Dorothy Dodd

EVERY woman loves dressy footwear. Dorothy Dodd footwear is designed to meet individual requirements. Particularly when the demand is for YOUTHFUL footwear, the type of shoe that lends slenderness and youthful appearance to the foot. Dorothy Dodd shoes beautify the foot and they retain their own beauty lines until you are ready to say farewell to them.

Dorothy Dodd shoes artistically blend the leading styles of the world's foremost fashion centres.

When you buy Dorothy Dodd shoes you get what the rest of the realm of fashion is praising and buying, and YOU GET WHAT YOU INDIVIDUALLY REQUIRE.

This is because the Dorothy Dodd staff of master designers, the best organization of its kind in the world, makes the study of your needs a specialty. The new models that we are now showing pleasantly prove this.

OBITUARY.

James Murphy, Sr.

Newcastle, April 2.—The funeral of the late James Murphy, Sr., who died on Tuesday evening, aged 85, was held yesterday afternoon, services by Rev. P. W. Dixon and interment in St. Mary's cemetery. Deceased had been a widower ten years. He is survived by four children: Mrs. James Whelan, Martin and James, of Newcastle, and Mrs. John Burns of Redbank, and the following half-brothers and half-sisters: Daniel Murphy, North East; John Murphy of Maine; Mrs. Daniel Cripps of Napan, N. B., and Mrs. Wm. Crawford, of Lower Derby.

Thomas Kyffin.

The death of Thomas Kyffin which

took place yesterday at his residence on Barker street, removes a well known citizen from the life of the North End. Mr. Kyffin was about 66 years of age and had been ill for some time. He was born in St. John and has lived here all his life, having until lately been employed in the freight department of the I. C. R. Mr. Kyffin's father was a well known sea captain at a time when the sailing ships of this port were known on all the seas, and nearly all the members of his family in those days followed the sea. Besides his wife, who was Miss Doherty, he is survived by four sons and two daughters. The sons are Gerald, John, Edmund and George, all of this city. The daughters are Marie and Kathleen, both at home.

The funeral will take place on Sunday afternoon at 2:30 o'clock from his late residence.

DESPOUDENT OVER DEATH OF FATHER, SHOOT HIMSELF

Montreal, April 2.—Martin Baker, secretary-treasurer of the Township of Dunham, Missisquoi county, and chairman of the local school commission, died in his woodland yesterday morning from a gunshot wound in his head, "probably inflicted by himself while temporarily insane," according to the verdict at the inquest. The deceased had been despondent over the death of his father, whose funeral had taken place the day before the tragedy.

REGULATIONS OF THE LOCAL BOARD OF HEALTH FOR THE DISTRICT OF THE CITY AND COUNTY OF SAINT JOHN.

Concerning the Production and Sale of Milk and Cream Destined for Human Consumption in the City of Saint John, New Brunswick.

(1) No milk or cream intended for human consumption in the City of Saint John shall be sold, or offered, or kept for sale, in said City, unless and until it shall be certified to by the Milk and Dairy Inspector of said Board, that the cows, barns, stables, the food and water supply of said cows, the implements used in the handling of the milk and cream, and, in general, the whole dairy plant of the producer of such milk or cream are in a condition satisfactory to said Inspector, according to a schedule of rating hereto annexed.

(2) Every producer of milk or cream destined for human consumption in said City, shall submit his dairy herd and complete dairy plant to the inspection of the Board, or any official appointed by it for that purpose, as often as may be deemed necessary by said Board or officer. Such producer shall submit once a year, or oftener if deemed necessary by said Board or officer, a statement containing his name and address, the number of cows in his possession, the average quantity of milk disposed of, daily, either to distributors, or milk vendors, and the names thereof, to milk shops and the owners thereof, and to individual customers, and such other information as the Board or its officers may deem necessary.

(3) No person shall distribute or vend milk or cream in the City of Saint John, without a license so to do from the said Board, which license shall be for a period not extending beyond the first day of May next following the date of the license, and which shall be granted only upon the following conditions:—

(a) That such vendor shall satisfy the Board or its officers that the place of storage of his milk or cream shall be at least ten feet distant from any barn or place where animals are kept, and shall not be under the same roof.

(b) That such place shall be at least thirty feet from any collection of manure, privy, filth, or other decomposable matter.

(c) That such place shall be thoroughly drained and ventilated; not be liable to any gaseous or microbic emanations, and be kept clean and altogether in a sanitary condition.

(d) That the floor of such place shall be of cement, concrete, asphalt or other material impervious to water, and shall be free from fissures or cracks.

(e) That the temperature of the immediate place where the milk or cream is stored shall at no time be above 50 deg. F., and that no milk or cream shall be sold or distributed or otherwise disposed of for ordinary uses after seventy-two hours of its receipt, and in no case, if any trace of souring has made its appearance.

(f) That the wagons and other vehicles and utensils of distribution shall be kept thoroughly clean, and in a sanitary condition, and shall not be used for any other purposes whatsoever.

(g) That on one month's notice from the Board requiring him so to do he shall deliver his milk or cream in glass bottles, properly stoppered, and suited in size to the reasonable requirements of his customers.

(h) That it shall be the duty of each vendor of milk or cream to thoroughly wash all milk or cream containers of whatever kind, after being emptied of their contents, in water containing a proper amount of a non-poisonous alkaline antiseptic—then to well wash out in pure water and immediately thereafter to sterilize by live steam or boiling water.

(i) That his wagons and other vehicles used for distributing milk or cream shall bear his name and the number of his license in plain and legible characters and that before the issuance of each such license he shall pay the sum of one dollar to the Board.

(j) That on or before the first day of April in each year he shall furnish to the Board a complete list of the names and addresses of the producers supplying him with milk or cream, and that he shall from time to time thereafter revise such list as additions to it or omissions from it, may occur.

(k) That he shall, under no conditions or circumstances whatever, receive milk or cream for sale or distribution in the City of Saint John from any producer of milk or cream, directly or indirectly, who shall not have had his premises and dairy-plant inspected and approved of by the milk and dairy inspector of the Board as provided for in paragraphs one and two of these regulations, and that upon the infraction of this rule, his license may be at once revoked.

(l) No person shall sell or deliver milk or cream from a shop or dairy in the City of Saint John, unless duly licensed so to do by the Board, which license shall not extend beyond the first day of May next following the date of the license, and which shall be granted only upon the following conditions:

(a) That each licensee shall keep his milk or cream when received in bulk, in earthenware containers, well glazed upon the inner surfaces, and covered so as to be thoroughly protected from insects and dust.

(b) That the immediate place of storage, whether the milk or cream be in bulk or bottles, shall at no time exceed in temperature 50 deg. F., and that all dippers, glasses, or other utensils used in handling such milk or cream, shall be kept constantly and thoroughly clean and wholesome. All permanent containers, as soon as emptied, and not less frequently than each forty-eight hours, shall be subjected to the same processes of cleaning and sterilization as outlined in the regulations concerning vendors and distributors of such milk or cream paragraph 3, sub-paragraph "h" provided, however, that in case of the primary delivery by the vendor to the keeper of the shop or dairy, of milk or cream in bottles, such bottles when emptied may at once be returned to said vendor for cleaning and sterilization. The provisions already outlined as regards places of storage in the case of vendors and distributors shall also apply to the holders of shop or dairy licenses, so far as may be practical and applicable to the individual case.

(5) Each person permitted to sell milk or cream, or licensed under these regulations, whether producer, vendor, or shop or dairy keeper, shall give immediate notice, or cause such notice to be given, to the board, or to the chief health officer of any case of contagious disease in his family, or in the person or family of any one in his employment, or in the farm house or shop, at which, from which or in which the milk or cream is either received or sent, and shall at once carry out the instructions laid upon him and obey the instructions of the board or its chief health officer, consequent upon the outbreak of such disease.

(6) No person shall sell or keep, or offer for sale in the City of St. John any milk or cream which is unwholesome or unfit for human food, or which has been adulterated, or which has had preservative or coloring matter added thereto, or has been reduced or changed by the addition of water or other substance, or (in the case of milk) by the removal of cream, or milk or cream from cows fed upon decaying garbage or other like substance, or from diseased animals, or from animals within twenty days previous to expected parturition, or within six days after parturition.

Skimmed milk or buttermilk may be sold, nevertheless, if kept in containers marked conspicuously with the appropriate name, but no person shall sell milk of either of these qualities unless such quality of milk is specifically asked for by the purchaser. The foregoing regulations with respect to the production, distribution, storage and sale of milk and cream shall apply with equal force to skimmed milk and buttermilk.

(7) Each person, whether producer, vendor, or keeper of shop or dairy, affected by these Regulations, shall permit his herd, barns, premises, general dairy plant, his methods of operating, his transportation and distributing vehicles and utensils, his place of storage and his place and methods of cleaning and sterilization, in short, all his places and operations concerned in the production, distribution and sale of milk or cream to be inspected by the health officer appointed by or attached to the board, at all reasonable hours and whenever such officer may desire to do so.

(8) Each person, indicated in paragraph seven, whenever so requested shall on payment of the value thereof furnish the inspector of the board with such samples of milk or cream as the latter may require from time to time, and at such places as the samples may be demanded.

(9) The inspector shall attach a label to each vessel containing such sample, which shall have written thereon at the time of collecting it, the number of the sample, date and hour of collection and the initials of the officer receiving it, who shall at once enter in a book (carried for this purpose) for further reference, a corresponding number with the name of the owner or driver from whom the sample was taken.

(10) Each sample shall be examined separately, according to its number, by the Chief Health Officer or other person appointed by proper authority for the purpose, which officer shall register the specific gravity, temperature and percentage of butter-fat and other information bearing upon the purity and wholesomeness of the milk or cream opposite a corresponding number in a book kept for that purpose, the name of the owner to be subsequently inserted; and the health officers and sanitary inspectors are authorized and required, whether upon the street, public places or shops of the city, to seize and destroy all such milk or cream as may be thus, or in any other proper way, found unwholesome or unfit for human food.

(11) Railway cars and other carriages and vehicles used for conveying milk or cream to the City of Saint John, must be kept properly cleaned, and, where practicable, the temperature of the air of such car or carriage shall not exceed 50 deg. F.

(12) No one shall receive, purchase, sell, or offer for sale within the City of Saint John, milk or cream from a house or farm in which there is or has recently been, any case of contagious or infectious disease, or milk or cream which has been handled, or a can or bottle containing milk or cream, which can or bottle has been handled by any person who is, or has recently been, exposed to or who lives in a house in which there is, or has recently been, a case of contagious or infectious disease.

(13) In these regulations the singular shall include the plural and the word "person" shall include a female as well as a male individual.

(14) Any person who shall wilfully violate any of the foregoing Regulations, or who neglects or refuses to comply with such Regulations, shall be liable for every such offence to the penalty not exceeding Two Hundred Dollars as provided for by the Public Health Act of 1911.

The Regulations for the sale of Milk in the City of Saint John passed by this Board on the 27th day of August, A.D. 1901; on the 19th day of March, A.D. 1906; on the 28th day of May, A.D. 1906 and on the 14th day of June, A.D. 1910 respectively are hereby repealed.

The above Regulations were adopted by the Saint John Board of Health on the eighteenth day of March, A.D. 1915.

MANNING W. DOHERTY,
Chairman, Local Board of Health
for the City and County of Saint John.

T. M. BURNS, Secretary.

Local Board of Health, City and County of St. John.

Supply of ice (4). Prompt and efficient cooling and storage at low temperature (6)	10
Total	100
Deducted for unsanitary or filthy condition	
Final score	
Inspector	

NOTE.—For especially unsanitary conditions in any group, special discounts may be made from the recorded points, according to the probable danger of infection, contamination or deterioration that may result from the continuance of the faulty conditions.

If filthy conditions exist, the score shall not exceed 49. If the water supply is exposed to dangerous contamination, if a dangerous infectious disease exist among or in the family of the attendants, or if a dangerous infection exist among the cattle, the dairy shall not be scored and the product shall be excluded from the market until the dangerous condition is removed.

If the recorded score is 80 or above the dairy is EXCELLENT.
If the recorded score is 70 or above the dairy is GOOD.
If the recorded score is 60 or above the dairy is FAIR.
If the recorded score is 50 or above the dairy is PROBATIONARY.
If the recorded score is below 50 the dairy should be reported against.
