police, as they have often had occasion to visit it of old. It is inhabited by several families of Assyrians, each family occupying from one to three rooms. In one of these rooms they found their man in bed and were forced to take him from his loving wife CHEFOO, Nov. 22 .- A romantie and lock him up in the police station. McDermott's head is

**Vear Campbellton.** 

The Old Story of Thawing Dynamite

Repeated—Only a Few Fragments

of the Body Found.

CAMPBELLTON, Nov. 22.-A shocking accident occurred this afternoon a few miles from this town, on the International railway, now in course of construction through the Tobique valley to the St. John river. Joseph Gagnon, one of the men engaged in the work, was literally blown to atoms by an explosion of dynamite. As far as

Gagnon was employed in blasting, and placed a large quantity of dynamite in a pot to be thawed out ready for use. The pot containing the dynamite was hung on the inside of a barrel in which a quantity of hot water was kept to warm the dynamite. It sems that a boy was employed to see that there was sufficient water in the barrel, but it is said the water was allowed to run out, and the dry heat caused the explosion of the dynamite just as Gagnon came up to get a sup-

can be learned the circumstances of

The explosion was terrific and not more than a few fragments of the unfortunate man can be found. The trees near the scene of the accident present a gruesome spectacle of blood and

pieces of flesh and clothing. Another man a short distance from the pot was knocked senseless, but was

not seriously injured. Gagnon was a native of the State of Maine, and came here a few years ago. His wife is now visiting her old home in Maine, having left for there about

a month ago. SERIOUS STRIKE IN FRANCE.

PARIS, Nov. 23.-A series of strikes in the government arsenals and powder factories at Lorient, Brest and Toulon is assuming menacing proportions. Five thousand strikers at Brest made a demonstration today and there was much minor disorder. Larger forces of troops have been concentrated at the various ports. The strikers include onto. The portrait and signature of arsenal telegraphers, thus interrupting Dr. A. W. Chase, the famous receipt governmental despatches. book author, are on every box.

## OF INTEREST TO FARMERS.

THE PARASITES OF POULTRY. | chickens should be well washed with DEPARTMENT OF AGRICUL- a small, stiff brush, warm water and TURE, Commissioner's Branch, Otta-wa, Nov. 3.—The presence of parasites is one of the primary causes of unpro-fitableness and disease in a flock of poultry, says the Poultry Division, Ot-treated should be cleaned with soan tawa. The towls are rarely examined and the reason of their poor condition is not discovered or even considered. There it will pay every poultryman to examine his birds carefully before they go into winter quarters, as their health and comfort during the next six months depend largely upon their freedom from vermin. There are three distinct groups of parasites preying upon the domestic fowl - fleas, lice and

mites. -Groups of Parasites-Only one species of flea, the bird flea, lives upon the fowl. This flea is provided with a sharp piercing mouth; it attacks the fowls at night and through causing constant irritation and loss of blood does much harm.

The mouth of the louse differs from the mouth of the flea in that it is not sharp and used for piercing, but simply for biting. Lice bite sharply and cause considerable pain.

The most injurious of the mites is the red fowl mite. This is yellowish white to dark red in color, according to the quantity of blood it contains The blood is drawn from the fowls at night, and during the day the mite hides in the cracks and crevices of the house. When the chickens appear in poor health they sould be examined at nigt, and if mites are found treatment should be resorted to.

Prevention and Extermination. - If the poultry house is old and contains many crevices all the nests, roosts and other fixtures should be removed from it, and the walls and ceiling covlimewash. The latter should be applied hot and fairly liquid, so as to enplied hot and fairly liquid, so as to eninjured by its use, it is better to be
