

## ALL THE NEWS OF ST. JOHN CITY AND VICINITY

COUNCIL AUTHORIZES A  
PUBLIC POLICE ENQUIRY

No Discussion on Commissioner McLellan's Resolution, Yesterday—Authority Given for Paving of Certain Streets—Suburban Railway Company Ask for a Hearing.

At the meeting of the city council yesterday, Commissioner McLellan was authorized to conduct another investigation into the police department, and Com. Agar to pave a few streets. Other routine matters were dealt with.

Payments for March amounting to \$27,895.38 were passed, and the following departmental accounts were ordered paid: Public works, \$2,546.44; public safety, \$2,615.00; harbors, ferries and lands, \$903.34; water and sewerage, \$461.15; treasury department, \$77.64.

John W. Pierce was appointed an additional city constable.

## Public Works.

On motion of Com. Agar the following tenders were accepted:

Warren Bros. Company, 125 tons of refined asphalt at \$23 per ton. The Carrington Paving Co., Ltd., 1000 barrels of refined coal tar at \$4.50 per barrel.

Com. Agar was given authority to purchase 1 tank car of asphalt from the Imperial Oil Co., Ltd., at 10 cents per imperial gallon; 1 tank car of asphalt (b) from the Barber Asphalt Paving Co., at 11.15 cents per imperial gallon; 1 tank car of asphalt (a) from the Barber Asphalt Paving Co., at 5.75 cents per imperial gallon.

Com. Agar recommended that he be authorized to have specifications prepared and to call for tenders for paving the north side of the King Square, from Charlotte street to Sidney street, and for paving that portion of Sidney street from the north side of King square to Union street.

## The Sole Remnant.

He said that this was all that was left of their street paving programme. He hoped, however, the people were being educated. It was not the wisdom of the council, but the experience of other cities, that had dictated the policy of asking the property benefited to pay a portion of the cost. In most other cities the property owners had to pay a larger share of the cost than they were asked to do here.

He read a letter from Hamilton, stating that under the local improvement act there, the property owners were credited 50 per cent. of the cost of the paving, and the city 20 per cent. In Ottawa the city paid for the paving of the intersections and one-third of the cost of the street, but in that city the city only paid for the intersections.

His worship said there seemed to be an opinion that all property owners were opposed to paying a share of the cost of the paving. This was erroneous. Many had expressed their willingness to pay. But those opposed had been active in getting the petition of protest signed by one-third of the abutters.

## Where Plan Was Unpopular.

The recommendation was adopted. Com. Agar reported that he had examined the petitions of certain property owners protesting against paving the following streets and portions of streets, under sub-section (b) of section 1 of the act 7 Ed. 7, Cap. 87, namely: British street, from Charlotte street to the Dufferin Hotel; to Queen street; German street from Princess street to King street; Union street from King street to Union street; Paradise Row, Mill street to Foundry Lane; Princess street from Charlotte street to German street; South Side of King Square from Charlotte street to Union street; and he found that owners representing more than one-third of the lineal feet of the real and rentable frontage on the sidewalk of said streets and portions of streets so to be paved, protested against the paving of the same; he therefore recommended that the order of council of the 17th day of February last, ordering the paving of said streets and portions of streets, be cancelled and annulled. Adopted.

Stuffy Feeling  
About the Nose  
Relieved at Once

Tells How to Cure Hawking and Spitting and Drive Out Catarrhal Colds.

Isn't it miserable to have a stuffy feeling in the nostrils—to be unable to draw a full breath. When Catarrh gets into the nose you're bound to know something is radically wrong.

A dead sure cure, and a simple one to use is Catarrhose: you just breathe it—that's all. You see Catarrhose Inhaler sends healing pinkey vapors through the nose, throat and lungs, and these antiseptic soothing vapors are death to colds or Catarrh. Thousands testify every year that nothing ever discovered will cure a cold, or help the throat like Catarrhose. Mr. Everett L. Wassan, of Blair, N. B., writes: "About five years ago I took a cold in the head, and Catarrh set it. It kept increasing by leaps and bounds. I kept putting off getting anything until at last I found I would have to. After trying several things I heard of your remedy, 'Catarrhose,' and procured a bottle and began using it. I was not long in finding out I had the right thing. I am recommending Catarrhose to all who have Catarrh, etc."

Catarrhose is the greatest remedy for colds, etc. Several people have told me. Get the dollar package and let the whole family use it. Medium size 50c; sample size, 25c. All drugstores and druggists or The Catarrhose Co., Buffalo, N. Y., and Kingston, Canada.

Com. Agar recommended that the portion of Sydney street lying between the north side of the King Square and the southern line of No. 2 engine house, be paved, and that specifications be prepared and tenders called for the work. He said that if the property owners wanted the work done on the other streets they should get busy and bring in petitions signed by 51 per cent. of the abutters asking that the work be done. The recommendation was adopted.

John Pitkavich was granted permission to place an electric sign in front of his shop in Brussels street.

Molasses Storage Charges.

Com. Schofield recommended that the order of council of 9th September last, fixing the charges upon molasses occupying city property be varied so to provide that the charges for molasses at the Potters' wharf platform allowed to remain 10 days free of charge instead of 7 days, subject to a charge of one cent per 100 lbs. per week, instead of two cents per 100 lbs., and further that all goods in the city's east side warehouses be subject to the said charges and regulations. Adopted.

Water Department Matters.

Com. Wigmore recommended that he be authorized to sell the Britain house (so called) at Spruce Lake, owned by the city, upon condition that the same be removed at once. Adopted.

Com. Wigmore recommended that the Lawrence farm (so called) which was leased to Charles Thompson and expires on the 1st day of May next, be leased to Andrew P. Stevens for one year at \$15 per annum. Adopted.

Other Business.

Com. McLellan moved a resolution authorizing him to act as a committee to conduct a public investigation into the police department. He said this was a proper step to take. The motion carried without discussion.

L. R. Wilson wrote notifying the commissioners that the Atlantic Sugar Refinery Company in accordance with agreement had started the work of laying the water main from Main Bridge to the Ballast wharf before April 1st.

P. W. Thomson wrote that representatives of the Suburban Railway Company would like to meet the commissioners on the 9th or 10th inst. to discuss the conditions which the city might desire to impose in connection with the proposed line from Scott's Corner to Millidgeville. The matter was referred to the Mayor.

H. H. Pickett wrote, requesting the city to repair a retaining wall under the premises of Mr. Holder on Main street. This matter was referred to the Commissioner of Public Works.

The Mayor said the market receipts for March were \$444, as compared with \$312 last year. The ferry revenue for the month was \$4,925. Water department revenues showed a gratifying increase.

Council adjourned.

## NOTICE TO MARINERS.

ANOTHER HIT  
AT THE OPERA

New York Musical Comedy Company Scores Triumph in "Tomboy Girl"—Record Attendance Assured.

With an attendance that augurs well for a record the New York Musical Comedy Company opened their third week in the Opera House yesterday. "The Tomboy Girl" was the offering. At each performance the audience was most appreciative and gave expression to their appreciation frequently.

Each performance seems to establish the company more strongly in the popular favor; each performance contains something a little better than the preceding one, and each performance displays some new talent which he or she seems to have held in reserve for this particular occasion. The latest possibilities of this clever organization by degrees, are being revealed, and the hold which the company has taken at the local theatre patrons is being attested to each day.

In "The Tomboy Girl" with which they open this, their final week, the company have a delightful little comedy; one that gives Miss Day splendid opportunities to display her powers as an actress more than as a vocalist. The title role which she assumes shows her at her best, as a Miss of eighteen, with a tendency to the hoydenish, she gives a most refreshing portrayal; her natural grace and charm are brought out to particular advantage in the part and she added much to her popularity.

The piece is replete with comedy of the refined character. "Sunny Jim" Flynn comes into his own as a character actor; he supplies a whole lot of original fun during the hour's performance, and proves his claims to the title "Sunny Jim."

Miss Ludlow, the winsome soprano, as usual is pleasing in "The Tomboy Girl," and Miss Etherton, although cast in a role somewhat foreign to her does good work, and in her number "I Should Worry" made a hit. There are altogether ten musical numbers: "Anna Lisa's Bedding Day," "Three Tiny Words," "Poodle-ness," "I Should Worry," "Mellow Melody," "Uncle Tom's Cabin Duet," "Cuddle Up a Little Closer," "Somewhere in the World There's a Little Girl for Me," and the finale, "Variety."

While all of the productions thus far given by the company have more than been an exceptionally pleasing character, and have surpassed the expectations of patrons, the bill which has been selected for inaugurating the present week is among the brightest in their repertoire. There is more action than in the others; several novelties are introduced, the music is of the kind that catches, and there is lots of extra supply of comedy, a happy combination that cannot fail to prove popular with all theatre goers.

"The Tomboy Girl" will be repeated on this paper last Friday, and at three performances tomorrow, and should prove a big attraction.

MISSING NORTH END  
MEN NOW IN AMHERST

Letter Received, Yesterday, Explaining Disappearance—Boarded Late Train and Landed in Nova Scotia City.

Ever since the sudden and strange disappearance of William Shannon and Allen Kennedy, on Saturday evening, March 29th, which was published in this paper last Friday, the friends and relatives of the young men have been in a state of anxiety as to what had become of them.

The matter was cleared up when a letter was received in the city yesterday morning, stating that both the missing men were working in Amherst. The letter which was addressed to Mrs. Shannon, wife of one of the missing men, said that her husband and Allen Kennedy were both working in the car works in that city.

The glad news of the safety of the men and the reassurance that they would soon return and again be with their families, was received with great joy by the young wives, whose minds have been in a perturbed state ever since their sudden disappearance.

Since our last annual meeting the sale of a part of the Trafalgar farm has been completed and \$2,000 paid on account. They offer to pay an additional \$1,000 and to give a mortgage to secure the balance \$3,000 for one year at 5 per cent. interest, which we have accepted.

The directors advise the recommendation of the superintendent to plant a hedge for 500 feet from the rear fence along the Armstrong and Bruce line be adopted, and the superintendent directed to proceed with the same.

The directors are pleased to note that by utilizing the soil and sand hauled from our property at Silver Falls, several valuable lots have been built up and found a ready sale.

THE ANAEMIC CONDITION  
or Bloodlessness

A peculiar pallor or even ghastliness of the skin is the marked symptom of anaemia. The eyelids, gums and lips appear to be almost bloodless. The cause of this condition is the absence of red corpuscles from the blood.

The anaemic patient is usually thin and weak, but may be fleshy and inclined to droop. Stomach troubles and weakness of the bodily organs are accompanying features.

Red corpuscles must be added to the blood, and this can best be accomplished by using Dr. Chase's Nerve Food.

This great food cure is so gentle and natural in action that it is admirably suited for the use of women and girls suffering from anaemia or other diseases which arise from an impoverished condition of the blood.

It is readily assimilated, enters the blood streams and carries health and strength to every organ of the body.

The vigor of the digestive system is quickly restored, and the food taken into the body is properly digested and nourishment supplied to the whole system.

To get well and keep well you must supply your blood with an abundance of pure, rich blood. Nothing can help you so well as

Dr. Chase's Nerve Food

50 cents a box, 6 for \$2.50, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

FERNHILL CEMETERY CO.  
HOLDS ANNUAL MEETING

Report Shows Conditions to be of the Best—Suggest that Property be Valued—May Sell Section along Marsh Road

The annual meeting of the directors of the Fernhill Cemetery Company was held in the Board of Trade rooms yesterday afternoon. The meeting was largely attended and the reports showed the company to be in a sound condition.

The auditor, P. P. Blanchet, who has audited the accounts for the past six months, suggested that the directors make a valuation of the cemetery property and the receding tomb, in his opinion the company have assets that have never been valued. The suggestion was referred to the lot holders committee.

The president, Judge Forbes, reported that he had written Hon. J. D. Haskins asking him to secure shrubs and trees from the model farm at Otawa for the cemetery. The president then asked the opinion of the lot holders as to whether it would be advisable to sell any more of the property along the Marsh Road, next to the strip recently purchased by Armstrong and Bruce. It was the general opinion that as the land in question was not fit for a cemetery property, it was a five hundred feet from the cemetery proper, it should be sold.

The report was found satisfactory, its acceptance being moved by S. S. Hall. The motion was passed.

The election of directors resulted as follows: Judge Forbes, E. T. Sturdee, Dr. James Christie, F. E. Hannington, E. L. Rising, R. W. W. Frink, Peter Campbell, W. H. Barnaby, J. A. Likely and C. E. Scammell.

The report to the lot holders was as follows:

To the Lot Owners of the Fernhill Cemetery Company:

The directors beg to submit their sixty-fourth annual report, with a detailed statement of the receipts and expenditures for the year ended with the Bank of Nova Scotia has been reduced from \$2,623.47 to \$1,618.33, showing a reduction of \$2,005.14.

The total receipts for the year amounted to \$10,935.86.

The total expenditures for the year amounted to \$8,791.77.

We note with pleasure the overdraft with the Bank of Nova Scotia has been reduced from \$2,623.47 to \$1,618.33, showing a reduction of \$2,005.14.

The income for the year may be classified as follows:

From annual care	\$2,255
Burial fees	1,248
Sale of lots	1,248
State vaults, etc.	216
Int. Perpetual Care Fund	2,349
Incidentals	111
	\$8,938

The increased cost of labor has caused an increase in our expenditures of \$800 over last year, and we fear this item will increase. Formerly we were able to hire laborers at from \$1 to \$1.40 per day. The wage today is from \$1.50 to \$2.00.

The other items of expenditure are about the same as last year. The principal items are:

Labor	4,861.11
Supplies, etc.	1,758.30
	1,971.77

The year just closed was an unusually trying one owing to almost constant rain and cloudy weather, which largely added to the labor of keeping the avenues and lots in fair condition. The rapid growth of vegetation, usual, but we think, we have cause to congratulate ourselves on escaping with so little censure.

There was paid in for perpetual care \$4,600 and \$4,500 has been invested in bonds yielding 5 per cent. interest. There is now on deposit in our strong box in the Bank of Nova Scotia \$64,000 in bonds to the credit of perpetual care. We must remember some of our province and city bonds are maturing which paid 6 per cent., and which we are now investing at 5 p. c.

The mortuary chapel and receiving tomb is meeting a long felt want. There were placed in the receiving vault 77 bodies; the fees collected, \$238.

Since our last annual meeting the sale of a part of the Trafalgar farm has been completed and \$2,000 paid on account. They offer to pay an additional \$1,000 and to give a mortgage to secure the balance \$3,000 for one year at 5 per cent. interest, which we have accepted.

YOU CAN PUT UP BEAVER BOARD IN WINTER TIME

BEAVER BOARD makes durable artistic sanitary walls and ceilings. It is a pure wood fibre wall board and is put up in panels nailed directly to studs and joists for new work, or over old lath and plaster for remodeling. It is never papered over; its beautiful pebbled surface takes artistic decoration by paint—oil or watercolor.

BEAVER BOARD takes the place of lath and plaster; it never cracks and never needs re-plastering. Makes a house warmer in winter and cooler in summer.

Let us show you how you can use Beaver Board. Call, write or telephone.
