

DYES TO BE GERMAN WEAPON IN TRADE WAR, SAYS GARVAN

Alien Property Custodian Declares She Will Use Chemicals to Win Back World Peace.

Industrial Germany, depending on the alleged necessity of the world for dyes, is going to use the dye industry as a club to force her way back into commercial society.

Francis P. Garvan, Alien Property Custodian, told the delegates of the National Association of Cotton Manufacturers at their annual convention at the Baltimore Hotel, New York, Friday night.

"The hidden side of the war," he made a strong appeal to the cotton men to support the American dye industry.

"At this moment," he said, "the four men best fitted to conduct a ruthless economic war upon this country, the four men who planned, investigated and paid for all the black history of lawlessness under which we suffered for two and a half years—Albert Brubaker, Boy-Ed and Bernstorff—are the helmets of the present German government."

To fight the German dye industry's enslavement of American business, Mr. Garvan said, the Chemical Foundation had been formed as a quasi-trustee corporation to take over 4,500 of the German patents held in this country on dye processes.

He explained that the aims of this body would be to license to Americans such patents as may be utilized, to give pitiless publicity to future attempts at espionage or propaganda by the Germans and to encourage and foster chemical research by working for co-operation among the chemists of the various manufacturing.

He declared that the Chemical Foundation answered with a challenge the statement of Dr. Albert and Count von Bernstorff in their reports to their government, that America could never establish the dye and pharmaceutical industry in this country as Americans lacked the moral power for such creative industry.

Mr. Garvan warned the audience that industrial Germany, the first to see defeat, forced the military peace in order that, with her industrial equipment intact, she might continue to wage that same war by intensified and concentrated economic measures.

Her methods, he said, are the same in peace and in war, to destroy her business competitors.

He asserted Germany counts upon the dye industry to maintain her chemical supremacy, and has laid out for it a programme of state protection and aid which would startle America.

Today, according to Mr. Garvan, America's own young industry stands in direct competition with the great I. G. Cartel, the combination of all the German dye and chemical companies, subsidized by the entire strength and wealth of Germany.

Dye Factories Yielded Explosives.

In appealing for the support of America's own industries, he averred that eighty per cent of the explosives and all of the poisoned gas used by the Germans in their war was manufactured by their dye factories.

"Unless your armies and your navies," he declared, "are less your own and more the product of a means of a developed dye industry you keep abreast with modern chemical warfare."

"The dye industry has had, and now has, another great function in Germany's machine. It was, and is, the basis of her espionage and propaganda system."

We had in this country the Orensheim Arthur-Kopp Company, a German concern owning a large plant at Cooper, near Pittsburgh. The chief business of that company was the manufacture and installation of narrow gauge railways, dump-cars, tractors, cranes, and machinery of a similar sort used in large industrial plants.

"For twenty years it has put in bids based upon the plans and specifications of every big industrial plant built in this country, and for that same twenty years, blueprints of these specifications and floor plans and elevations have gone on file in the government office in Berlin."

Insurance Companies' Spies.

In this country we had eighteen branches of German insurance companies, largely engaged in the reinsurance business, and these companies collected for their own use detailed plans of all property insured.

STRANGE CASE OF MAJOR SETON AND COL. RUTHERFORD IN THE LONDON COURTS

On April 9 a British court declared insane Lieut. Col. Norman Cecil Rutherford, Major trial for the murder, Jan. 13, of Major Miles Charles Seton, who had had him a month before.

The social standing of the persons involved and the extraordinary circumstances of the crime itself had combined to create an extraordinary interest in the case.

The verdict of the court is intensified by the fact that Colonel Rutherford's mental condition is attributed to shell shock, induced by the war.

The testimony of an alienist that Colonel Rutherford had been a month before the tragedy that he had had a realistic dream in which he killed Major Seton, and that he woke from this dream trembling and terrified.

Cable dispatches about the middle of January related that on the evening of Jan. 13, Major Miles Charles Seton, K. C. B., was shot and killed at the residence of his cousin, Sir Malcolm Cotter Seton, Secretary of the Judicial and Public Department of the India Office.

A coroner's jury on Jan. 24, brought in a verdict of willful murder against Colonel Rutherford, based on circumstantial evidence.

Mr. Garvan declared the head of that system in this country for years before the war was Dr. Hugo Schwitzer, president of the Bayer Company, whose secret service number given to him by the Imperial Minister of War, was 963,192,687.

Dr. Schwitzer employed Dr. Walter Schele, who was the inventor of the little town of New Jersey, in 1913, of the German dye and chemical industry in this country as Americans lacked the moral power for such creative industry.

Mr. Garvan warned the audience that industrial Germany, the first to see defeat, forced the military peace in order that, with her industrial equipment intact, she might continue to wage that same war by intensified and concentrated economic measures.

Her methods, he said, are the same in peace and in war, to destroy her business competitors.

He asserted Germany counts upon the dye industry to maintain her chemical supremacy, and has laid out for it a programme of state protection and aid which would startle America.

Today, according to Mr. Garvan, America's own young industry stands in direct competition with the great I. G. Cartel, the combination of all the German dye and chemical companies, subsidized by the entire strength and wealth of Germany.

On the Wrong Track.
"It's no use running to the painter's every time we wash a little thing," remarked young Bob Doot, in an off-hand style to his parents. "I've got half a pint of varnish and give the front door a coat myself. And that night he went out and returned with some 'finest paint oak' varnish in a golden syrup tin."

He had obtained permission to stay away from the office on the following day, and after breakfast in the morning he set to work. At halfpast twelve the door was opened, but the amateur decorator was far from satisfied.

"There's either something radically wrong with the varnish," he remarked, "or there's more art in putting it on than I thought."

"It's the varnish," instantly decided his mother, anxious to give him all the encouragement that lay in her power. "Depend upon it, Bob, Mr. Brusler, the painter, didn't like you buying that varnish, because he thought you were going to do him out of some work, and he has sold you some bad stuff."

"There!" said young Doot, in a voice hoarse with disgust, as he waved his hand in the direction of the dull and sticky door, "that's the stuff I bought from you."

"You're markin' up the wrong tree," "You're barkin' up the wrong tree, examined the tin. "This is like the tin what you 'ad last night, but it ain't like the stuff. This 'ere's treacle!"

And then it dawned on the amateur decorator that he had mixed the tins. Explained.

Young Jones was very fond of reading about his mother and father and to his admiring younger brothers and sisters, and explaining difficult passages. One evening he was entertaining his family by reading a novel, and he got to that stirring part where it said:

"But, Jack," interrupted his sister, "no clock could strike five minutes past twelve!"

"No clock could strike five minutes past twelve!" "No clock could strike five minutes past twelve!" snapped Jones; "of course it could. It was five minutes slow."

THE WEATHER

Maritime—Moderate winds, showery Washington, April 28.—Northern New England: Showers Tuesday, cooler in Vermont; Wednesday probably fair; moderate south winds shifting to northwest by Thursday night.

Toronto, April 28.—Showers have occurred today in Ontario and western Quebec, while in other parts of the Dominion the weather has been right upper cut. Three seconds after the rose the bell rang ending the round.

In the fourth Leonard landed several blows and Ritchie appeared to be in, but came back in the fifth, trying to force the pace. Leonard took aggressive in the sixth and staggered his opponent in the seventh when he landed a right to the stomach followed by a right cross to the jaw. Leonard sent Ritchie down for a count of nine in the second with a right upper cut. Three seconds after the rose the bell rang ending the round.

In the eighth Leonard looked left to the head quickly. A left jab sent Ritchie down for a count of nine for the second time in the contest. As he rose Leonard jumped at him with right and left jabs and a decisive blow across before Ritchie could get back on his feet. He was hanging the ropes.

NO CASE IS TOO OLD NONE TOO SEVERE

Mrs. Ritchie Proves Once Again That Dodd's Kidney Pills Cure

She Suffered for Seventeen Years from Kidney Trouble and Now a Well Woman Says, "Dodd's Kidney Pills Cured Me."

St. Denis Riviere, Richelieu, Quebec, April 28th, (Special)—One of the most remarkable cures in the long record made by Dodd's Kidney Pills is that of Mrs. Ritchie, who some seventeen years ago was a sufferer from kidney disease in its worst form. Today she is a well woman. And she says with an earnestness born of conviction, "Dodd's Kidney Pills cured me."

"I suffered for seventeen long years," Mrs. Ritchie goes on to say, "from backache, headache and sleeplessness my troubles grew to rheumatism and diabetes. I tried the doctor and other medicines, but I got no lasting good till I tried Dodd's Kidney Pills. I took 12 boxes of them in all. They cured me."

Dodd's Kidney Pills are purely and simply a kidney remedy. But no case of kidney trouble is too severe or too long standing to resist them. If you haven't used Dodd's Kidney Pills, ask your neighbors about them.

DIED

DEAN—At Robertson's Point, Queens county, on April 28, after a lingering illness, Mrs. Chester W. Dean, leaving a widow, and one sister to mourn. (Portland, Me., papers please copy.)

Funeral will take place Friday afternoon from her late residence, McHugh—At his late residence, Loughwood, on the 28th inst., Cornelius McHugh, leaving his wife, one son, and two daughters to mourn. Funeral on Wednesday morning at 8.30 o'clock from his late residence, to St. Joachim's Church for Requiem Mass. (Coaches leave Donahue's Station, Waterloo Street, at seven a. m. old time.)

REGULATING BOXING

Warrington, April 28.—The Senate tonight by a vote of 33 to 12, passed a bill regulating boxing and wrestling contests and creating a "State athletic commission to have supervision over such concerns." The bill now goes to the House.

MOHR KNOCKED OUT

Akron, Ohio, April 28.—John Griffiths, of Akron, knocked out Walter Mohr, New York welterweight, in the sixth round of a scheduled round bout here tonight. Mohr, situated for Willie Loughlin, of Philadelphia, who is ill with pneumonia.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

"That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm, it makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold."

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called "Wynth's Sage and Sulphur Compound." This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wynth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

Wynth's Sage and Sulphur Compound is a fine family cathartic, gentle and effective.

SPORTING GOSSIP

Willie Ritchie Saved By Referee

Benny Leonard, Lightweight Champion, Had California on the Ropes When Fight Was Stopped in New York Last Night.

Newark, N. J., April 28.—Willie Ritchie, of San Francisco, was saved by the referee from a knockout at the hands of Benny Leonard, lightweight champion, 40 seconds before the end of the eighth and final round of their fight here tonight. Ritchie was the ropes when the match was stopped.

Leonard receives credit for a technical knockout. Ritchie fought gallantly throughout the contest which lasted all the way. Leonard floored him in the second round and punished severely in the seventh. The referee had agreed to weigh in at 3 o'clock at 125 pounds, but Ritchie weighed 138 1/2 pounds and Leonard 136. It was probably a pound heavier at the time.

Leonard had the better of every round with the exception of the third in which Ritchie sent effective right hand blows to the body but went to his corner himself with his nose bleeding from a hard right. Ritchie started to carry the fighting in his opponent in the seventh when he landed a right across the face, followed by a right cross to the jaw. Leonard sent Ritchie down for a count of nine in the second with a right upper cut. Three seconds after the rose the bell rang ending the round.

In the fourth Leonard landed several blows and Ritchie appeared to be in, but came back in the fifth, trying to force the pace. Leonard took aggressive in the sixth and staggered his opponent in the seventh when he landed a right to the stomach followed by a right cross to the jaw. THE ATHLETIC AND MUSICAL PROGRAM

Large Audience at Y. M. C. Enjoyed Number of Entertainment Under Auspices of Army Huts.

The athletic and musical entertainment in the Y. M. C. last evening, under the auspices of the Knights of Columbus Catholic Army Huts, furtherance of their work among soldiers, was a significant success in its every feature.

Those who contributed to the musical end of the entertainment were laudably received, and were forced to respect the opinion of John P. O'Neary, Gregory Ward, and Gerald O'Neary, added much to this feature of the entertainment.

Those figuring in the calisthenic and athletic exercises were: Messrs. Burns, Campbell, McManus, Pharr, Brown, Bordenaux, Rodgers, and Binn. All the participants received much applause from a large and appreciative audience, who confirmed their opinion that the entertainment was successful.

Wm. McNulty, James L. McNulty and Secretary Mahoney of the Y. M. C. I. had officiated. It is hoped that the high performance in the future as last evening's product was quite successful.

MOHR KNOCKED OUT
